All I Hold Dear

I'm Sorry

I'm Sorry

It's All You Say

And I Try To Keep My Mind At Bay

But I Can't

It's Always So Hard

Why'd You Have To Play With

My Heart

It's All That You Know

Why Did You Pull Away

My Heart Still In Tow

accepting depression

People these days say
I am gonna kill myself today
some say go do it
I say its already done
cause a gun is not required
you don't need the pills either
all you need is the love we all desire
if you ever feel differently then
situations become more dire
depression doesn't kill
ignorance is the real empire

Allure of the goddess

I looked across my new class
And standing there a goddess
I am sleeping on a cloud my face ashen
Because I couldn't control the fire
Of my own burning passion

I got to know the alluring Deity in front
Of my eyes
As my infatuation grew
She saw this and schemed
She lead me to a place
Where I dreamed
only for her
But when I finally muster the courage
She crushed my heart
Like a flower underfoot
But left me in her shadow
Wishing I could die
Kaput!

Father's Day

Here I am 6 years old
Finding out he's not my real dad
There I go looking for what
I've never had

Here I am 8 years old
You're finally back in my life
I came to visit you then
Little to find out you had a new wife

Here I go 12 years old
You bring in my sister
But it felt like she was from another man
I try to keep calm
But I don't know if I can

Now I've hit 14
But my brother is only 1
Now you're gone
Leaving him to fend for himself
Never to celebrate father's day

When I reach 22
I finally see you again
Your other little turned 7

Here he is
Wondering who this man
In his home truly could be

Sisters

When I was an only child
Life was easy
But I was missing something
Or perhaps someone

Then I become and older brother
For 8 months
Then my Hope
Disappeared
Miscarriage

As Hope was let go
Something new was created
Sophia
A blonde Berserker
She arrived
Ruining my life

No longer the focus
Of parent's love
I settle in the pit of my own mind
Need a light as a guide
In my own darkness

As I attempt to reach
For the light
Something new comes into
Sight

Red hair like the flames that caused my pain
Painfully blue eyes
Like in the ocean I'm drowning in
Dani drove me farther from my parents sight

And farther from the light

Wants

We all want things out of life

A new car

A big house

Lots of money

One want most overlooked

Was important

More than cars

And houses

And money

Something everyone wants

But also something WE need

It can save lives

But can also end them

Ruin them

Or fix the worst life

When you look for that satisfaction

in their eyes

In their smile

The way they walk

The way they talk

That feeling

Four letters

But worth millions

That feeling

LOVE
