Reasons

Lustful

Pain and passion fills me
Pull my hair
Kiss me hard
Grab me as if I'm yours
Can't get close enough
Hands around my throat
Heightening the lust
Pain in all the right moments
Making me yours

Weak

Well that was a slap in the face
My heart leapt out of my chest
After all we have been through
You say "what did I get into?"
How do you think I would feel
Hurt, disappointed in myself
I should have never fallen for you
But here I am
No tears to shed
Just pain
Rethinking everything I've ever said
Every decision I've made
But your the one I want
The one I can't stay away from
Everything about you breaths life into me
From your smile to your laugh
Your eyes can pierce my harden shell
And make me weak
I'm weak for you
What the fuck is wrong with me
I'm never weak
Always the strong one
But here I am weak for you

You

My brain is running
Cant stop thinking
Cant stop these feelings
Your always on my mind
The way you make me feel
Joyous, elated, at peace
I miss you when you arent around
The way you can make me smile with just one look or word
I've been in a dark place
Hating where I was
Mentally you brought me back
Showed me that I'm worth so much more
My brain and heart melt for you
You are my calm
My happy place

Passenger

Sitting next to you
Completely out of control
Not knowing what is happening
Just there for the ride
Complete trust in you
Putting my mind at ease
Complete comfort
Finally relaxed
No need to think
Or be in control
Being your passenger
Brings me peace

Presence

I dont get you
You make my head spin
One minute your all sweet
Next your talking out your ass
Knowing exactly what you say
Is gonna piss me off
And yet you still say it
But I guess I dont get myself either
As here I am waiting to see you
Hear your voice
Smell.your scent
See your smile
Feel you lips on mine
Just to feel your presence
Is all I need

I'm stuck

Sitting here trying to figure out
Who you are to me
Strong emotions, very fast
Very unexpected
Your smile can bring me into the light
Even in my darkest moments
I cant explain my feelings
And you cant either
These feelings
Are something I havent felt in years
And yet I'm stuck
On the words to explain
You deserve to hear them
But I'm stuck
My heart races
When you are near
Your touch
Sends electric shocks through my body
The way you can make me laugh
But yet I'm stuck
On the words to explain my feelings

I'm yours

The first time we met
Playing pool with friends
I noticed you
Not sure you noticed me
We laughed
I enjoyed the company
Not knowing where this was going
We started talking
And continued to talk more and more
We went out together
No uncomfortably
No nerves
All ease
Just like we've known each other for years
As it continues
My heart opens up to you
Feelings grow stronger, deeper
As I sit and think about it
I realize I'm yours

Changed

From day one
I knew
That something
Different was happening
The way you can see right through me
The way you read me
No one has ever done that
Making me feel wanted
And even needed
You changed my demeanor
I'm a different person
When I'm with you
A better person
Happier person
And most of all
A loved person

Fog

Emotions running rampant
Dont know if I'm coming or going
Cant focus
Cant think
Mind is in a fog
Just need to be with you
Why cant I get out of my own head
Nothing is working
Your the only thing that focuses my mind
I cant lose you
Your my clarity

Unexplainable

You do something to me
That I can't fully explain
The way you make me feel
It's totally intensely incredible
The feeling of you holding me
Is unexplainable
N words to describe the feeling
Your kiss
Is the most intensely pleasurable thing I've ever felt
I can feel you kiss throughout my whole body
Your touch
Turns my body into molten lava
Of pure desire
My body yearns for your touch
When your not near
What is it you do to me
I don't understand it

Madly

How did you do it?
You made me fall head over heels for you
You drive me crazy
In the best possible ways
It's almost like we were meant to be
The universe or fate brought us together
For reasons I dont know
All I do know is
I'm madly in love with you
So again how did you do it?
Maybe it wasnt you at all
Maybe it was fate or universe
Who knows
But again all I do know is
I'm madly in love with you

Knight

I never thought
I would need
To be rescued
To be swept off my feet
But here you are
Rescuing me
Like a true
Knight in shiny armor
Valiant knight you
Swept me off my feet
My heart belongs to you

Complete

You came into my life
When I needed you most
You changed my whole outlook
You opened my eyes
To what I deserve in life
You love me for who I am
I dont need to put on a facade for you
I am complete with you
Your my rock
My confidant
The person I always run to
The one I wanna be with
I love you with everything I am

Need

Dont leave me
I dont wanna be alone
I cant do this
Without you
My life is in shambles
But you are always there
To pick up the pieces
To mend my broken heart
I need your warmth
Your strength
Your love
Your compassion
I just need you

Destiny

What did I do
To deserve you
I never thought
I deserved this much
I always thought
I was destined to be unhappy
But when you came
Into my life
Everything changed
I am happy
You showed me
I'm worth more
Than what I always
Dreamt of
You are the true meaning
Of a dream lover

Epic

The love I have for you
Is EPIC
The kind of love everyone dreams about
Everyone deserves to feel this love
But not everyone can
I'm still in shock
That you found me
I still cant believe
I can call you mine
My love for you overwhelms me
In the best possible ways
I feel like my eyes
Are finally open for the first time
This is totally an epic love

Obsession

You engulf my complete focus
Constantly on my mind
Every thought has you in it
When I think about the future your there
Still loving me
You have changed my life for the better
I cant see my life without you
My obsession with you
Isnt easy for me to admit
But you are my obsession
I'm not normally this girl
Who falls so deep, so fast
But with you
I feel we just fit in all ways
In my eyes your the one
I was meant to be with
Engross my life
With your love and presence

Awaken

How on earth
Did you happen to me
What did I
Do to deserve you
Deserve your love
Your affection
Your admiration
Your passion
You make me see
I deserve your love
Your the first thing
I think about when I wake up
And the last thing
I think about when I fall asleep
You have awoken
My soul
My brain
My heart
To a love that I
Thought I never could have

Elated

The way my children
Adore you
Makes this mom
Elated
The way you
Adore them
Makes this mom
Speechless
How could a mom
Ask for more
Just always love
Them the way you do
And I cant
Ask more than that

Desire

Pull me close
Feel my skin
Engorssed in your smell
Your eyes tell stories
Of what you'd like to do
Kiss my lips
Strong and hard
Thrust your hips
Into mine
Grab my tits
Squeeze them tight
Pull me closer
Kiss me harder
Hand trails
Down my stomach
To between my open thighs
Trace those lips
Feel how wet I am
Slowly rub my clit
Kiss me harder
Slide your fingers in
Deeper and deeper
Dripping wet
Pleasureful screams let out
Kiss down my body
Licking my thighs
Bury your face into me
And eat me alove
Screaming, moaning
Gonna get off
You suck my clit
As I cum all over you
You drink it up

And kiss me hard again
Tracing your fingers
Up and down
My now sensitive skin

Yearn

I yearn
For our long talks
Your voice
Your presence

I yearn
For your touch
Your kiss
Your embrace

I yearn
For your need
Your desire
Your passion

I yearn
For your love
Your respect
Your admiration

Magnets

We are drawn together
I can feel your pull
From miles away
You draw me near

We are drawn together
Just like magnets
Slowly moving
To be together

We are drawn together
The closer we get
The stronger the pull
Just to be next to you

We are drawn together
I can feel when you are near
And tell when you are far
Cause your my magnet

Homewrecker

What the fuck is wrong with me
I always said I'd never do this again
Being the other woman
But yet again I put myself in that spot
I can't help the love I have for you
Cause it flows out of every pore
My life was empty
Until you came into it
But being the other woman
Really what was I thinking
I don't want to get in your way
With your wife
I don't want to be the homewrecker
But I can't help my extreme love for you
I don't know what to do
All I know is I love you

My Life

My life has changed
So drastically
But in such a fantastic way
You opened my eyes
To a wonderful new world
The world I always
Belonged to
But never knew it
I can't believe
How much love
I have for you
Everyday
It grows
Exponentially
My life is completely
Amazing since you

Alone

I hate being alone
When you don't answer me
I feel completely alone
I know your with her
And I can be strong
While I know your with her
But every minute I just need you
Right now my life feels
Completely out of my control
And I can't take it
I just need you next to me
But I know that isn't feesable
Why don't I feel complete
Without you
My heart feels like it is torn
Happy and weeping all at once
You are my other half
Your torn between me and an other
I'm strong I can do this
But I just need you with me

Bubble

I've been having a hard time
Dealing with all this bullshit
But the moment I'm with you
Everything changes
And I forget all my worries
I've never been as happy
As I am when I'm with you
When we have out time
I never want it to end
Cause when it does
I'm forced to live in my reality
The reality I dread
Can't we just stay in our bubble
For always
I crave our bubble
My happiness lives in that bubble

Today

Three months ago today
We had our first date
Since that time
Our bond has grown stronger
Stronger than any bond
I've ever had
Not only are you my partner
But your my best friend
And your my lover
The one I dream about
And the one I think about
My love for you has grown
Exponentially
Three months ago today
I would have never
Gussed that I could
Love you as much as I do today

Mi Amor

You're the love of my life
The spring in my step
The smile on my face
The light in my soul
My dream made real
How did I get so lucky
To call you mine
And to have you call me yours
My life is full
My life is complete
So long as I have
You by my side

Crazy

Sitting here looking at you,
Wondering how/why did you chose me
Everyday you show me
The life I've always dreamt of
You awaken this fire in me
Love flows through my veins
Like water breaking through a dam
Igniting a blaze through down to my soul
I never felt a love like this
I'm crazy in love with you

Home

They say home is where the heart is
Well if that is true
You are my home
You hold the key to my heart
The light in my eyes
If my home is you
Bring me home
To your loving arms
The warmth of your skin
Your tender kisses
And the passion in your touch
Bring me home
To where my heart is

Reasons

Oh how I love everything you are

I love

The way you smell

I love

How you laugh

I love

How protective you are

I love

How I can trust you with my life

I love

How my kids became our kids

I love

How you stare deep in my eyes

I love

How you kiss me

I love

How the world disappears when you kiss me

And mostly I love

How you love me just the way I am
