Your so lovely and so sweet
Being with you makes my life complete
Your my lover and my soulmate my friend to the end
Matrimony wedlock this is your friend
Exchanging vows, kisses now your spouses
Soon sharing towels kids in your houses
He has his Best man you have your bridesmaid
You've know each other since the fifth grade
You say your I dos this is for Life
Hes your husband she's your wife
Rose ? peddles flying as you walk down the aisle
Seeing All this happeing brings you to a smile ?
Mr. And Mrs. Last names are now as one
Maybe you'll have a daughter or perhaps a son
You will honor her, love her, comfort her in sickness and in health
Regardless the outcome of your riches and wealth
It's your ? hearts that you both give
For as long as you both shall live
From this day forward for better for worse to have and to hold
Rather we have or don't even when its cold ?
Till death do us part I will always cherish you
Being without you simply will never be true
With this ring ?is a token of our lifes together
I'll stick to you regardless the weather
I'm going to lift your Vail and give you a kiss ?
Knowing our lives together will be a wedded Bliss

Like the hands you see I'll pull you through,
Things happen in life that make us blue ?.
But like this tree it hadn't a choice,
Mother nature was it's voice.
As you grow we try with All our might not to let go,
But like the seasons we go with the flow.
Sometimes that flow is out of our hands,
We say remain humble and grow like The land.
You continue to grow at a rapid pace,
Right before my eyes and my face,
No matter how far or close you may be,
Just look at This picture of the beautiful tree,
I know your up in heaven with the angels,
We'll sing and dance to Mr Bojangles.
So no matter race, creed or your color,
I'll love you like friend, sister, mom , father or a brother.
Just remember when it's time and HE says that's it so,
Always keep in mind just like these hands I'll never let go.

You think it's hard being a parent
Try being a kid that's transparent
Especially in times like nowadays
COVID 19 has been around for many days
No teaching no learning no writing
All the world ? is doing is fighting
Their the most vulnerable to our residual
And their the ones unvaccinated as individuals
What must be running through their minds
When everyone is so damn unkind
They can't even learn right from wrong
Only to some lyrics they hear in songs
So get your child and hold them tight
Inform them that with God they'll be alright

Two days before Christmas ? 2021!

It was the night before Christmas and all through the Walmart not a cashier was working it was self fucking check out the lines are enormous inside and out if you need a basket or a bag you have to scream & shout the shelves are empty and the people are mad people even parking in handicapped spaces when not entitled now that's sad as you shop and walk around you can't see their faces not knowing if the person in front of you has COVID-19 traces rather they do or they don't you will never know regardless it's the places that we must go so if your vaccinated or not just put on that mask so each and every one of us can get on with our tasks 2021 is just about over maybe 2022 will bring us a four-leaf clover but whatever you do stay positive and keep the head up fill-up your glasses or your cups one day at a time in oh so many ways see you all in 2022 and look forward to much better days.

Time ?!

Hurry up were going to be late,
We get there in time and still have to wait.
Never enough or too much of it,
Hitting the time clock when its time to quit.
The ill are given certain amount of time to live,
All their lives nothing but time to give.
Either hoping that their Time passes fast,
Others hoping that their time here will last.
Not enough time in a day to get things done,
They say time is up that's no fun.
Planning ahead marking time and dates,
Spending quality time with your mates.
Many time zones from around the world ?,
Some timezones are extremely hot ? other down right cold ?.
We were Born with a time stamped on our birth certificate,
Making this time in life significant.
Clocks,watches, calendars,? The Sun ? the Moon, all forms of time,
I've said time mucho in this rhyme.
So take your time don't be in hurry,
Rushing to get there in a scurry.
Its better to be late than not at all,
So take your time on the way to the mall.
Once you've lost it no getting it back,
Planning ahead will get you off track.
Live in the presence not the future nor the past,
Because our time on earth ? will never last.

The Fourth of July!!! Evening ?

I'm sitting outside watching All the fireworks,
My puppy is freaking terrified probably thinking those damn jerks.
Fireman and police patiently standing by,
Hoping not to get a call as a result of sky's.

Sucking on chili dogs while slamming those ? beers, watching the festivities while holding someone dear. all the booms and bangs start to fade, just then displays of fireworks ?? start to cascade. you wonder if the madness will ever end, you look around it's only you and a friend. a song comes on that you've once sang, you lock eyes ? then another bang. you Wonder will the sky's stop the raining of Sparks, even when it's getting really really dark. I come inside to find my plant splat on the floor, it was hanging by my glass sliding door. I guess the plant had other plans, I most definitely was it's favorite fan. didn't know my plant was going to be a part, but July Fourth marks The day we depart.so happy independence day to all and to all a good night, hoping it was only fireworks that you ignite.

Thanksgiving ?

Turkey gravy mashed potatoes galore,
Polish off the first plate going back for more.
Surrounded by family and friends laughter and joy,
Next month is Christmas ? will I get a toy ?.
Giving thanks to the Lord is the priority,
Sitting your seat at the table according to seniority,
Playing football outside with your cousins,
Family gatherings by the dozens.
Television ? on with the games,
So many people to remember names.
You give love and hugs to unfamiliar faces,
Just as bubba walks in with a couple of cases.
Soon the atmosphere shifts a gear,
Blame it on my roots and not the beer ?.
As the evening draws to a near,
If you're drinking please don't try to steer.
The day went from a happy house not so rommy,
To a sad and somber and very gloomy.
Rather you celebrate alone with family or with close friends,
Remember the youngsters watching they'll continue the trend.

Ten years sobriety!

It's birthday ? night here at AA,

Have to say that today was a good day.

It's been ten years that I've had a drink ?

Sometimes I'm amazed,makes me stop and think,haven't had a driver's license in 25 years ,

I'm currently in possession of a interlock license wanna share with my peers. I haven't driven or been behind a wheel, in so long let me tell you the deal. The choices I've made while strangled by this disease,It would bring most to their knees. One day at a time is what we're told, but in our minds we'd prefer an icy cold ?*one.* how ever you choose to avoid the booze, keep in mind with AA you can't lose. find yourself a sponsor or a friend, someone who will be there until the END.

St Patrick's day

3/17/22

It's March 17 St Patrick's day
Time to wear green ? be festive and gay
Drinking Irish whiskey and some green beer
It's celebrated same time every year
If you get pinched by someone you think that's mean
It's because your dumb ass wasn't wearing green
They say that Irish is the luck of the shamrock ??
You remember this day from times in the sandbox
So whatever you do be safe in your endeavors
Wear something Green and be happy forever
If you get pinched don't be soar
She might be cute maybe you can score
You can't pinch back if she has on green
If you do she might get mean
Corn beef and cabbage ? is whats to eat
I'll be eating a bowl of Chile with lots beans and meat ?
Enjoy this Day alone or with someone
Drink green beers and have some fun

Happy St Patrick's day ??

Smitty!!!!

We called you Jimmy, Smitty, and Even Hank Fargo,
Oh why oh why did you have to go.
We played the guitar ? and bet some races,
I first met when your daughter had braces.
We lived together and had our times,
We shared the tequila and the limes.
Watching Jeopardy along side of you,
Every answer I hadn't a clue.
Right after that came the wheel,
And We all know what's the deal.
It was a song that was really tight,
About that beauty Vanna white.
You made many tunes and beautiful songs,
Sometimes I'd would actually play along.
You would finish a crossword puzzle before your morning coffee ?,
It was plain and black not that English toffee.
Give you a hammer ? and some nails,
You could build a boat with sailing sails.
Whatever needed to be fixed you'd bring your nailgun,
By The end of the day a Job well done.
My friend my rommie, my brother from another mother,
We could search to world ? over and over,
But Smitty, Jimmy and Hank we're like no other!!
Miss you my friend Smitty
Love bubs!??

Seasons

I call it autumn you Call it Fall,
But who am I to make that call.
The morning gets colder the evening more crisp,
As the leafs blowing up a mighty good whirling whisp.
With this season brings tricks and treats,
We get the needed relief from the scorcher of heat.
As it gets colder we change our clocks,
Time to harvest them healthy stalks.
Pumpkins witches and corn ? field maze,
Cooler evenings with shorter days.
Some animals gather food as birds migrate,
Getting ready for the season for which they hate.
Turn up the heat and change your clocks,
Take your love one on that evening walk.
Enjoy this beautiful time of year,
Before you know it you'll have to cover your ears.
The leaves be falling ? to the bottom,
As the wind blows strong in autumn.
Which is your favorite?winter ?? summer ? spring or Fall ?,
I'll leave it to you to make that call.

Pumpkin ?? patch

Pumpkins to the left pumpkins to the right,
Pumpkins down the middle what an amazing sight.
Pumpkins neverending from Big to small,
Isles looks that of a Mall.
Like going shopping and picking out a gift,
Some of these pumpkins look to heavy to lift.
Picking a good one requires an eye ??,
As you do you capture the sky.
The clouds are grey with rolling hills,
The weather looks like it could bring chills.
You walk both sides of the patch,
Hoping a cold you don't catch.
So take your pick And Make the scene,
Let's carve that pumpkin ready for Halloween ?.

Pops

It's a day that we call father's day,
Unlike mothers day it doesn't fall in may.
He was there at time of conception,
He's my pops with no acception.
He may have thought you a thing or two,
Whenever in doubt he showed you what to do.
From riding a bike,to flying a kite,
There were days that you were tight.
He would showed meaning of right from wrong,
He showed the guitar, and to play a song.
He's you mentor, your coach and even your friend,
This is the man to be with you to the end.
Whether he's biology your pops,step father or your real dad,
Always cherish him now because when he's gone it's really ? SAD.!!

Podiatrist ???!

I sit here in the podiatrist he's examining my feet,
It hurts so bad tears ? came rolling out to the beat.
He says I have bone spurs and need a shot,
Thank God it's Cool in here and not very hot ?.
Tomorrow I see hanger clinic to get my orthotics incerts,
Hope it helps the pain and stops the hurt.
But no matter what he does to my feet,
I look in the mirror at least my hair is neat.
I'm gonna make an appointment for My other foot,
As I say that he recommends a boot.
I'm back today at my podiatrist for a second visit
Hope this visit it's more explicit.
I got a shot and some new supports,
Hopefully I can get back on the basketball court.
No matter what is done to my poor hurting feet,
I will still have a smile when we meet.
The time has come to say goodbye,
If he touches my feet I'm gonna cry ??.

Paths

The path ahead is neverending,
Depends on the steps on which your sending.
Like dorthy and Toto in the wizard of oz,
The path you take results in your cause.
The rails are there for your safety,
Beyond them rails it could become somewhat hazy.
As you walk you become very engaged,
And then realize how you have aged.
But with the time comes the years,
You could do nothing to hold back The tears.
It's then you come to that point,
That you stop to ignite that joint.
With all these words let's keep in mind,
The path you take will never be kind.
So choose your steps and direction,
Find someone that shows affection.
One foot in front of the other,
Show some Love to one another.

Inspired by Smitty and Boe

One day at a time!!

You can always come back tomorrow but it will never be today, so if it's something you have to do or say get it out of the way. why look backwards of what could have been, put that coffee ? in your cup or maybe some gin. live in the present not the past or the future, do for your self don't become a moocher.stop looking back at yesterday live Life to the fullest,don't worry about the grey it's the latest coolest. yesterday is gone and tomorrow isn't here,why worry so much there's nothing to fear.stressing your mind about what has happened, only makes you weary and very saddened.no should've could've or what might have been, today is the only Day you need to pencil ?? in. Only twenty four hours that come in a Day, before you turn off the lights remember to pray ?.

On this road called life!

You have to smile when you're sad take the good with the bad always be grateful with the things that you have/had. people change and things will go wrong if you don't believe me listen to your favorite song. you could be alone

Or along side your wife when we first met you said you'd be together for life. Happy times together ruff patches we've sewed payed bills for one another for which were owed. You both smiled with the arrival of your first born

After the loss of your thrid you both begin to mourn. But you must smile when you're sad showing that your strong going back to the music ?? and the words in that song it says never give up you can count on me. Pick me like your favorite outfit or that ? from a tree ?. I'm full of wisdom and knowledge I'd share when I can before you know it I'm your biggest fan. So on this road that we call Life it has many twist and turns becarful with the snakes and fires ? you will get burned. Just remember when things are upside down it's always better to smile than to frown ?. Like dorthy had a road and a path she had to choose One took her freedom the other she couldn't lose. Take your path and enjoy the view. Put one foot ? in front of the other Love thy neighbor and your mother.

My hurting feet

Now what you hearing is not a test,
Its really late I should get some rest.

I'm trying to rap or write to the beat,
But it's hard to think with my poor hurting feet.

I haven't been able to concentrate or be productive, trying to Walk upright and stay constructive. it's like there on fire and extremely numb, if I say I don't hurt would be dumb. just putting on a a pair of socks, ? it seems like there filled with rocks. putting on my shoes ? is a different story, it's like watching a horror movie screaming and gory. but I succeed at both and must continue with the day, if you asked me how my feet fill I'd probably have nothing to say. I'm not being rude by any means, my condition isn't hereditary through my genes. its called peripheral neuropathy it's no fun at all, if I'm not really careful I could tumble and fall. it's been fifteen years and it never changes, pain and discomfort have different ranges. it's something that I must deal with rest of my life,

Mostly caused when I went under the knife. ?.drinking my life away didn't help, sometimes my feet cause me to Yelp. no matter what Life throws at my direction, when I see you it's love and affection. so when you see please don't ask, with my feet how'd I perform that task. it's pure positivity and your outlook, I been writing a lot I should do a book. about Life and it's up and downs, it's better to smile ? than to frown ??.

My 8year sobriety poem ?

I found it hard to exacute this poem
As I am sitting here at My home
Playing my Xbox driving like crazy
Wishing I was actually driving miss daisy
Refraining from that booze One day at a time
At least I'm not out committing any crimes
My puppy 'Ginger' right by my side
She's like the kid knowing that daddy has All that pride
Not only sobriety that I have gained
But its my Life that I have maintained
Maintenance is the key to keep me in check
I can't just say I'll just have one what the Heck
I still have to be aware of my surroundings
Like the places I'd go to do my pounding
The pounding of booze all Day long
With tears in my beer with every song,don't get me wrong staying sober at first was very hard
Now I'm careful not to play that card
I still don't have a license or a car
But you won't catch me in any bar
Whomever reads this poem take as you will
It's been eight ? years and I'm no longer ill
So if you have a drinking problem that goes on All The day
I also had the same but thanks to AA
So swallow your pride and just say no
Cuz after a meeting or two it's the place to go
But whatever you do don't pick up that drink ?
Instead attend a meeting give yourself time to think
Meditation walking and reading your book ?
Before you know it you'll become hooked
But in the end do it for yourself
Love you and not what's on the shelf
I'll end my poem and bring it to a halt
Take these words with a grain of salt ?

Memorial day

It's memorial Day a day for vets,
The majority of us simply forget
We shall honor those who served and fought the war
Well many of us will be at the store
Getting things ready for the day
I salute you is all I can say
It falls on the last Monday of May
It's the soldiers that had to pay
It's a somber occasion a time to honor
Let's not let this day become a goner
We put flowers on their Graves
For those who were the bravest of the brave
We salute those who are wearing their scars
In my eyes their the stars ????
I'm gonna end my so called poem
Hoping all stay safe at home ??

Latchkey kid not!!!!

Latchkey kid that wasn't me
You needed a house ? to have a key ??
Always somebody home ? no need for that
Too many of us to own a dog ? or a cat ? talking about hand me downs we had it bad
You got what you got sometimes it was sad
Your sisters shirt ? and your brothers shoes
You had to wear it even though you were blue
Moving a lot so many places several schools and hundreds of faces
Are you moving or going to the dump is what they say
To my brothers and sisters it seemed like a regular day
No matter the struggle Mom kepted us Fed
At the end of the night we all shared a bed
Tortillas beans potatoes and Red ?? chilie
Hit the spot when the nights were chilly
Our house ? was always full,full of love ?
Thanks to the great Lord up above ?
In reality to me the past I don't remember much
But Mom had the heart ?? and that gentle touch
So no need the necessity of a key ?
At home I knew my mom would be

James Smitty Hank Fargo"

The time has come to say goodbye,
Well shed some tears as we cry.
This won't be the last time we meet,
At the pearly Gates that's where we'll greet.
This day will be somber and sad ?,
Because your gone we can't be mad.
This is only a new chapter and journey ahead,
With your passing like Jesus your really not dead.
Some Will grief in their own different ways,
I look forward to the wonderous days.
Your are at such peace with no more pain,
It's God and heaven which have gained.
We all have our own memories of Hank Fargo,
As we realize heaven isn't far to go.
I'm going to end this rhythm or as I call it a poem,
Knowing in my heart ?? I'll see you at home ?.

Jack n coke

Jack and Jill went up the road to get a fifth of crown,
They got hammered hit a ditch and both nearly drowned.
Seagrams 7 Jose guervo Jack and coke,
They mixed all,all through the night not thinking, thinking it was a joke.
Margaritas frozen or not,
They slam One at every other spot.
Hitting the joint and doing a line,
While driving and bar diving thinking their fine.
drinking and dancing mingling with friends,
Somebody suggest Uber or Lyft so a taxi they send.
You and Jill refuse the ride,
But your buddy says Jack just swallow your pride.
You come to your senses and find yourself in your bed,
You awake in the morning instead of being dead.
I'll end my poem with these words in mind,
It takes nothing to smile and be fucking kind.

It takes very little to change a life

It's takes nothing to extend a hand
Being shaking it or lifting from the sand
They May be down on there luck
Lost a job, a wife a Boss who didn't give a fuck
It takes one hello to smash 1000 looks
They had a job a manager or a Cook
Their not a book don't judge the cover
From a little girl, teenager or a mother
Looks can be deceiving in every way
Being Nice, kind could change their Day
Change their day you haven't a clue
If they told you,if you only knew
You'll be surprised by what words can do
Not only words that make them blue ?
Instead of negative thoughts or nasty comments
Give them a hand or or buy them some garments
A New pair of shoes ? or a pair of jeans ?
Some don't want others need by all means
Their human beings just like you and I
They hear names and labels that make them cry
So if you encounter a homeless,jobless, family less,toothless, shoeless person along the way
Think before them words come out, a positive thought goes a Long Way

International balloon fiesta/Albuquerque NM

International balloon fiesta comes once a year,
Hundreds of balloonists and pilots Will be here.
From the gas race, special shapes to the balloon glows,
It all comes to a end with a afterglow fireworks show.
Some balloons may never get off the ground,
When the envelope gets filled oh what a sound.
They accend to heights for me I'd shiver,
They flow gracefully and skim The Rio Grande River.
If your lucky and get a personal sight,
To watch the pilot ignite his flight.
Especially if it's at The dusk Dawn,
Enjoy the sight as you yawn.
As you sip on your hot chocolate and eat your breakfast burrito,
You look at your kiddos and they daddy this is neat-o.
Whether you enjoy in person or from your front door,
Seeing these colorful balloons makes you want to soar.

International balloon fiesta/Albuquerque NM

International balloon fiesta comes once a year,
Hundreds of balloonists and pilots Will be here.
From the gas race, special shapes to the balloon glows,
It all comes to a end with a afterglow fireworks show.
Some balloons may never get off the ground,
When the envelope gets filled oh what a sound.
They accend to heights for me I'd shiver,
They flow gracefully and skim The Rio Grande River.
If your lucky and get a personal sight,
To watch the pilot ignite his flight.
Especially if it's at The dusk Dawn,
Enjoy the sight as you yawn.
As you sip on your hot chocolate and eat your breakfast burrito,
You look at your kiddos and they daddy this is neat-o.
Whether you enjoy in person or from your front door,
Seeing these colorful balloons makes you want to soar.

I love ? you

The three words most want to hear
Not when you want sex or drinking some beers ??
People use the word Way Way too much
Usually after someone sick or when outta touch
Love and hate the two strongest words a mouth can produce
Usually when fighting or trying to make a truce
Some May be offended if you say it or not
Some say the word right after they faught
Dying in their death bed the word they want to hear
You say it to them as you shed a tear
Loving someone shouldn't have to hurt
We use the word when were trying to flirt
Some have a hard time saying sorry and I love you
Some don't get either and are alone and Blue ?
If you're going to say the very strong word
Be sure you mentally set so your word's are not slurred
You can love, give love, or be loved
But if you give a little bit to much you may be shoved
Your definition of Love may not be the same
Some say it just to participate in the game
So love thy neighbor like your food on your shelf
Because you can't make love all by yourself

I don't want to die today!!

I don't want to die today,

But who AM I to say.

I'm minding my business driving my car,

While Bob is highly intoxicated coming from the bar, I hear sirens and see red and blue lights , screeching tires oh what a sight.the light turns green i cautiously proceed,it's almost instantly that I was in need.

I got T-Boned by a truck running from the law,had to get removed by the claws. Luckily I was driving alone, from the looks of my car from the Tbone. I don't want to die today, on my lunch break it's My birthday, but who am I to say,

On my way back to work got smashed from behind, before you know I'm completely confined,I don't want to die today but who am I to say , just because the other driver was pounding*Jose* it's graduation day, getting my diploma shouting hooray I don't want to die today but who am I to say. Just because I'm not drunk, who's to say that it's a punk. That because of his drinking and driving, it's my family that's surviving. Surviving without me as a result, of something that totally wasn't my fault.

You could be minding your own, while the other May be drinking or on the phone. DWI kills more then we think, be respectful and responsible when you decide to Drink. I don't want to die today,but who am I to say, stay positive and let's have a great fuckin Day.

Human!!

We rolled up to a parking spot,
Saw a man with not a whole lot.

Obviously he was homeless asking for a\$1 for something to eat, Sister popped her trunk we put shoes on his feet. The Joy he was experiencing brought me to tears, although his appearance we had nothing to fear. As we put the shoes and tighten his belt,the appreciation he was showing was definitely felt. Sister gave him a couple of dollars I gave him some pot, wasn't much but it was the thought. A young man walking by seeing this unfold, he chipped in \$20 guess he was sold. This poor guy dirty, unbathed, a rope for a belt, for a short moment I felt the smile he had delt. Our deeds were delivered to a man named Michael, I could only imagine the life he has to cycle. Next time you come across someone who's in need, let go of that pride and some of your greed. Were all living under the same dam roof, don't walk around like your bulletproof. If it's your hand that you're extending, do it honestly and not pretending. Time to bring this to a conclusion,

Please don't let what you see literally be an allusion .

Homeless people and homeless pets.

Homeless people homeless pets ? ?
Being out there hard as it gets
Both were once owned and loved by another human being
Now both owners are nowhere to be seen
They scrounge around for food or shelter
While their lives become a Helter skelter
Neither nor the other asked to brought into society
Wondering aimlessly around loaded with anxiety
With nothing to eat nor a bed to lay a head
Majority of them will be left alone and found for Dead
Both are the same in every way
Both not knowing of the day
They once had a home ? to call their own
Now either have a Bone ? or a phone ?
They been giving names and tags for identity
Now everyone they encounter becomes their enemy
If the hands or words that your extending
Do it for real and not pretending
Don't laugh, belittle, or show them shame
It's not their fault they not know their names
They're giving up to shelters and adoption
Both are left with no other option
Sitting sulking just wanting to cry ?
All Day hoping that they die
They both have human like characteristics
As they become part of the statistics
Next time you think you want a child or a pet ?
Just be sure that you financially/ mentally set
Because they're not material or objects of desire
As they sit there like a Bird ? on a wire
So love your pets and your child
Because out there it's really really wild

Hell

Domestic violence or child abuse
Can't be fun receiving The bruise
Getting kicked around and punched in the eye
While they stand over you as you cry
Verbally abusing and belittling you
Until your heart hurts and your black and blue
Staying quiet is what your told
As you look at them they think there bold
Their lives have become such a mess
While they exchange love with their bones and there flesh
Grandma asked how you got them marks
You Tell her it's from going to the parks
You only say this because you want that New toy
While you've been getting beat since a little boy
Physically mentally or emotionally it's all the same
Whatever you call it it's fucking lame
Treat your kids and your loved ones with utmost respect
Because you'll never know of the risidual effect
The song says hell is for children let's prove them wrong
Showing them that its only a song
Hug them hold them give them kisses
Because when there gone you'll be missing

Growing up!!

Growing up it wasn't very easy,

With eight kids Mom made it look easy peasy.

While my oldest sibling being ten years old,

The youngest was on the way is what were told. eight of us was definitely enough, you learned Early in life to be Wise and tuff. Five boys and three girls definitely had her hands full, us kids would give mom hell but she wouldn't take that bull. Always clothes on our backs shoes ? on our feet, she'd be sure our hair was nice and neat. many neighborhoods many schools, mostly the kids were nasty and cruel. we moved so much it wasn't even funny,

I'm assuming it was because our lack of money ?? . Three elementary schools and three middle schools, and many many public swimming pools. With so many many cousins and family reunions, there was enough of us to form a union. From picking pinion to recycling aluminum cans, to our grandmother sewing ?? a rather large afghan. From playing tag and ?? red Rover Red Rover, holding hands hoping it's you they called over. Hide and seek and pick up sticks and Simon says, All played with siblings and kin known as the Chavez's. No internet or cellular phones, we had strings at the end were cones. No cable television or channels to choose , you had a screwdriver and plyers and they weren't for screws. You used them to change the channel and for amplification, it was sometimes impossible to find a station. But in reality not much time was spent watching the telly, instead you were outside playing eating peanut butter ? and jelly. If you fell playing and got a Boo-boo, you didn't get a bandaid that'll be considered cuckoo. Got up and dusted yourself off, no such thing as having a cold or cough ? played outside till the street lights came on or Mama called out for you, that was the time to get your asses home or get beaten till you black and blue ?. Kids today have no fuckin clue, when bitching about a new pair of shoes. Simply spoiled rotten to the core, never satisfied always demanding more. Time to bring this to a conclusion, Knowingly that My childhood wasn't a delusion.

Fourth of July/Independence Day! ?

The declaration of independence the fourth of July
Lots of fireworks ? displaying in our skies
Family and friends gathering to watch it all
As they ignite and the sparks start to Fall
Picnics BBQs and baseball ? games
Hoping the displays cause no flames ?
We are Free as a country to do as we will
Just as were told to take this pill ?
Our flag display stars ? and stripes
Which gives us freedom not to gripe
Whatever we do let's do it with responsibility
Rather your at home ? or at a facility
Eating your hotdgs ? hamburger ? and watermelon ?
Others Will enjoy shots and beer ? by the gallons
Let's enjoy this beautiful time called independence day
If you see me BBQing you should come My way
I'll flip you a burger and give you a beer ?
Give me a minute I'll talk off your ear
Well ignite some fireworks and watch them soar
As our children watch clap and roar
So however we enjoy the fourth of July
Eating,drinking or filling up the skies
Let's remember that whatever goes up must come down
So don't be that idiot or the clown ?
Remember the little ones watching all we do
So don't do anything that you think is Cool
Show them that a *Punk* is used to ignite the fuse
Not a punk abusing the booze
Stay safe and have some fun
Starting this day in the Sun ?
From the lighting of fireworks to the gathering of friends
Put on those colors ?? ? ? and continue the trend.
Happy fourth of July/independence day peeps!

Fishing/Angel fire ?

As you Head for the derby to catch a fish
Maybe it's the prize or just one for your dish
There be hundreds of anglers using their baits
Some will have lures with lot's of weight
Some will be there for that biggest catch
Be sure to wear repellent so you don't scratch
Time on the boat ? you catch some fish ?
Not the biggest as you wished
You head back to the cabin to prepare dinner
Kinda of upset that you didn't catch the winner ? as you attempt to clean the fish you slip and fall but
it's not serious enough to make the call how could this be I'm not even drinking just then that you
start thinking if I was I wouldn't have gotten hurt Lawrence says is that blood on your shirt you say
you mean this big Red ?? spot he says forget it it must be the pot ? just then he hands you a shot
and a beer ? you both toast to a cheer.

Expect !!

You expect for the door to be held Open

You expect a thank you,you expect a welcome

You expect a tip for your service

You expect change from your dollar

You expect food when your hungry

You expect a answer from a question

You expect a right if your wronged

You expect to get hi when you inhale

You expect to get intoxicated when you drink

You expect water to flow from your faucets

You expect to lose weight when you diet

You expect someone to answer when you call

You except the light to come in when you flip the switch

You expect the bathroom to be open if you have to piss

You expect your kids to eat when you feed them

Many things in life we've come to expect

When and if it doesn't our lifes become a wreck, so do what you gotta do get your life in check, do your deeds pay or collect ,live life to the fullest and don't neglect,that filling you get when you Don't EXPECT!!

Easter Sunday ??

Here comes Peter cottontail hopping down the bunny ?? trail,

But in reality the tru meaning is behind those nails ?.

Kids be hunting for eggs at every spot,

Some find none others find a lot.

The golden one is what there looking for,

No matter how many they always want more.

BBQs picnics and hanging with the friends,

Most of us can't continue the trend.

But let's not forget the tru meaning Easter Sunday,

Regardless the next day is always Monday.

As for the kids its coloring,decorating and hunting of eggs ?,

As adults we know its because of the nails penetrating his hands and his legs.

He scarficed his Life then resurrected,

For the forgiveness of our lies he corrected.

So paint ? your eggs silly and funny,

Grab your basket filled with cream filled bunnies.

Go to church and have some fun,

Plan for early and stay out the Sun ??.

Thank you Jesus for forgiveness of our sins,

As one Life ends another begins.

It's because of you that we exist,

Life not going right we get pissed.

Whatever you do on this glorious day,

Keep in mind whom had to pay.

Time to conclude these words I write,

Jesus and I are somewhat tight.

Be Nice courteous and open your door.

He wouldn't ask of nothing more.

Dying/life

Leaving this world ? when it's our day
Regardless the medicine or what the doctor say
When were dying our loved ones are sad
We don't understand why? So we get mad
Some know when God has opened its gates
Other haven't a clue of what he has in fate
Some live a healthy and prosperous life
Others leave behind a husband or a wife
Being Born is such a god given miracle
Up in heaven The sounds are so lyrical
From the trumpets horns guitars ? and harps
My pops and tios will playing in F-Sharp
Singing dancing and celebrating death ?
We can't be mad/sad as they consume their last breath
Remember that Jesus Christ our savior and lord
Has a plan for each and every one of us as the music strikes a chord
We will miss our loved ones with out a doubt
We must continue life without a pout
Dying is like living so live Life like you were dying
Because when your gone it's all over but the crying
So rather your celebrating a birth or suffering a loss
Get down on your knees pray to the cross
Let's celebrate a death just like a birth
Because we are only temporary on this earth ?

Death!!

People close are dying at alarming rate
People I love people I don't hate
Some die from sickness and go to places
We put their ashes in what look like vases
Some know when they have taken their last breath
It's then that they've have conceded death
Some get cancer and hear stage four
Some fight to the end knocking at the door
Some are healthy most are not
Some give up the battle they have fought
They are not gone by any means
Their the sun that makes the grass green ?
Their the moon ? and the stars ? in the night
Their The snow ?? The wind ??and the plane that's about to flight ??
They did not die their souls are still around
You'll know their there when your heart ?? begins to pound
So grief as you must for your loss
Get down on your knees pray ? to the cross
Remember their not gone only moved to a better place
Styling and profiling with God's Grace
So rest in peace ?? to All that have departed
Because when we die back to where we started
Jesus Christ our Lord and savior
Says be kind we owe him that favor
Hold what you got and hold them tight
Could be your loved ones fighting the fight

The silhouette of you sitting in your chair

All I could see was a shapely image of beautiful hair you was reading a book in the dark ??? ginger and I were coming from the park took me forever to get your name everytime I see you your surrounded by a flame ? I know your young and out of my league my walks used to be tiresome and with fatigue as of late my walking has doubled maybe even tripled feet would hurt filling like I was crippled the anticipation of seeing you as we round the corner as in your presence I fill that of a foreigner I admire you not only for your beauty but also your beautiful daughter she's a cutie ? I'm so tounge tied when I try to speak wanting to ask for a kiss on the cheek

That's probably out of line maybe just cook a dinner wine and dine you say that your low in self-esteem I've have no problem having you on my team you're one if not the prettiest ? and most admirably individuals I've ever met I'm going to sink All this positivity into you until you get just remember smile ? when your down makes that frown turn upside down thank you for talking and being our friend you ever need me I'm there till the end I'm going to end this rhyme or so called poem maybe on my next Walk I'll catch you at home ?.

You got what I got, and if I didn't love ? you I couldn't get drunk on you this is my kind of party
because I'm just a small town boy while we're dancing on the neon moon ? you make it easy, blue
definitely ain't your color you have me chasing after you I know you're not heartless, at times I try to
be a one man band, because you have a body like a back road, I know we are meant to be, your
love ? is like a hurricane, I don't want this night to end your from sweet home Alabama something
about a truck that makes the thunder ? roll there is definitely dust on this bottle because tequila
makes her clothes fall off, may I have this dance so let's have a barefoot blue ? Jean night, I'm
completely wasted on you, so if I die young, you know what hurts the most is that I found you on the
boondocks, listening to Rodeo, the kind of love ? we make is unreal what was I thinking I knew that
you was a crazy girl but in case you didn't know you have Angel ? eyes are you just going to sit
there or are you going to kiss ?? me.

Christmas ??? 2021

It's December nearing The end of the year,
Time for gifts ? and drinking beer ??.
2021 was supposed to be a better one,
Got vaccinated wear masks thought this was done.
Who do we believe, who do you trust,
But in reality vaccination and mask are the must.
Santa Claus reindeer and even elfs,
Going shopping and seeing empty shelves.
We forget what Christmas is all about,
Kids opening gifts while they scream and shout.
It's the birth of Christ as we attend mass,
Not understanding the price of gas ?.
There be celebrations around the world ?,
Listening to Christmas songs, it's going to be cold ?.
Some will have rain ?? others snow ??,
Some will travel to families they go.
December will bring Christmas ? lights luminarys and spiked egg nog,
Falling leaves snow and perhaps some fog
December thirty first ends the Year,
As the clock ? strikes midnight lets lose the fear ?.
Raise you hand or your glasses,
Start the New year and get off our asses.

All be with Santa on their mission.
As Santa calls their names ready for take off,
Can't forget the great ole Rudolph.

They get ready for the flight,
So be good bad or even naughty,
As you sip on your cup of Hot toddy.

Cancer!!

Doctors say you have cancer oh what do you do, it's at that moment your Life becomes blue. they can't tell if it's stage One or stage four. Either Way your looking to run for the door. Is it kimo or radiation will you survive, just then you remember that your still alive. you can't help but to think of the days ahead, wondering what life will like when your Dead. Cancer isn't prejudice it preys on us all, remember that Jesus Christ will be there when you call. But just because it's cancer you might not die, well your kid's hear this they start to cry. so just take the News with a grain of salt ?, don't stop what you're doing and bring Life to a halt. Take One day at a time day by day, and listen to God remember to pray ?. with positive thoughts and Christ My lord,

There's no reason to cut the cord. So live life to the fullest smile don't frown, continue to pray ? to the man with the crown ?.so if you're diagnosed with the ugly*C*word don't discouraged ,pray ? to God he'll give you courage.so with these words I'll end this rhyme, God will call you when it's your time.

Cancer sucks

Cancer is a word nobody wants to hear,
But then you first hear it in your early years.
They say your mom has it And shes going to die,
Tears start rolling down as you start to cry.
Your in your early teens and don't quite understand,
I'm only 13 is this what God has planned.
Several years pass then your pops has it too,
Why this happening you haven't a clue.
It doesn't take him as easy because he's a fighter,
But in time it does just as we were getting tighter.
Some time passes I'm told I have a tumor,
I take the news will major Ill humor.
I get treated and am expected to live,
Take my advice And give give give.
Couple years later brother Chuck gets really really sick,
I pray to God that it's not him that he doesn't pick.
But in no time at all it becomes stage four,
God was calling him to his door.
Brother Gary went in a different way,
I miss all four every single day.
Whatever you do let's change our ways,
Looking forward to much better days.
That C word is not good at All,
Before it's to late make that call.

When I decided I had to stop ? I had to become both brave and honest.

Deciding to quit took some balls

I bet my boss got tired of all the calls

I wasn't brave enough to be honest to tell her the truth I've had a problem since my early youth I wasn't honest to my family or friends guess I thought I was continuing a trend I wasn't brave enough to admit I had a problem got so inebriated I thought I was Robin bravery only shown while I was drunk I can tell you honestly I acted like a punk honestly I can tell you I wasn't brave at all I couldn't pick up the phone to make the call if I did dial a number, when the phone would ring I was like dumb and dumber I acted like that if I was shy I wasn't honest or brave I'd just lie you can only be honest and brave with yourself be a man put that bottle back on the shelf be brave and honest admit you are powerless to this thing we call alcoholism do not let this become an ism.

Boxing ?my amateur career

I started boxing at The age of ten,

There were kids boxing against what looked like Men. tiger ? was my nickname after My first fight,, my dad was my coach we became kinda tight.we'd train every day sometimes at other clubs, we would spar with the best kids sometimes with the scrubs. then came the weekend is when there were fights, we weighed in Saturday morning matchups were later that night. staying in Albuquerque or traveling out of town,boxing ? a friend or foe earning that crown ?. I myself experienced about 4 years of competitive action, winning mostly,losing was only a fraction. had several fights starting at ten years of age,my name was usually on the program or somewhere on the Page. at 13 years old in Arizona i entered a three day national boxing tournament, fought four boys in 3 days winning all 4 I was fortunate. Mom was my biggest supporter and biggest fan, when I fought I fought with I can. seeing her ringside cheering ? and screaming,rather I won or Lost she was always beaming.even while she was very very sick, I was always moms favorite pick. she passed away early in my teens, I lost interest in boxing thought life was mean. I only wanted to fight and not willing to train, I begin to lose not thinking with my brain. I retired about a Year later with nothing in my tank, I want to give Mom and dad All the thanks ???.

Birthday ??

Today is the day my Mama gave birth to me,
I look into the mirror ? I'm content with what I see.
We don't get older only get wiser,
We learn to save money and become a miser,
With every Year that passes us bye,
You find yourself alone and wanting to cry.
As you age comes grey and sometimes pain,
Don't be stubborn if you need your cane.
If you get lost set aside your pride,
Get directions and jump back into your ride.
If the item is on the very top shelf,
Please don't try to reach it your dam self.
People look at us differently as we get older,
With every passing day The world ? gets colder.
Rather you spend This glorious day alone or with some friends,
Just remember it's only you at the End.

Anxious !!!

You said you were coming by so I got prepared,
As The day went on I was felling scared ?.
The felling in my stomach was like butterfly's ?,
As I walked my dog I got lost in the skys.
So many things running through my mind,
Whenever you got here I was going to be extremely kind.
I over thought what I wanted to do,
You know me and girls I haven't a clue.
Like when you're life flashes before your eyes,
I needed to be held And allowed to cry.
But you couldn't make it sure you had your reason,
But it's okay cuz its Thursday and football season.
Talking to you would have been Way much better,
The weather ?? outside requires a sweater.
I'm going to end this so called poem,
Hoping that you are safe at home ?.

Alone!!

Imagine the one sitting next to you not there

The one you talk to, the one you share

Imagine walking through the door and nobody there

Nobody to talk to nobody to care

Imagine making enough for at least two

When you know in reality it's only going to be you

Imagine rolling over to snuggle and nothing but a pillow your sad and lonely like a weeping willow
imagine when Valentines day rolls around being alone becomes really profound imagine being sick
and nobody to Care makes you wanna bitch complain and freaking swear imagine going to a
restaurant hostess says table *for One*. eating dinner alone isn't any fun

Imagine no one to bring you a kiss or a beer

Nobody to celebrate slap high five or too cheer

Imagine all the people that live just as I wrote

So if you live better than this please don't gloat

Imagine needing to cry and not a shoulder to lean on needing a Queen and not even having pawn
imagine what you're doing now you're doing alone saddened that there gone wishing you could
clone so imagine all the people who haven't a significant other instead hopefully they'll have their
sister brother or their mothers.

Alcoholic anonymous!!

At first it was meeting after meeting after meeting, everyone has what seemed like assigned seating. going to the first one was freaking scary, I sat next to some big guy named Larry. the meeting started the with the lord's prayer, if you were late you might not get a chair. a topic of discussion is picked out the book ?,as I sat there I felt like a crook. speaking for me wasn't on the agenda, as i stirred my coffee adding some Splenda. Chips are giving out for your sobriety, the More you get the more notoriety.i could barley talk or say my name,to me it was All just a game. days turn into months with some time under your belt, you look over at Larry and remember how you felt.

Doctors, Lawyers, teachers, people you'd never think, teenagers, moms, grandparents seemed that everyone had a drink ? alcohol is the devil ? it doesn't care, but with your higher power you could get it out your hair. You learn that one day at a time is oh so critical, do it correctly and your mindset becomes analytical. just over eight years free from alcohol, 3033 consecutive days with out dropping the ball. thanks you alcohol anonymous for opening these doors, maybe for birthday we can have s'mores.

My name is Johnny and I'm a massive alcoholic,I'm going to keep coming back because I'm worth it ?. Work work work!!

Alcohol,!

I don't drink I don't drive,
Wonder how I stayed alive.
I'd would have died if I hadn't stopped,
Alcohol for me was the Topps.
I was sick and didn't care,
What I was doing just wasn't Fair.
It was like being trapped in quick sand,
With no one there to lend a hand.
Even if a hand was extended,
On my knees I'd stay bended.
The selfishness that I possessed,
Everyday I became more obsessed.
What I was doing was not a joke,
Now instead I take a toke.
If I hadn't stopped I'd be in a grave or a pod,
Owe all my thanks to the man I call God.
Along with God I thank my sister,
She showed me a way to avoid this twister ?.
Hope this helps those in need,
Instead of **alcohol** I prefer weed!!

Albuquerque New Mexico 505

The question is always Red or green?,
I remember when I was eighteen.
Cruising up and down route 66,
Hustling and busling jamming to your mix.
Tingley beach and San Gabriel park,
You'd see me in my Buick skylark.
From Johnny and Danny sporting their gloves,
There was resecept but not much love ?.
Then their was Terry (Funk)and Ricky (Romero)wrestling at the Civic,
The battles there were sometimes horrific.
Went from the Duke's to the Topes in a blink of an eye ??
When I heard this I wanted to cry.
My favorite uncle was definitely uncle Cliff,
After cliffs on our way to Griffs.
Putt putt, Iceland bowl or Albuquerque 6,
Were the places to go with your clique.
From the Sandia mountains to the many lakes,
To the carne adovada burrito ? you can get from from Blakes.
From the roadrunner to our yucca flower,
Our Zia symbol has All the power.
Bernalillo our county the capital is Santa Fe,
The land of enchantment is where you could spend all of your day.
No hurricanes tornadoes or major catastrophes,
Albuquerque New Mexico is the place for me.

A.A.

It's 02/22/22 February 22 2022,
Lately the world acting the fool.
Inflation, gas and bills going up,
But refraining from that alcohol in your cup.
Slowly but surely they say no more masks,
But regardless the news we must continue our tasks.
Refraining from booze during this difficult time,
But it's the mountain that we must climb.
Be strong focused and stay positive,
Because if not we know the causative.
It's One day at time so we're told,
Alcohol hasn't a favorite young or old.
So come to meetings read your book,
Before you know it you'll be hooked.
Hooked on freedom and not the booze,
With AA and a higher power you can't lose.
I'll end this poem or so called rhyme,
For me I found AA in the Nick of time.

???? beer

Beer ? how many of us drink it
Beer THOSE brands we can depend on
Beer what's your favorite beer
Beer before we go any further let's drink some beer

Beer ? is something we drink everyday
Some drink only one,some drink all day
Now you can ask anyone their meaning of beer
But not even the dictionary can explain beer
And if you ask me I couldn't be much help
Because drinking and judging you should do by yourself
If you drink and drive and act the fool
No matter what people say you think you're cool ?
When we drink beer we think we funny
The residual effects cost so much money ???
Some grew up with beer in life everyday
Some are the in same rut to this very day
Homeboys through the summer winter ? spring and fall
If you needed beer ? just make that call
As the beers went down again and again
It was Budweiser Coors and shots once again
You say that you and your beer were so tight,
Until you got plastered and got into a fight.

You say you only had a beer or two
But in reality you can't remember what you do.
You wrecked you marriage and your car,
All shortly after leaving the local bar.
You took that beer ? in your hand,
After a few you couldn't stand.
You couldn't be trusted with your keys,
Even with your loved ones on their knees.
You wonder how long you've been drinking beer ?,

As far as you remember from the Early years.
I love alcohol liquor and Frito pie
When I'm drinking I'm also full of lies.
And you were really stingy with the beer ? that you had,
Looking back at it it's really really sad
But nevertheless we'll continue to drink,
Maybe after reading this you might fuckin think.

It all happened twenty years ago today,
Who ever did still hasn't paid.
It was four different airplanes ? all headed the same way,
All four were hijacked by terrorists on this somber day.
Minutes from departure three were overtaken,
The men onboard had bad intentions and they weren't faking.
Two crashed into the world ? trade center within minutes they were gone,
One headed to Richmond Virginia to destroy our Pentagon.
The passengers on the fourth somehow got word,
So they All got together like one big Herd
They fought the terrorists with All they had,
Even knowing the results would probably be bad.
Sad that it takes events like this to bring USA together
Let's keep in mind we're The same just birds of a different feather ?
No matter what happens let's all stay strong,
Who knows this poem could become a song ?.

7 years!!

It's been seven years that I had a drink,
Makes me really stop and think.
I did it wherever I was, didn't mean a thing,
Got so plastered thought I could even sing.
Was so natural to me so I had thought,
It's the demons inside and out that I had fought.
So many bad things I Said and done,
And they say drinking is supposed to be fun.
I can't change the past only look straight ahead,
Cuz it's me that's has to lay my head in my bed.
Seven years, eighty four months, or two thousand five hundred fifty seven days, call it what you want I
was in such a Haze.
I'll end this poem or so called rhyme,
Not consuming any more of your time!!!!

3000!! Days free from alcohol!

It's a milestone that I thought was out of reach
Don't get me wrong I'm not here to preach
But I will be braggadocios and very proud
You won't catch me obnoxious or even loud
That's eight years and two months and 17 days
That my life is better and not in a Haze
Consecutive days with many stumbles
But I remain stable and very humble
But i always just take it one day at a time
As I write these words to a rhyme
3000 down and one more to go
I'll continue to pray ? while I flow
I'm going to bring this poem to a halt
Take my words with a grain of salt ?

Here take This seems like your low,
This Will help make the red start to glow.
Your knees look weak and about to fall,
Let's charge that battery so you can call.
I'm reaching out to lend a hand,
So on your two feet you can stand.
Like a battery our lifes get drained,
Without struggle nothing is gained.
If I'm fully charged and seem somewhat set,
My positive energy you can surely get.
Take the negative and make a positive,
Change the reason that's the causative.
Looking at this picture both are the same,
One is just less but still in the game.
Never hesitate to ask or lend a hand,
Never now it could be you sinking in quick sand.

January 6th 2021

Today started by counting of votes
They were in brown boxes that looked like totes
As soon as Pence and McConnell started to speak
It was him (trump) that his knees got weak

Minutes later his protesters stormed the capitol
What was on their minds definitely wasn't rational
They would proceed and begin to breach
As the Walls the protesters would reach
Someone got shot and May have died
As I watched it all unfold I definitely cried
All because of ONE mans denial
It's (his) ass (trump) that should be on trial.

4th of July 2021! ?

Fourth of July or independence day,
However you say lets be gay.
From igniting fireworks ?? to drinking beer,
It's the best celebration of The year.
We have barbeques,picnics, and baseball ? games,
We play horseshoes, Cornhole while forgetting their names.
It's our dependence that is fought for,
Let's be gracias from door to door ?.
Wreather you singing Yankee doodle or ? stars and stripes,
Drinking your beer or smoking your pipes.
Let remember the colors that will always be you,
The great colors of Red ?? White ? and Blue ?.
