## summary

Starting and ending with nature

## Starting and ending with nature

I want to fly like birds,

I want to be free like the wind,

I want to flow like a river in the flow of life

I want to cast like sun,

I want to shine like moonlight and stars

I want to spread fragrance around you like flowers and hum like a bumblebee,

Sometimes hard like a mountain and sometimes I want to melt like snow,

I want to be made of all these things of nature and get absorbed in this nature.
