summary

Space is a wonder

FNAF 1

FNAF 2

FNAF 3

Space is a wonder

The moon is a barren wasteland

The Earth is a vibrant bead, floating in a sea of darkness

The moon is a crumbling surface, breaking with every human step

The Earth is a glowing orb of colour

The moon is a pock - marked surface of doom

The Earth is a shimmering sapphire laying on a blanket of midnight

FNAF 1

It's your first night

Like the first day of opening for us

We will haunt you

You look...

Familiar

Could it be

Oh no

You're in big trouble

William.

FNAF 2

We'll we haven't seen you before

We remember you

We love to make new friends

We will torture you

FNAF 3

We are the phantoms

I have been here for many decades

I am the only real robot in this place

Uh hello

Just checking in

Reset ventilation

Speaking of vents

Check those too

Michael.
