summary

God is building His people

God is building His people

God is building up his people
A holy nation, a royal priesthood
A people chosen by God
To do his mighty will on earth

Jesus is interceding
for his precious little flock
He's loving us, and leading us
On the path that we should take

The holy spirit is drawing us
Before the throne of grace
To feel Gods love and mercy
To strengthen us for the fight

We are a mighty army
with the trinity by our side
We are called victorious
By the testimony of our mouths

We are the overcomers
No longer living in fear
We will stand against the foe
And our faith will be our shield
