## summary

Here piggy piggy

## Here piggy piggy

Oh Cameron you've made us so sick to the core  
Its credits for the sick and the old and the poor  
That they need to survive and for this I'm sure  
That the sick and the needy aren't hungry for war

And once this is over we'll want answers why  
You took us to war. no doubt from the sty  
We'll watch you and question your motives and actions  
And listen intently upon your retractions

Well the sick and the needy will not be to blame  
**We Cry No to this war, Not in our name.**
