## A New Beginning

Say goodbye to the way things used to be nothing ever stays the same and time is ever fleeting as our seasons change... so say goodbye to yesterday and all those lost hours that somehow have slipped away nothing never stays the same so lose your blues, lose your chains... Don't you know this is a new revelation, a new way of living, a brand new start well I can feel it in my heart no more looking back now the past is the past and today is just as good as any day for A New Beginning... they say it is better to have loved and lost than to have never have been loved in your life so I'll just keep falling in love until I get it right... Eventually the sun will shine through the rain and everything will be of good luck and change nothing ever stays the same and I can feel a brand new start stirring in my heart so today is just as good as any day for A New Beginning... just one more second chance for A New Beginning!

## If I Had Wings

IF I HAD WINGS I'd be with you tonight  
I wasn't looking for love when I found you  
But now you are the biggest part of my life  
Oh so IF I HAD WINGS I'd take you to  
The stars and back and keep you safe and  
Warm, feeling your body so close to mine  
Well IF I HAD WINGS I'd wrap you up in  
In a love so heavenly you'd never want to  
Come down off of cloud 9...

I know you have to make a living and your  
Work takes you here, there and everywhere  
In between and it's so hard on my heart  
When we are apart, I just sit here all alone  
Waiting for that dag gum phone to ring  
And crying my eyes blind, getting drunk on  
Cheap red wine, I miss you more and more  
Every day, I miss you more than any words  
Can say...

But IF I HAD WINGS I would be with you  
Tonight, even if I had to circle the world a  
Thousand times, morning, day and night and  
I would find you, it might take some time  
But I'd find you and then I'd wrap you  
Up so warm and tender in these wings of  
Mine 'cuz you are the biggest part of my  
Life like something out of a dream and so  
IF I HAD WINGS I'd take you to the stars  
And back, I'd wrap you up in a love so  
Heavenly you'd never want to come down  
From cloud 9 you'd just want to stay with  
Me right in my arms, right where you're  
At...

I know you may think this is just a silly

Little fantasy or I'm out of my mind  
But I'm lonely without you sweet, sweet  
Darling of mine, you are the love of my life  
And IF I HAD WINGS we would be together  
Tonight, IF I HAD WINGS, IF I ONLY HAD  
WINGS!

## Willow

A curse and a blessing sometimes you lose, sometimes  
you win, somewhere between darkness and dawn a candle  
in the wind... I take it to the heart, I take it on the  
run crossing some crazy state line one more time still  
hearing you say, "when you get what you want you don't  
want it anymore" well then you must still want me  
life can be something of a mystery So if you don't  
know the answers to their questions fake what you  
don't know and when the big wind blows rock on like a  
Willow Well it's just like the calm before the storm  
sometimes Heaven, sometimes Hell still under your  
spell But dreams survive and what's been done has been  
done I can hear you saying, "Don't ask me questions you  
already have the answers to" but nobody has all the  
answers not even you so...I go blindly today into tomorrow  
but when the big wind blows I will rock on, rock on  
just like a Willow!

## Trying To Hide a Fire in the Dark

Well and what is it I see in your eyes...  
Is it love or is it desire...  
What is it that keeps us from giving?  
Into the fire, is it the fear of getting?  
What you want then not wanting it  
Anymore...well how long can we walk  
These real high wires, how long can we  
Go on playing this game...we aren't  
Children anymore so isn't it about  
Time to say just what's on our  
Minds...well they say the truth will  
Set you free and this has been  
Going on so long I doubt anything  
Could possibly change...you've  
Always had my heart and in my  
Secret fantasy you just seem to  
Fit the part, 'cuz every time our eyes  
Meet it's like trying to hide a Fire  
In The Dark...every time, every time  
The keeper of time finds us here  
Again and again, it's Like Trying To  
Hide a Fire in the Dark...A Fire  
In The Dark!

## God Gave Me You

Once I was broken hearted and all alone but like  
A big oak tree I stood tall and strong waiting for  
That one and special one to come along and then  
You came along!  
Now you are the dream of dreams come true! I  
Prayed for a long and lasting love and God Gave  
Me You oh and yes there is magic in all you say  
And do! You must really be an angel 'cuz I prayed  
For a long and lasting love and God Gave Me You!  
And from the moment I laid my eyes on you I  
Knew you were the one for me!  
Now my life has changed in so many ways like  
You wouldn't believe! Goodbye to yesterday  
And all those sad, sad days, 'Cuz I prayed for a  
Long and lasting love and God Gave Me You!

## Nights Like These

Well and I seem to get this way from time to time  
Lost in a memory of someone who used to be mine  
I was a fool to get this way, will this heartache ever  
Go away...

NIGHT'S LIKE THESE I wish you were here holding me  
Close and wiping away all these tears...

NIGHT'S LIKE THESE I'd give anything to hear your  
Voice again and to kiss your sweet lips, to feel your  
Hands on my skin but I'm beginning to wonder now if  
You ever did love me; I try to tell myself you'll be sorry  
You ever left me sad and lonely in the shadow of  
Candlelight and NIGHT'S LIKE THESE...

But I can't help myself from going down memory lane  
Again and all those old photographs and remembering  
All the wild and crazy things we used to do, I can't  
Believe it's over and you have somebody new, I don't  
Believe it, it just can't be true 'cuz you're still the ruler  
Of my heart, they say if you loved somebody once  
You'll always love them even though you've made it  
Clear we need some time apart; I'll never stop loving you  
Call me a fool but I'll never love anyone never again  
As much as I love you...

And on NIGHT'S LIKE THESE I wish you were here  
Holding me close and wiping away all my tears, I'm  
Nothing without you but a ghost in the shadow of  
Candlelight, so, so very sad and lonely especially on  
NIGHT'S LIKE THESE, NIGHT'S LIKE THESE!

## I Vow Here and Now

Well And Everybody longs for someone to love  
The unconditionally well I think I've  
Finally met my match written in the stars  
Of destiny and so I Vow here and Now  
to love you more today than yesterday  
more tomorrow than today yes and I  
will stand by your side through thick and  
thin, through hell and back again, always  
my love, always!

I Vow Here And Now to love you so  
and wherever you go I will follow...I swear  
you are it for me and I don't care if nobody  
likes it or not oh my darlin' sweetheart you  
are my one true paradise!

Never in my wildest dreams did I dream  
someone like you could love somebody like  
me oh glory be to the powers that be!

With this ring I am you, you are me and I  
Vow Here And Now to be the friend and  
the lover you never had, through the good  
and bad, to be your greatest encourager  
beyond forever...I Vow, yes I Vow Here  
And Now!

## Dead Tree Garden

There are just to many ghost here  
To this haunted villa...  
Another day, another month, another  
Year well this is driving me crazy  
I've got to get out of here  
You make me nervous and I can't  
Deal with the anxiety and be myself  
So here's throwing all caution to the  
Wind sometimes you have to just  
Get away to find yourself...  
I wanna live by the sea, I wanna be  
Free, I want to be me...the real me  
Of course I'll miss those few faces  
I love but I'm tired of people telling me  
What to do I'm not a child anymore  
I'm all grown up now you can try to  
Stop me and say it's for my own good  
But you couldn't stop me now if you  
Wanted to sometimes you've just got  
To do what your heart tells you to do  
And...  
I wanna be free, I wanna be me  
And breathe the deep the clean open  
Air of the sea...  
There's just too many Ghost's here  
In this haunted cottage in the shadows  
Of Dead Tree Garden...

## Tell Me

Well if you think I'm cute and charming TELL ME...  
Don't be shy, look me in the eyes and just TELL ME...  
Don't be afraid to say what's on your mind, you  
Just might be surprised, if you think I might be what  
You need and you might wanna get to know me  
Better, well TELL ME, just c'mon now and TELL ME...  
Because that's how a chance meeting could end up  
Changing your life, when you get up the courage to say  
Hey would you like to do something that is if you're  
Not busy tonight...well who knows you just might not  
Have to spend another night alone, sitting home, just  
Sitting home...I believe there's somebody for everybody  
And so if you're looking for someone who'll really  
Love you; I could be just what you've been looking for  
And more, yeah I could be just what you need to set  
Your spirit free but you gotta TELL ME, don't be shy  
Just look me in the eyes and say hey let's do something  
When you get off work tonight, what do you got to?  
Loose, this could be the chance meeting that change  
Both our lives but I'm not a mind reader baby and  
I'll never know unless you TELL ME, just open up your  
Heart, set your spirit free and TELL ME, just c'mon now  
And TELL ME, TELL ME!

## Little Miss Perfect

Well I know you think you're better than me  
With your new boob job and college degree  
And I bet you think you're so cool 'cuz  
You can speak another language too huh  
Well I got news for you most people think you're  
A joke and aren't laughing with you but at you...  
LITTLE MISS PERFECT you're no mother  
Teresa and if you keep running your mouth  
About me I'm gonna skin your hide and nail  
It to the wall and that's a promise LITTLE  
MISS PERFECT a Joan of Arc you're not  
No, not at all and if you keep trying to make  
Me look bad in the family's eyes I swear  
I'll kill you and make it look like you just had  
An accident and died mark my words you  
Funny looking bug eyed LITTLE MISS PERFECT...  
So what if you live in a big three story house  
And drive a Lexus, I bet you just think you're  
The bomb in your teeny Winnie bikini and pool  
Side parties lasting all night long huh well I got  
News for you people aren't really laughing with  
You, they're all laughing at you LITTLE MISS  
PERFECT, LITTLE MISS PERFECT...  
Well I swear if you don't stop running your  
Big mouth about me I'll nail your skin to  
The wall, it doesn't matter to me if you are  
My cousin, LITTLE MISS PERFECT you're  
Just crusin' for a brusin' LITTLE MISS  
PERFECT, LITTLE MISS PERFECT!

## Get the Hell Out Of My Dreams

Well if I can't have you then  
Get the Hell Out Of My Dreams  
It's been a long, long time since  
You were mine so how long can  
You go on breaking my heart  
Every night and finding myself  
In tears come morning light...well  
Is it my subconscious trying to  
Resolve some left over issues or  
Are you telepathically trying to tell  
Me something who knows but  
It's getting old so if I can't have  
You in my life then Get The Hell  
Out Of My Dreams or for at  
least one blessed night and let  
me sleep in peace or dream 'bout  
the new love in my life but no, oh  
no here we go again tonight...  
God it just makes me wanna scream  
Get The Hell Out Of My Dreams!

## Kiev

Kiev in the shadow of early spring  
Winds off the lake lands and  
Reinvented again...  
Something of a new dream, new  
And improved like magic with  
The waves of a hand just like  
Tribal spirits breathing the  
Breathe of new life...  
I am now redeemed...  
Waling the river's edge and  
Feeling love for the first time  
In my life...  
My heart is at peace with it's  
Self-tonight...  
Kiev in the shadow of moonlight  
And the cool, cool early April  
Air...  
Cosmic forces have ushered  
In good favors as Jupiter  
Enters Aries again...  
Climbing the stairs to the  
High bridge and looking  
Down into the dark waters  
There...the poet begins again  
Oh reinvented again like  
Something out of a dream  
Just like a fated breathing  
Deep the spirit of life...I am  
Now redeemed and once  
Again, the poet begins  
Again!

## Come Live With Me

How long has our relationship been going strong  
Long enough to take that next step wouldn't  
You say, I don't think it would change anything  
Anyhow, so why don't we playhouse as if we  
Were newlyweds, I'm sure it's a sure bet anyways...  
So why don't you COME LIVE WITH ME and  
We can have it all in or out of the money, all we  
Need is each other honey and we can have each  
Other anytime we damn well please oh so why, why  
Don't you COME LIVE WITH ME...  
Who cares what people say, it's none of their  
Business what goes on between us and that  
Also goes for our family's too now that we are of  
Age, there's nothing nobody can say that can  
Change our love and I'm sure our love is a sure  
Bet so why don't we take that next step now  
Baby and COME AND LIVE WITH ME!

## Nothing Is Set In Stone

Standing here at the crossroads  
I can't help but to feel a little apprehensive  
About which path I should take but I just  
Can't stand here after many mountains, valleys  
And rivers crossed. I guess it's just a leap of  
Faith I'll have to take now where as in the past  
You may of held me back...I'm no longer the  
Person I used to be, believe you me!  
I've come to embrace the future without fearing  
Tomorrow 'cuz I realize now I will survive until  
I am no more and Nothing Is Set In Stone, be it  
love or war!  
Everything is in transit, constantly changing  
each and every minute of each and every day,  
I just have to remind myself from time to time  
joy is the absence of worry. It's all in God's hands  
now and whatever will be will be!  
When you learn to let go of yourself it only  
allows you to be what you may become.  
Everything has a place and a time and no nothing,  
**NOTHING IS SET IN STONE!**

## Leave Me Alone

No thanks...I don't feel like doing that today  
Tomorrow isn't good for me either...can't you  
Take a hint I just wanna be alone but you keep  
Trying to change me and my life well it may not  
Be much of a life but it's my life...  
You say you love me and you hate seeing me  
This way, take a long hard look at yourself before  
You start preaching to me about what's good  
For me and what's wrong oh yeah why don't you  
Just Leave Me Alone and take care of your own...  
You say I should quit smoking, exercise more  
And get out of the house to clear my head, you say  
I should go to bed at nightfall and get a good night's  
Rest instead of staying up all night long well I'll  
Go to bed when I wanna go to bed, who the hell  
Do you think you are trying to tell me what to do  
'Cuz if I know you like I think I know you, you just  
Wanna act like you know everything and everything  
Is perfect in your world...you're just a fool  
Leave Me Alone and take care of your own...  
Now don't get me wrong I know somewhere deep  
Down inside you have my best interest at heart  
But I happen to like things here the way they are  
So I wish you'd find someone else to try to change  
You sound like a broken record and I'm getting tired  
Of hearing the same ole thing, worry about own life  
What you keep secret the wrong, stop giving me  
The third degree and Leave Me, just leave me the  
Hell alone, take care of your own and Leave Me  
Alone!

## Thor

Many a God dwells in the great world tree of the Asgard  
But the strongest one of them all is the one who holds  
The power of storms wrathful in the palm of his hands  
You can hear his voice in the thunder as the sky grows  
Darker and darker, he swings his hammer to the land and  
Lightning comes down with such a force it shakes the  
Very core of Valhalla...drowning out the screams of  
The orcs that go trying to cross the echoing bridge...  
Well he comes swinging his hammer and strikes them  
Down, they drop to the forest floor frozen in the snow  
Covered ground...you cannot yield his power, you can  
Not have a hand on his gleaming hammer...he says in  
A voice of thunder "I am the keeper of the gate, the  
Keeper of law and order, keeper of Valhalla in good  
Fate...I will protect the innocent but woe to the Orcs  
Who challenge my power...I will swing my hammer  
To the ground and strike you down" he says in a voice  
Of thunder "I am Thor of Asgard, I am Thor, Thor"  
As it is written in the stars!

## His Loss

Darlin' why do you still want him  
After all he's put you through...  
Well I say to had it with him, you  
Don't need his kind no, you need  
Someone who is true blue to you!  
So don't cry one more tear over him  
It's His Loss...look at me honey  
I'm trying to tell you something long  
Overdue, I have always loved you!  
Oh and if you'd just give me the  
Chance to prove it I swear I won't  
Disappoint you, for many a year and  
Months too you've been the Apple  
Of my eye, the smile on my face and  
Every heart beat like thunder inside!  
Oh so if you could only will yourself  
To trust me I swear these things I  
Tell you are not lies...if only, if only  
You'd give me the chance to prove  
My love for you I swear I will not  
Disappoint you 'cuz I have always  
Loved you!  
Oh so please baby please don't  
Shed one more tear for him, don't  
You know it's His Loss if he can't  
See what I see in you...I'm trying  
To tell you something long overdue  
I love you!

## Walking Out the Door

Well all my friends tell me I should leave you  
But that's something I can't seem to do  
I've come to need you with every breath I  
Breathe and my love for you deeper than any  
Deep blue sea!  
I've heard all the rumors and story that you  
Are not the faithful kind and you'll come to take  
Me for granted it's just a matter of time but I'm  
Not a child anymore so win or lose it's a chance  
I'm willing to take now with this heart of mine!  
I can still hear you saying: "who cares what  
Everyone thinks yours is the love I have prayed  
For so many times and as long as you want me  
I will be your lover and your friend 'til eternities  
End and even more" well I could still hear you  
Saying Walking Out the Door.  
I should of listened to my friends I always did  
Before but I believed your lies looking into your  
Eyes now I'm the one who's crying and it feels like  
Dying now watching you walking out the Door  
Call me a fool but I'd take you back tomorrow if  
You came back a knocking on my door!

## Firebird

Every night by candlelight I go to you on the wings of  
a Firebird and you are there waiting for me in your  
red cape where fire burns outside the snow...  
you reach out for me without saying a word, I reach out  
to touch your face and I whisper in your ear, "I love  
you more than life it's self..."  
Sorcerer don't go casting a spell on anyone else and  
don't go breaking this spell at least not in this  
lifetime...  
you're every dream the Gypsy Witch has ever invoked  
through flights of fancy in a fine stardust like  
design well and in all my fiery attire I close my eyes  
and go to you on the wings of a Firebird, skyward and  
Heaven bound, eastward descending down into your  
burning liar of desire intensely setting the ice on  
fire without a spoken word...  
Sorcerer of my heart, you are master of my dreams and I  
come every time, every time you call Firebird!

## Mother and Child

Well I wonder what she was thinking  
Just before her car went over the bridge  
And into the cold frozen creek below  
Well only God knows, only God knows  
Although I think this story should circle  
The globe and never be forgotten that  
A miracle happened in Utah in early  
March of 2015...

When the men in blue arrived at the  
Scene they swore they heard a woman's  
Voices screaming help me, help me  
Save my baby, save my baby and as  
They got down to where the car was  
Turned upside down they couldn't believe  
Their eyes, a young woman was dead  
Inside but her child was barely alive but  
Nevertheless the baby was still alive...

I wonder if God kept the tunnel open  
Long enough for help to arrive or if she  
Sacrificed her journey to the other side  
Just to make sure her little girl would  
Survive...

Now I wonder if she's still with us or  
Smiling down from up above 'cuz a miracle  
Happened in Utah in early March of 2015  
Some people may say oh please those men  
In blue were only hearing a wild winters  
Wind echoing through the trees well there  
Are more things in Heaven and on earth?  
That can be explained or are as they seems  
And the love between a mother and her  
Child is a very powerful thing and I believe  
Heaven was there for this MOTHER AND

CHILD, yes I believe Heaven was there  
All the while watching over this MOTHER  
AND CHILD...

## You're Crazy

Well and You're Crazy if you  
think I'm gonna let you bring me  
down again, if you think you  
can just come back into my life  
after being gone so long and  
expect me to take you back  
just like that...You're Crazy  
if you think I'm still in love with  
you after all the hell you put  
me through , You're Crazy  
You're Crazy baby if you think  
I'm gonna let you bring me  
down again and just forgive  
and forget and start all over  
again...well You're Crazy  
you're just freaking crazy  
So want you just get out of  
my life once and for all...there  
ain't nothing left to be said so  
stop asking me if you can call  
when will you get it through  
your hard head there's just  
nothing left to be said except  
You're Crazy if you think I'm  
gonna let you bring me  
down again, if you think you  
can just come back into my life  
after being gone so long and  
expect me to take you back  
just like that, if you think I'm still  
in love with you after all the hell  
you put me through You're Crazy  
You're just as Crazy as a loon

something of a Bevis and  
Butthead cartoon...I don't need  
your childish games, I'm no  
longer the same innocent victim  
you once had on a ball and chain  
and I'd be completely insane if  
I let you put me through that hell  
again so if you think I'm gonna let  
you bring me down again, if you  
think you can just come back into  
my life after being gone so long and  
expect me to take you back  
just like that...You're Crazy  
you're one hell of a crazy ass  
froot loop!

## Hills of Snow

Last night you said you loved me  
But you still have feelings for him  
Well you can't have your cake and  
Eat it too...it's either me or him  
And I'm not gonna sit around  
Waiting for you to make up your  
Mind if that's what you think  
I'm gonna do...I deserve to be  
Happy although it's been a long  
Time since I can remember  
Those golden years...still I have  
Faith and hope of the heart  
This year is the year all the  
Past disappointments, loneliness  
And regrets will disappear...my  
Angel will come whispering in  
My ear words of wisdom and  
Dry all my tears...as the cold,  
Cold wind blows and I go  
Crossing over these silver blue  
Icy Hills Of Snow, down and  
Over these Hills of Snow!

## Wishing On Stars

Well there is more to me than meets  
the eye but it seems like nobody can  
see the beauty inside...I'm so sick and  
tired of players and their games it's  
enough to make you wanna give up  
on love but I can't give up on love  
maybe I'm a dreamer from an era long  
gone when holding hands meant something  
and a kiss came straight from the heart  
maybe I'm old school and just a hopeless  
romantic... the few that are still alive  
but I still wanna believe there's someone  
out there for me but it seems so, so long  
alone...how long can I go on Wishing On  
Stars trying to keep faith of the heart and  
Wishing, just Wishing On Stars!

## Staring Down Desire

You look at me; I look at you. We both know  
what our eyes are trying to say.

But this could be dangerous. Somebody should  
look away but nobody looks away.

The eyes seem to say you are the angel I  
have always dreamed of and I am so deeply  
touched!

Oh but we could never be together. We are  
already spoken for each other. And so somebody  
should look away now, this could be dangerous  
Staring down Desire and starting a forbidden  
fire!

## Love is Forever

Season's change  
People change  
But LOVE IS FOREVER  
There's no distance  
Too far the heart can  
Not bridge if two  
People are meant to be  
Together and in my  
Heart of hearts I believe  
I believe it was our  
Destiny, forever love  
You and me...  
I might be a hopeless  
Romantic but I believe  
In love, a true love  
That never dies and  
We are the other  
Half of each other  
Friends and lovers oh  
Yeah my love well I  
Can feel it in your  
Touch, I can see it in  
Your eyes...  
I could never love  
Anyone else 'cuz in  
My heart of hearts  
I know it's our destiny  
Written in the stars  
Somewhere, love forever  
You and me...  
Well I know seasons  
Change, people change  
But LOVE, LOVE IS

FOREVER!

## I Have To Know

I have to know why you swore you'd love me forever  
And then tried to lie about cheating on me, why you gave  
I a ring to wear then told your friends we weren't a pair,  
Why you took me to Heaven then dragged me through  
Hell Well I Have to Know 'cuz I'm still under your spell  
I thought we had something special but oh boy was I  
Wrong...when I looked into your eyes I thought I saw  
The promise of tomorrow there but I can't count the nights  
You left me all alone with just my tears of despair so want  
You come clean now and tell me why you lied and why you  
Destroyed me heart and soul...I have to know, I Have to Know  
Maybe you never cared for me at all but I never fell for  
Someone so hard before like I fell for you well I think if we  
Could just sit down together and put all our cards on the  
Table maybe we could settle our differences and I could finally  
Learn to let you go...oh if only if I knew the reasons for you  
Being so warm hearted yet turns so cold well I Have to Know  
Before I can let go I Have to Know!

## Prophecy of Pisces (Dream of Water)

The dream of water, in a spiritual awakening...  
And the journey of Pisces through the astro sea  
in the shadow of Neptune.

The travels of Apollo in the company of Horos  
and Aphrodite persuaded by the great and  
terrible creature Typhon they turned themselves  
into fish and tied their fins together then swam  
away. The journey of Pisces since four thousand  
years and a day.

The dream of water in a spiritual awakening...  
Tenfold and rightfully so hence the amethyst and  
the blood stone. Just like a magician your intuition is  
strong! Divine confirmation of the great cycle as the  
wheel of life circles through the deep blue trigon.

You remain distinctive in all your mysterious  
ways. Since four thousand years and a day!  
Well it is just the Prophecy Of Pisces and the  
Dream Of Water...

And this is a spiritual awakening...

## They Cannot Stand Between Us

Well ever since high school I have loved you  
You gave me your class ring to wear which just  
Goes to prove you loved me too but the  
But those were those who were jealous of us  
And our love and still trying to keep us apart  
But you can't change what you feel deep down  
In your heart, I know they still talk bad about me  
But at the same time who care 'cuz I know you  
Love me and will always love me...  
So why don't you tell them to go to hell, you won't  
Be blackmailed into walking away the dream of  
Years and the one thing you hold most dear 'cuz  
We are one in the same and that's something  
That'll never change...  
Throughout many lifetime I have been yours and  
You have been mine, so enough is enough  
They can only stand between us if we let them  
Stand between us so they mine as well give it up  
Because there is no end to our love and so no, no  
**THEY CANNOT STAND BETWEEN US!**

## Lilith

Well millions of years ago she came  
To be the first woman born of dirt and  
Earth and no her name was not Eve...  
She was willful, vain and demanded  
Equality but Adam refused her dark  
Hearted soul and asked God to banish  
Her from the garden but as she made  
Her way to the sea she spoke aloud  
God's real name and said swore  
She'd never step foot in the garden  
Again if he'd give her wings, he agreed  
And so in a fit of rage she took to  
The wind and became one of Satan's  
Whores and it is said every night  
She copulates in the desert with  
Countless demons birthing and bringing  
Forth a thousand new evil spirits all  
Before the sun sheds light on her  
Wicked ways, this Queen of the seven  
Levels of the underground...in the form  
Of a succubus stealing the souls of  
Men that can't resist their lust and  
She's having a field day in these dark  
And strange times 'cuz there is a legion  
Of men now with cold, cold hearts to  
Be found...to join the liar of where  
Lilith dwells, in the deepest and fiery  
Region of Hell!

## Hawaiian Love Story

How did this island stranger find  
The white rose of Tennessee  
I don't know but I'd love to get  
To know you better oh HAWAIIAN  
HAWAIIAN STRANGER...  
Well I can't believe it's true but  
The dream of dreams is finally coming  
True, a prophecy like a web that's  
Been spun over an early morning sun  
Oh my heart, oh my heart every time you  
Are around and your eyes stare me up  
And down, in my heart oh in my heart  
I know you are the one, the golden one  
And now there is no stoppin' this dream  
That has begun like Alice in wonderland  
And the white rabbit that is on the run...  
Oh and maybe I'll see you again today  
And you'll say let's go somewhere where  
We can talk, well and we talk and talk  
Without running out of things to say,  
Then you whisper in my ear all the things  
I've been waiting to hear, I just smile  
Back at you and say well hell why not  
Your place or mine, time is precious but  
Or you I'll find the time...  
Oh HAWAIIAN STRANGER I really wanna  
Get to know you better oh HAWAIIAN STRANGER  
I wanna be your friend and your lover  
'Cuz I can see a future for us, I can hear the  
Call of love oh HAWAIIAN STRANGER you shine  
Like a star in the dark oh HAWAIIAN STRANGER  
You got a hold on my heart oh HAWAIIAN STRANGER  
But not really a stranger now that we have

Found each other and we are friends and lovers  
Oh my heart, oh my heart...every time I am  
In your arms can't you hear my heart louder  
As loud as thunder, now there is no stoppin'  
This dream of dreams just like Alice in wonderland  
And the white rabbit that is on the run...

## Pure Love

No matter how many times I give my heart to someone they always seem to break it still that never does seem to keep me down for long tho I have had my share of tears through the years I seem to always find the strength to carry on because I have faith in Heaven above, I have faith in A Pure Kinda Love

Somewhere out there I know there's a special someone who dreams of finding me and then it will be the two of us because I believe yes I still believe in A Pure Kinda Love!

Well and no matter how many times I've been played the fool it's just because I refuse to give up on finding my soul mate, the other half of me by destiny's rule if it takes me around the world and back again I will find it one fine day I know but only God knows when, only God knows when yet...

I have faith in Heaven above, I have faith in A Pure Kinda Love somewhere out there I know there's a special someone who dreams of finding me and then it will be the two of us because I believe yes I still believe in A Pure Kinda Love!

## If Not For You

Well we may not be together tonight  
But you are here in my heart...  
No and don't think I ever, ever take  
You for granted...  
I thank God every day and every night  
For all the blessings you've brought  
Into my life...  
Well and we may not talk everyday  
But when we do we talk the hours  
Away, never running out of things  
To say...  
Although you are several hundred  
Miles away we always seem to find  
A way to get together and get away  
Three or four quarters a year and its  
Just like magic everywhere, magic in  
The air every time, every time I see  
Your smiling face I know, I just know  
This love affair will never grow old...  
I break down and cry when u come,  
I break down and cry when you go  
I know it's not forever, no I know  
Someday we will be together forever  
'cuz If Not For You I would be lost  
to say the least, I would be incomplete  
If Not For You I wouldn't know love  
like I do...  
Oh no, no I wouldn't know love  
like I do, If Not For You and me  
thank God every night for all the  
blessings you've brought into my  
life 'cuz where in the world would  
I am If Not For You, If Not For You!

## I Am Who I Am and It Is What It Is

Well I AM WHO I AM and you can like me  
Or leave me I really don't give a damn  
I am a hot-blooded Aries through and through  
And I will have my way if it's the last thing I do  
Don't you ever underestimate me, I will prove  
You wrong every time and once I get something  
In my head you cannot change my mind, no not  
Even if you were the Pope or the President  
Of The United States, no one and I do mean  
No one decides my fate...  
That's just the way of an Aries, that's just the  
Way of the Ram 'cuz I AM WHO I AM and you  
Can love me or leave me I really just don't  
Give a damn...  
Unless you are a Greek God or a Sagittarius  
Those are two of my weaknesses I've yet  
To resist for what it's worth 'cuz I AM WHO  
I AM AND IT IS WHAT IT IS!

## Me and My Baby

Down from Helsinki  
Late night walks on  
The beach of the Gulf  
Of Bothnia Sea Me And  
My Baby although the  
Sky is starless and there  
Is a strong breeze from?  
Out of the south coming  
Quickly we are lost in  
The moment we are lost  
In ecstasy holding you  
Holding me, kissing you  
Kissing me with great  
Intensity tonight down  
From Vaasa ooh Me And  
My Baby lightning flashes  
All around us but pressed  
Together our hearts beat  
Louder than the thunder  
As our desire burns out  
Of control...well the rain  
Begins to fall but it can't  
Put out this fire raging  
Inside you and me with  
Such great intensity  
Tonight down from Helsinki  
In the breeze of the Baltic  
Sea just Me and My Baby  
Me and My Baby.

## Still Waiting

Well we were over years ago  
I just wish somebody would tell  
my heart...you've moved on with  
your life and I know our love will  
never come again so why can't I  
learn to let you go and get on  
with my life again...  
instead of always just sitting home  
alone by the phone hoping you'll  
call and dreaming that there's still  
a chance for you and me but i must  
be crazy 'cuz I know I'm only  
dreaming, dreaming of an old, old  
flame...wasting my time, hoping  
you'll change your mind but I'm  
Still Waiting, waiting and waiting  
in vain...  
what's wrong with me I know  
you belong to someone else now  
but if I could I would cast a spell  
on you to make you love me again  
but I must be crazy 'cuz I know I'm  
only dreaming, dreaming of an old,  
old, flame...wasting my time, hoping  
you'll change your mind but I'm  
Still Waiting, waiting, waiting in vain!

## Every Time I'm Around You

Well I can just imagine being your one and only and spending the rest of my life with you baby I can see it all so clearly in my mind in some magic place in time but you don't even notice me I'm just like a ghost you seem to see through every time you gaze my way what in the world would it take to make you love me 'cuz Every time I'm Around You I just wanna reach out and touch your face...I just wanna reach out and kiss you but it never ever seems to be the right time or place so I never do...I wonder if I'll ever get to 'cuz I'm just so crazy 'bout you...how could you not know when you can't hide a fire in the dark, how can you not hear the beating of my heart every time, Every Time I'm Around You!

## Come Monday

Well just you wait Come Monday  
I'm gonna leave a trail of fire up  
one side and down the other, you  
won't even know what hit you but  
that's the power and the fury of the  
Tiger and as we all know a Tiger does  
not back down from a fight so I think  
you'd better run, run for your life 'cuz  
Come Monday you mine as well go  
ahead and dig your grave...you shouldn't  
of unleashed the beast but now that you  
have blood will be slung and splattered  
everywhere...you've caused too much  
damage to be repaired so Come Monday  
they'll be no more second chances, Come  
Monday a fire will rage so go ahead and  
dig your grave...you made it now your  
gonna lie in it Come Monday!

## One Rose

One heart so full of love  
One sky so pretty from  
Sunrise to sunset, one  
Moon sometimes silver  
Sometimes red, sometimes  
Gold, one voice singing  
I love you whether or not  
You love me yet...  
Oh ONE RAISED, one red  
Ribbon card, one love  
That will live forever in  
My heart oh ONE ROSE,  
ONE ROSE and a dream  
Come true, ONE ROSE  
ONLY ONE ROSE and  
Only one you...  
Well and there is only  
One wish I wish, one  
Best friend, one mother  
Of a lover...  
Oooh and this is serious  
The anointing of destiny  
And this picture says a  
Thousand words but its  
Hard to get passed those  
Blue grey eyes that's why...  
There only ONE ROSE, one  
Red ribbon card, one love  
In my wild, wild heart  
ONE ROSE, ONE ROSE  
And a dream comes true  
ONE ROSE, ONLY ONE ROSE  
And only one you!

## Paybacks Are Hell

Well and Paybacks are hell aren't they  
But you can't say you didn't have it  
Coming...  
Respect me and I'll respect you  
Disrespect me and I'll disrespect you  
It works both ways...  
Don't make it harder on yourself now  
Than it has to be...check your facts  
Before you go and make yourself look like  
A jackass, but you are never wrong are you?  
Well I swear you are a royal pain in the ass  
But hey Paybacks Are Hell aren't they and  
You can't say you didn't have it coming...  
So here's an eye for an eye as they say  
Karma's a bitch and it cuts both ways...  
Respect me and I'll respect you...  
Disrespect me and I'll disrespect you...  
Paybacks Are Hell aren't they...?

## Nightstorm

So I find myself once again in the shadow of the crescent moon  
Back to the marshlands in the throes of an ancient gossamer  
Forest...well I can still hear your voodoo beckoning the spirits  
And I too can feel the power here where I stand as lightning  
Flashes and reveals the silhouettes of the undead walking these  
Cursed and sacred grounds and as the thunder rolls it almost  
Drowns out the drums echoing sounds...I take refuge at St. Mary's  
Over the way and here in the candlelight is where I'll stay 'til  
The break of day for I know I'll be safe here until the Nightstorm  
Ends although I too shake as violent as the walls bend from  
The furious winds and the Zombies trying to get in but I have  
Faith in the Lady and that she'll keep me safe from them and  
This ominous Nightstorm as when dark turns into light again  
I'll just have to ride out this Nightstorm a couple more hours and  
See this nightmare to the end!

## I Love an Alien

Well and in the season of the Crows Moon  
In the year of the rat and Lyra twice as bright  
I was in for the surprise of my life...somehow  
I managed to transmit my souls desire and  
Passion up into outer space and to a planet  
In the Andromeda Galaxy well and you heard  
My secret confessions and you had to find  
Out more about me...traveling faster than the  
Speed of light you tracked me down in just  
One night, I turned around and saw you and  
Your dark eyes saying I love you and I can  
Offer you more than any human ever could  
Now want you come and live with me where  
You'll be the center of attention and never  
Grow old baby take my hand and set yourself  
Free don't you know I can take on any image?  
You wish, I said somehow I know, I just know  
Your intentions are true so yes I will take  
Your hand and come and live with you...  
Goodbye big ole blue I Love an Alien  
Whether or not this is too much for you to  
Believe, I love An Alien and an Alien loves  
Me, I love An Alien, I Love an Alien from  
Another Galaxy!

## Going For the Gold

Well now and I'm Going for the Gold  
Not standing in the shadows  
Giving it my heart and soul  
Up the mountain, down the road  
New found determination, no  
Competition, first edition  
Not standing, not standing  
In the shadows 'cuz here I go  
Here I go going for the Gold  
Well and I will not settle for  
Second best go on now and put me  
To the test, I will not give up, I will  
Not give in no, and I will not give up  
I've still got too much life to live  
And love to give so hold on 'cuz  
Here I go, here I go  
Going For the Gold  
Not standing in the shadows  
Giving it my heart and soul  
Up the mountain, down the road  
New found determination, no  
Competition, first edition  
Not standing, not standing  
In the shadows 'cuz here I go  
Here I go going for the Gold  
It's just not in my nature to  
Back down from a challenge  
No, I can do anything I set my mind to  
Just stand back now and watch me  
Make all my dreams come true  
If it's the last thing I do  
When I get something in my head  
That's that so you just stand back

And watch me, watch me now  
Going For the Gold  
Not standing in the shadows  
Giving it my heart and soul  
Up the mountain, down the road  
New found determination, no  
Competition, first edition  
Not standing, not standing  
In the shadows 'cuz here I go  
Here I go going for the Gold

## As In a Dream

Miracle love developing,  
Instant love unfolding,  
Erotic love awakening,  
Almost too good to be  
True it does seem As In  
As In a Dream...  
Well and we know there  
Is a great force at work here  
It must be fate because there  
Is magic in every beat the  
Heart takes now...  
Romance overpowering  
In the shadow of candlelight  
And we find ourselves giving  
Into the passion every time  
Day by day, night after night  
Whoever said love was blind  
Must have been blind because  
In my soul I know this is...  
Some kind of a miracle  
Love developing  
A wild and intense love  
Ummm baby all senses  
Awakening  
Almost too good to be  
True it does seem As In  
As In a Dream...

## In the Year of the Clover

In The Year of the Clover and the luminous black sun my life did get better all the dreams I ever held dear to my heart have just begun... Apprentice to the Wizard in the shadow of candlelight and a black metallic cape pulled up around me tight gives me a new found freedom in the dead of night, just like the life giving Ankh around my neck silver bright. Well I walked the three star garden path that led me back to the Emerald Mountain again and I can still feel the spirit of St. Patrick from way, way back then just like the sacred green horned owl somewhere among the these ancient trees in the wind that echoes this is just where the journey begins... In The Year of the Clover and the luminous black sun I came to know the golden age of love, luck and miracles, surely this is just the best yet to come now In the Year of the Clover, In the Year of the Clover.

## Hanging on a Honey Suckle Vine

Swaying in the hot August breeze  
HANGING ON A HONEY SUCKLE VINE  
Back and forth, suspended in time  
Heart over mind...  
Well I feel almost like 15 again  
And I knew just how much you  
Loved me just by the way you'd  
Look so intensely into my eyes...  
Well and I feel just as much in  
Love with you as the years go by...  
And this sweet in the hot August  
Heat, HANGING ON A HONEY SUCKLE  
VINE, back and forth, back and forth  
Suspended in time, heart over mind...  
Oh 'cuz there's nothing but a big, big  
Blue sky up above and a blue bird  
Singing the along to the wind chime's  
Song, sippin' on homemade strawberry  
Wine and feelin' fine...  
Just swaying in the hot August wind  
Back and forth, back and forth  
Suspend in time, heart over mind and  
HANGING ON A HONEY SUCKLES VINE...  
HANGING ON A HONEY SUCKLES VINE!

## Be Somebody's Angel

## Full Moon over Werewolf

Full moon in the sky, curse of the werewolf on the rise  
And the poison runs through his veins and then  
The man becomes the beast once again...

FULL MOON OVER WEREWOLF going in for the kill  
Tearing through the mountains and hills, on the heels  
Of his next bloody meal, all the stories you've heard  
Are true, so please don't go out tonight if you don't  
Have to if you value your life 'cuz there is a FULL  
MOON OVER A WEREWOLF tonight...

And across the country side you can hear the  
Tormented howling, let that be a warning for the  
Curse of the werewolf can happen to almost anyone  
In any neck of the woods, I sure would hate to  
See it happen to you...

Evil comes in many forms and this one is the Devil's  
Pet, FULL MOON OVER WEREWOLF hungry and  
Starving to death...

Full moon in the sky, curse of the werewolf on the  
Rise!

## Rock 84001

Well and some scholars say we are  
The genetic offspring of Rock 84001  
From Mars...Well I believe we were  
Born out of Gods' very own heart and  
Mind still they say Mars was a dying  
Planet and the inhabitants there came  
To earth and their blood still courses  
Through our veins by means of hybrid  
Experiments and that's how life as we  
Know it did begin...they say just compare  
The red face pyramid to the Spinks in  
Egypt now how can that just be a  
Coincidence...still I am not sold on Martian  
Genesis, no I believe we are the offspring  
Of Adam and Eve not Rock 84001 or  
Aliens from this or that galaxy but I'm  
Not ruling out the possibility that maybe  
We are just the dream of God...

## Like The Dickens

Well whist in the world happened to  
drive us so far apart my friend...  
I miss you and I pray someday  
we'll be as close again as we were  
way back when...  
'cuz it's been a long, long time since  
we were together I'm sure we both  
have changed but in my heart you  
remain the same, that's one thing  
that'll never change...  
well and although my life is a busy  
one and something is always needing  
to be done I'd make time for you,  
anytime, anywhere, I still love you  
more than I've ever loved anyone...  
we had something special that can  
never be replaced, impossible to be  
gone without a trace...  
so I will make one last attempt to  
bring us back together again 'cuz  
I miss you, I miss you my dear, dear  
long lost friend Like The freakin'  
Dickens, maybe we can't go back  
but we sure as hell can start over  
again...  
please don't say it's the end and  
you'll never pass this way again  
oh can't you just open your heart  
and let me in again...  
surely we haven't drifted so far apart  
we can't rediscover each other and  
like suspended in time last October...  
oh God I miss you, I miss you Like

The Dickens and now after you the  
rest is slim pickens and I miss you,  
I freakin' miss you, Like The Dickens,  
Like The Dickens!

## Patriarch of My Heart

Well you are the Patriarch of My Heart  
For many moons now you've had me  
Under your spell...I wonder if you somehow  
Overheard that old, old wish of mine standing  
By that big 'ole magic wishing well who  
Knows for sure but now you are my only  
Reason for being and with every beat of my  
Heart I love you more and more I swear don't  
You know I'd die if I ever lost your love but  
I dare not dwell on such, I thank my lucky  
Stars and Heaven above...only in my wildest  
Dreams did I ever dream I'd find someone as  
Wonderful as you but now you are living  
Proof dreams do come true it's now I know  
They do oh Patriarch, Patriarch of My Heart!

## Hot-blooded Aries

I hate to admit this and some of you may not like it either  
But you know it ain't no lie no matter what we say it's just  
Our nature and we can't deny how we feel deep down  
Inside...our fire we cannot hide  
We love to be loved but our true desire comes from the  
Thrill of the chase...once we get what we want we  
Become restless and we begin to roam again to conquer  
What we've yet to conquer if it's just for one night our hearts  
Beat stronger in the arms of new lover...well there may be  
Somebody in the shadows, just an illusion of love because  
It's just the way of you and me, it's just the way of a  
Hot-blooded Aries...  
We really don't mean any harm nor do we want to  
Break anyone's heart we just can't help it...we're just  
Driven by a strong, strong passion that cannot be  
Suppressed...it's just who we are, you and me and  
It's just the way of a Hot, Hot-blooded Aries!

## It Must Be Jesus

Music of the harp and a host of angels  
Singing of his glory. Well I am touched by  
Your compassion and because of you my cup  
Runs over. My spirit has been set free! It Must  
Be Jesus, It Must Be Jesus giving his whole  
Heart without reservation! Well am I am in  
Your debt for sure, dear Lord! And I dare not  
Ask for more. You have put me back together  
And I know I am stronger than I ever was  
Before. And no I am not afraid anymore. It Must  
Be Jesus, It Must Be Jesus still loving me for  
Reasons only he knows for sure. But I have  
Always believed that if I died today I would  
Be lifted up to Heaven above. So I have no  
Fear in the grave because of you I will live  
Forever by the power of the blood. The sweet  
Lamb of God! And It Must Be Jesus, It Must Be  
Jesus giving his heart in the noblest way!  
Yes It Must Be Jesus!

## I'm Not Afraid Anymore

Music of the Harp and the Holy Trinity  
10,000 Angels watching over me  
Mother Mary doing all you can for me  
Well I am in your deepest debt and  
Grateful I am for sure! In sorrow when  
There was no light to be found my soul  
Was uplifted like a dove come down,  
Now I am stronger than I ever was before  
And no I'm Not Afraid Anymore!  
As you sing me your sweet song of love  
I am deeply touched by your compassion  
Here on the dawn of a new revelation  
I am no longer who I was...  
When there was no light to be found  
My soul was up lifted like a Dove come  
Down, Now I am stronger than I ever was  
Before and no oh no, I am not afraid  
I'm Not Afraid Anymore!

## You Can't Steal a Man's Thunder

Did I ever tell you of that time I watched  
You skinny dipping in Wauconda bay...  
The moon was full and bright, nothing was  
Hidden outta sight...I swore someday  
Somehow in this lifetime I would make  
You mine...

Well and you can't underestimate a  
Man on a mission, You Can't Steal  
A Man's Thunder, it took some doing  
But here we are doing what lovers do  
Wearing out these twisted covers oh  
Holding me, holding you...

Well and did I ever tell you of that  
Time I took your sister to the prom  
Just to make you jealous but the  
Whole time I couldn't keep my off of  
You and once or twice I could see  
You are making eyes at me too...

Well and you can't underestimate a  
Man on a mission, You Can't Steal  
A Man's Thunder, it took some doing  
But here we are doing what lovers do  
Wearing out these twisted covers oh  
Holding me, holding you...

It took a bold move on my part  
With a little help of some Tequila  
To finally get up the nerve to ask you  
For a dance, leaving it all to chance...  
You asked me what took you so  
Long surely you knew I've always  
Had a major crush on you...now  
Here we are just like I swore  
Years ago even if it took a lifetime

Someday I'd make you mine 'cuz  
You can't underestimate a  
Man on a mission, You Can't Steal  
A Man's Thunder, it took some doing  
But here we are doing what lovers do  
Wearing out these twisted covers oh  
Holding me, holding you...  
I guess it's true when they say  
Good things are worth waiting for  
And sooner or later everything comes  
Together especially when it a man  
On a mission well you just can't  
Steal his thunder, You Just Can't  
Steal A Man's Thunder!

## To Hold You Again

A time there was you needed my love  
And I was there to hold you and it did  
A world of good for me too but now it's  
Been a long time gone still my love for  
You goes on and on oh what I'd give  
To Hold You Again so safe and warm  
In my arms again...well we might of  
Been teenagers but it wasn't puppy  
Love we know tho family, so called  
Friends, time and distance finally came  
Between us oh what a shame but  
There's still the flicker of a flame after  
All these years the ghost of our love  
Hasn't disappeared oh Lord what I'd  
Give To Hold You Again so anytime  
You think you might think you need  
Me again I will not forsake you then...  
Do you ever wish things were like  
They were way back when...well what  
I'd give To Hold You, just To Hold  
You Again!

## Piano

Room full of candles casting shadows on the French  
doors in a gust of wind they swing open and the  
leaves blow in In the dead of the night the Piano  
plays our song all by its self Almost scared to death  
I try to go but I'm paralyzed there not believing what  
my ears are hearing. It's been a year since I lost  
you but tonight the ghost of you is here I know 'cuz  
the Piano ain't been played since they put you in  
your grave. Well Lightning flashes and as I relight  
the candles there you are right before my eyes As if  
you had never died you ask me for this dance looking  
into my eyes saying God I've missed you but death  
can't kill whatever dies. I put my head on your  
shoulder holding you tighter like trying to hold on  
to this moment forever but eventually you slip from  
my fingers and disappear in a flash of lightning  
outside the rain I ponder the notion of going insane  
but the Piano begins to play all by its' self again  
and I know the ghost of you was as real as the scent  
of you still on my skin and in the shadow of  
candlelight I dance to the Piano until morning light  
In the movement of Kiev!

## Generation X

Atlantis reborn we are the ancient ones who have returned  
Generation X timeline 69 to 79 and we will raise our young  
To be genius of mind and care for the baby boomers until  
Their spirits are rapture on down the line  
Generation X turning the tide, the giants of earth and sky  
Forceful yet loving, daring yet caring and ready for whatever  
Comes next...well we are, we are Generation X  
And this is just a sample of our anthem in the making  
As we come of age the world is ours for the taking  
We've got the magic touch and there's just no stopping  
Us now that we are back, the leaders of the pack and this  
Is just a sample of our anthem?  
Generation X turning the tide, the giants of earth and sky  
Forceful yet loving, daring yet caring and ready for whatever  
Comes next...well we are, we are Generation X.

## I Get a Kick Outta All That Kinky Stuff

Well and I Get A Kick Outta All That Kinky Stuff  
You do to me, the way you blow and stick your tongue  
In my ears, the way you spank me and make me  
Beg for more, the way you pour honey all over my body  
And lick me clean ooh wee well I Get a Kick Outta  
All That Kinky Stuff you do to me, the way you kiss  
And bite my neck, the way you tickle me 'til I almost  
Piss myself, the way you tie me to the bed and run ice  
Down my happy trail just sends me into orbit well and  
I know you get a kick out of it yourself especially when  
You use that toy on me; I swear you get into it as much  
As I do...I've never had such an innovated lover before  
Ooh wee baby, ooh wee I Get a Kick, I Get a Kick  
Outta All That Kinky Stuff you do to me, ooh wee  
Ooh wee baby I want more, more, more yeah make  
Me sore, I Get a Kick Outta All That Kinky Stuff!

## In Other Words

Well when you broke my heart  
you might of thought you broke my spirit  
but you couldn't be more wrong  
don't you know the song must go on  
through the good and bad, happy or sad  
although it may be hard to smile through  
the tears there is faith over fear..

In Other Words I'll be fine given time  
... I know I'll find my way back to myself  
and I won't need anyone's help 'cuz  
don't you know Heaven helps those who  
help themselves, In Other Words  
I'll be fine given time, I'll be stronger  
than ever when this nightmare is over  
Just because you broke my heart  
you couldn't destroy my hopes in  
a long and happy life, whatever Hell  
May come my way tonight, I will find  
a way to rise above it and maybe, just  
maybe tomorrow the hurt will just fade  
away although right now it's hard to  
smile through the tears, I still have faith,  
faith over fear...

In Other Words I'll be fine given time,  
I'll be stronger when this nightmare is  
over and I will find my way back to myself  
'cuz Heaven helps those who helps  
themselves and I will be just fine, just  
fine in time!

## Just A Little Lower Than the Angels

Well what's wrong with the world that  
We can't all just get along?  
Surely this is the dream of the Angels and  
Jehovah's never ending song.  
Love and compassion go a long, long way  
So embrace your brother with warm and  
Tender grace today! Have heart, be a light  
In the dark. Yes you can make a difference  
Somewhere out there right now someone  
Needs a helping hand, someone to talk to  
Who will understand?  
We've got to start thinking of others before  
Ourselves, no one is any better than anyone  
Else and we've got to stand up as soldiers of  
The lord and fight for peace 'cuz in the end  
Love is all that matters so love like you'd want  
To be loved and be a light in the dark of course  
We can't change the world overnight but it's  
A start. We can create miracles just by prayers  
We say 'cuz we are just A Little lower than  
The Angels, Just a Little Lower Than the Angels  
So be somebody's Angel today!

## Saved By a Mermaid

Well I was going down for the third time  
In the deep blue sea after our ship caught  
Fire mysteriously then I felt a hand taking  
Mine and a voice saying everything's gonna  
Be ok, everything's gonna be fine, I heard your  
S.o.s and cries of distress, lucky for you I  
Just happened to be in the neighborhood  
Man in gold dangling things and white,  
Man with eyes as dark as the night...  
No you are not dreaming, I am for real  
I am what you humans and sailors call a  
Mythical sirens but look at me and tell me  
Do I resemble some stupid sea lion, dolphin  
Or seal, I don't think so, get real...  
Soon tho you will wake up on the nearest  
Distant shore, you'll think it was just all a dream  
From the bump on your head and from loosing  
Consciousness but I guess that's for the best,  
The best for both of us...  
For they'll think you've lost your marbles and  
Call you a mad man and I'm not allowed or supposed  
To interfere with the fate of humans you understand  
But hence from this day forward every time you close  
Your eyes I'll be there, you will remember the feel  
Of my soft silky skin and the taste of my forbidden fruits  
You will recall the ecstasy you knew in the deepest  
Depths and all the magic that was there all around you  
Everywhere...  
Who knows maybe someday we'll meet again, if or when  
You ever return to the sea and maybe the next time  
I'll take you to my water world to forever live with me  
Until then just keep our little secret and keep on  
Believing, keep on believing in me...

One more kiss before I leave and return back to the sea

Just remember this day, always...

The day your imperial ship sank, you were saved...

SAVED BY A MERMAID!

## Me, Me, Me

Why can't we think about others before thinking about ourselves, why should it always be Me, Me, Me...it's a crying shame people are too self-absorbed these days to care about anything else now I'm not saying it's that way with all of us God knows I try to help those I can and God knows I try to love everybody the way I'd wanna be loved still I ain't no saint I have my moments too but all in all I still believe there should be more compassion than always Me, Me, Me...well and in those dark and chaotic times it seems as though we'd rather place blame on others than accepting the fact that it's us that could be wrong...it's a sad, sad world we live in today when it's constantly Me, Me, Me I wonder how much longer this world can go on this way...well why don't you be somebody's angel today 'cuz don't you know what goes around comes around so why don't you put a smile on somebody's face when you are feeling down!

## Fate Vindicated

Love letters from L.A. so sweet  
Every line makes my heart skip  
A beat, I know someday we will  
Be together because I believe  
The heart can bridge any distance  
No matter the miles that separate  
Us today, no and not even the  
High Sierra can stand between us  
Although I really don't know what  
You see in me, I'm just a simple  
Country boy from Chattanooga  
Tennessee but you say that not  
Makes me love you, you have a  
Heart unlike most people do and  
We have so much in common and  
That is what draws me ever so  
Closer to you...  
Maybe we were predestined since  
The beginning of time, only God  
Knows but you are the only one in  
This heart of mine...  
I know we will be together soon,  
Very soon forever, just like a real life  
Loving fairy tale, FATE VINDICATED  
Like a wish come true made on an  
Old wishing well, under Cupid's spell  
FATE VINDICATED, FATE VINDICATED  
Just like a real life loving fairy tale!

## Michael and Mark

Well these two darlin' boys of 4 and 6  
Were so full of life and as close as two  
Brothers could be...Michael and Mark  
Of Athens, TN had their fun in the sun  
And played their games as most children  
Do but one stormy night the dream of  
Two small caskets awake Granny Lou  
And it wasn't long before then prophecy  
Came true...their father came to pick  
Them up for the weekend right on time  
And everything seemed to be fine as they  
Headed up to that cabin in the Blue Ridge  
Mountains but as darkness fell that night  
A demon must have took hold of him as he  
Griped the barrel of a gun and ended  
Their sweet little lives...well God only knows  
What went on their for the dead can't speak  
For themselves but an eye for an eye and a  
Tooth for a tooth he shot and killed himself  
Farewell to bad rubbish but we'll always miss  
Michael and Mark just very much but  
We know they're safe in the arms of the Lord  
Now these two darlin' brothers so beloved!

## In The Land of the Red Rising Sun

Well and was this another seal broken  
As the Pacific Ocean came crashing  
Down over the red rising sun...  
You stumble around on shaking  
Grounds...so much disaster and  
Destruction you wonder what else  
Is to come as the night sets in...  
The darkness is like a Demon you  
Cannot escape and every broken  
Road is a dead end...in terror you  
Cry out where is my mother, where  
Is my father, where are my children  
And where are my friends...  
Well could this just be a prelude  
To the mystery of 2012 as the  
Ocean comes crashing down again  
Upon the red rising sun...you find  
Shelter in the ruins of a broken down  
Temple and closing your eyes you  
Pray to your secret God and that seems  
To give you a little hope but you know  
How bad things are and will become...  
In The Land Of The Red Rising Sun...  
The night turns to day but your tears  
And fears have not gone away...as you  
And those stumble over the rubble  
Where there used to be streets in the  
Land, In the Land of the Red Rising  
Sun!

~Dedicated to the people of Japan~

## Am I Still Your Boyfriend

Well we've been through a lot these  
Past few years...on again, off again  
And again but I still love you  
Baby...Am I Still Your Boyfriend  
Well I know you've been faithful to  
Me when I'm not around don't ask me  
How I know but I do and it gives  
Me a reason to believe you need me  
As much as I need you. Although we  
Both know it hasn't always been  
Sunshine and good times I still love  
You nonetheless and darling' I must  
Confess I think it'd kill me if our  
Love was ever to end...of course not  
Even true love is perfect and our  
Biggest fight was just last night but  
You said honey I'm sorry first thing  
This morning and held me so close  
To you and again I had to ask...  
Am I Still Your Boyfriend?

## Angelique

Oh immortal sorceress, daughter of Lilith  
She is a prism in the moonlight, a deity  
Darker than the Sargasso sea, her fury is  
Unforgiving as the Titans came to  
Recognize all because of their jealousy  
Over her lineage and limitless validities  
War was declared and with one wave  
Of her hand mount Olympus went down  
In flames she just laughed and laughed  
Devouring their celestial transcendence  
Future generations should have learned  
From the fall of the Titans fall but them  
Didn't learn anything at all...  
Cleopatra tried imprisoning her so she could  
Discover the secrets of everlasting life to be  
Queen of not only Egypt but the whole wide  
World but the daughter of Lilith turned herself  
Into the cobra that would be Cleopatra's  
Demise, you thought it was Rome well  
You were wrong; it was her all along...  
Angelique from Martinique, a timeless  
Beauty that even Venus would envy  
Frozen rose suspended in time, high  
Priestess calling out to you, messin'  
With your mind, she'll tell you she loves  
Then she will rip out your heart...  
'Cuz hell has no fury like a woman scorned  
And her magic is like lightning you never  
Know when it comes, her spells are forever  
Binding and she feels no shame in her game  
She'll make you regret the day you were  
Ever born, she may look like an angel but  
She is the devil in disguise and she will have

You right where she wants you with just one  
Look into her icy blue eyes 'cuz hell has  
No fury like a woman scorned especially  
When the woman is ANGELIQUE, ANGELIQUE  
From Martinique...

Oh immortal sorceress and daughter of Lilith  
She is a prism in the moonlight, deity darker  
Than the sea than lies below widow's hill  
You may think she is just a legend but me  
Assure you she is very real...

ANGELIQUE from Martinique, a timeless  
Beauty even Venus would envy, frozen rose  
Suspended in time, high priestess calling out  
To you, messin' with your mind, she'll tell you  
She loves you then rip out your heart...

'Cuz hell has no fury like a woman scorned  
Her magic is like lightning you never know  
When it comes, she'll make you regret the day  
You were ever born 'cuz hell have no fury  
Like a woman scorned especially when that  
Witchy woman is ANGELIQUE, ANGELIQUE  
From Martinique!

## Mother of Pearl

You may not know my name  
But we are friends just the same  
You have watched over me  
While in my sleep  
You have watched over me  
While in thought so deep  
You've been with me from  
The day I was born  
You will be with me 'til  
The day I die...  
The Ocean sings your song  
As the Mountains relive an  
Ancient dream in your shadow  
Under the night sky  
Well you have been a companion  
Of mine through many lifetimes  
And I feel you like Heaven's  
Grace, in a sweet embrace  
Oh kindred spirit now there is  
A sense of thine higher self  
Past, present and future come  
Together God forbid you  
Should disappear forever  
Well you have been a friend  
Of mine ever loving and kind  
From the day I was born 'til  
The day I die in which every case  
I can feel you just like Heaven's  
Grace, you wrap me up in your  
Loving arms and I have never felt  
So safe but it was my birth's sake  
In the sign of 69, off spring of mother  
Pearl and the three star crossroads

She is the essence of thine mind, body and  
Soul, all around the world and my little  
Corner of the world, MOTHER, MOTHER  
OF PEARL!

## Your Love is Like a Merry-Go-Round

Well you're one hopeless romantic  
Almost a border line lovesick fanatic  
But I wouldn't change you not if I could  
I love your wet and sappy kisses  
And the way you hold me so tight  
I think I'm gonna pass out from lack  
Of oxygen...some people may say  
Hey, hey, ok, ok but I think it's cute  
Maybe a little childish but you always  
Pick me up when I'm feeling down  
Just like A Merry-Go-Round  
'round and 'round of your love  
Never stops and never slows down  
Sometimes I think I'm at the circus  
The way you make me laugh  
Playin' the clown the way you pick  
Me up every time I'm feeling down  
Well your love is like A Merry-go-Round  
But I wouldn't change a thing about  
Your carnival ways if I could...yeah  
Sometimes I think I'm at the circus  
The way you just have this way of  
Making me laugh playing the clown  
Well your love is just like A Merry-Go-  
Round, never stops and never slows  
Down, your love is just like a Merry-Go-  
Round, A Merry-Go-Round never stopping  
Never slowing down!

## Summerland Island

Well I'm taking a midnight flight out of Harrison, TN tonight  
I just gotta take a break from old man winter and my  
No good for nothing lazy ass lover, so just like a night bird  
In flight I am leaving you and this cold frozen dead tree  
Town tonight arriving in SUMMERLAND ISLAND morning  
Light...

Oh SUMMERLAND ISLAND where the weather is hot and  
I can flaunt what I got and maybe, baby just maybe I'll  
Find out just what sex is all about in the arms of a new  
Lover oh one hell of a lover, as wild as a freakin' ass Tiger  
I have every intention of coming back sooner or later  
But then again maybe I'll stay and live out the rest of my  
Days here in SUMMERLAND, SUMMERLAND ISLAND 'cuz  
God knows I need some excitement in my life but I  
Wouldn't expect you to understand and don't even try to  
I'm afraid you'll hurt yourself but as for myself I'm out of  
Here tonight...

I'm out of here tonight, like a night bird in flight and by dawn's  
Early morning light I'll be having the time of my life and maybe  
Even more than I can even stand oh when I get to SUMMERLAND  
ISLAND, where the weather is hot and I can flaunt what I got  
In the clear blue water, blue water and bright white sands of  
SUMMERLAND, SUMMERLAND ISLAND!

## Ceremony of Dionysus

Dancing the intoxicating dance of Dionysus  
Ummm well I got that special feeling now  
Somewhere deep in the mountains overlooking  
Athens, sounds of ecstasy echo through the  
Night as a pillar of fire grows higher and higher  
Feeding the soul full of desire...  
And by the light of the moon we work ourselves  
Up into a sexual frenzy, we exchange partners from  
One group to another, just one really big orgy all  
Night long as if in a trance and everybody gets  
Their chance...  
Well this is what you call t-total bliss, my skin on  
Your skin and these lips find many more places to  
Kiss its pleasure out of this world as someone's cup  
Overflows and fills you up inside, this is eroticism and  
Passion in over drive...  
Oh yeah and ooooh baby, baby you work me up in  
A damn hot sexual frenzy as the shadows from the  
Altar's hand burns a fire, higher and higher ummmm  
And feeding the soul full of desire, during the  
CEREMONY OF DIONYSUS, enough wine, show me  
Yours and I'll show you mine...  
Well it has nothing to do with love, it's just the  
CEREMONY, CEREMONY OF DIONYSUS!

## You've Got Class

Oooh somewhat of a Charles Dickens  
Character from your hat to your boots  
Well I can tell you're different than most  
People these days but hey that's a good  
Thing it's got my goat if you know what  
I mean, yes you got what it takes, you  
Got what it takes, you just seem to radiate  
Oh yeah and baby You've Got Class  
You've got it going on dear freshman  
I just gotta ask do you want me 'cuz  
I want you whether it's right or wrong  
You've got me in a state of ummhmmness  
Well you've got it going on, you've just  
Got it going on and I am a gasp at your  
Jaw dropping kinda class  
Cool, confident and self-assured you  
Could charm the pants off of anyone  
Anywhere, anytime but you know that  
Don't you well your eyes make that clear  
But hey that's a good thing just go ahead  
Baby and lay it on the line it's got my goat  
Yeah it's got my goat by the throat, it's  
Got me feeling hotter than a pepper sprout  
Over you now 'cuz you've just got what it  
Takes and you radiate, you just seem to radiate  
'Cuz you just got this certain kinda class  
Dear freshman and I want you, I want you  
Right or wrong you've got me in a state of  
ummhmmness well you've got it going on,  
You've just got it going on and I am a gasp  
At your jaw dropping kinda class, damn baby  
You've Got Class!

## Golden Age

A million years ago when I was 17  
I was one with the garden...  
I was free to come and go as  
I pleased...in the breeze of angel  
Wings...  
Well it was The Golden Age of  
Innocence and serenity, it was  
The Golden age of sweet grace  
And blessed divinity...there wasn't  
Much more a soul could ask for...  
Thousands and thousands of years  
Ago in the Golden Age of tranquility  
In the Golden Age of Eden's luxury...  
Oh yeah and millions of years ago  
When I knew your nakedness  
Only pleasure was in my heart...  
One together from the start...  
Friends and lovers and we thought  
It would last forever...  
But we were banished from ever  
Returning again because we defied  
Our only no, no...But here we are  
Again and it's A Golden Age, A  
Golden age for us, for love just like  
Then when it was genesis!

## You're My Hero

Well and you are one of a kind  
There's no one in the world like you  
I know 'cuz you lift me up so high  
When I'm down so low...  
That's why you're My Hero and I  
Know I ain't got nothing to fear  
When you are around 'cuz  
Not even the Lone Ranger has  
Nothing on you and not even  
Superman can do the things you do,  
You've saved me from myself many  
Countless times don't you know?  
That's why you're My Hero!  
What in the world would I do?  
Without you, you are my saving  
Grace quite surely,  
God must have known I would come  
To need you and sent you to me  
Now there's no shadow of a doubt,  
No real reason to be afraid with you  
In my life everything will always  
Work its way out 'cuz  
You're My Hero, my friend and  
My hero, don't you know...  
You have saved me from myself  
Many countless times and allowed  
Me to live to see another tomorrow  
That's why you're my Hero,  
Yes You Are My Hero!

## Astoria

ASTORIA rising with the darkness  
Stepping into the velvet of the  
Night and like a night bird she takes  
To flight, dark in the shadow of  
Moonlight as the magic begins again  
Deep in the heart of the big black  
Forest...

Well ASTORIA stares deep into her  
Crystal ball and reveals all the visions  
She just saw then she reads from her  
Big black book of miracles, standing in  
The circle of life, the fire burns bright  
All through the night...

ASTORIA dances the dance of the  
Dragon and she sing one of her  
Favorite songs from a time long, long  
Gone...

Well lightning strikes and lights up the  
Night sky and thunder rocks the whole  
Mountain side where she comes to meet  
Her coven every Monday night until the  
Dawning of day light then ASTORIA says  
I love you all but I gotta fly...

Well and ASTORIA takes to the wind again  
Pulling her cape up around her tight and  
Dark up upon light...

ASTORIA the high priestess of dragon wings  
And firelight, ASTORIA, ASTORIA, ASTORIA  
Gypsy witch of the three star tower that  
Burns like a fire in the moonlight, the misty  
Moonlight!

## Naughty Baby

Naughty Baby working me up into frenzy  
Naughty Baby oooh Naughty Baby  
Making a man out of me, taking me to the  
Heights of ecstasy oooh baby, baby  
I'm so hot and its good yeah don't stop,  
Don't stop, give me all you got and don't  
Stop baby, oooh baby, baby...it feels so  
Damn good, skin on skin, over and over,  
Again and again oooh baby, baby, baby...  
I can feel it building up inside like a  
Volcano about to explode...get ready,  
Get ready baby...well you're one hell  
Of a lover definitely a cut above the  
Rest, I don't even smoke but you make  
Me wanna a cigarette...and here we  
Go again, working me into a frenzy  
Baby oooh baby, Naughty, Naughty  
Baby!

## You Came Along Just In Time

Just when I was ready to give up on love  
You Came Along Just In Time  
When I didn't think there was any real  
Reason to carry on you put back together  
The broken pieces of this heart of mine  
When I thought I'd be lonely forever  
You Came Along Just In Time!  
Now I just can't imagine going back  
To those sad, sad days when I was  
Without you darling don't you know  
You are the dream of dreams come true!  
You are the only one for me and I need  
You like the sky needs its blue now I  
No longer feel the pain of like I used to  
Yesterday when I was ready to give up  
On love oh no because...  
You Came Along Just In Time  
When I didn't think there was any real  
Reason to carry on you put back together  
The broken pieces of this heart of mine  
When I thought I'd be lonely forever  
You Came Along Just In Time!  
Don't you know you have put a hold a  
Hold on my heart thinking of you from  
Morning until dark. I never knew I could  
Love someone as much as I love you  
From the start my love you are unlike  
Anyone else and now I feel my true self  
And it's all due to you because, because...  
You Came Along Just In Time  
When I didn't think there was any real  
Reason to carry on you put back together  
The broken pieces of this heart of mine

When I thought I'd be lonely forever  
You Came Along, You Came Along  
Just In Time!

## Paybacks Are Hell

Well and Paybacks are hell aren't they  
But you can't say you didn't have it  
Coming...  
Respect me and I'll respect you  
Disrespect me and I'll disrespect you  
It works both ways...  
Don't make it harder on yourself now  
Than it has to be...check your facts  
Before you go and make yourself look like  
A jackass, but you are never wrong are you?  
Well I swear you are a royal pain in the ass  
But hey Paybacks Are Hell aren't they and  
You can't say you didn't have it coming...  
So here's an eye for an eye as they say  
Karma's a bitch and it cuts both ways...  
Respect me and I'll respect you...  
Disrespect me and I'll disrespect you...  
Paybacks Are Hell aren't they...?

## Labyrinth

Well and there is danger  
Around every corner you turn  
Trials and tribulations  
Like a Ferris wheel turns  
Many dark entities just waiting  
To devour you and drag  
You down to the great depths  
Of hell where it may take you a long  
Time, many incarnations to solve the  
Riddle of the dragon and leads you  
Out and back to the temples return  
Every time you're born you will know  
The twisted path that lies ahead  
But listen carefully to your intuition and  
That divine inner voice that comes from the  
Heart and not the head and through the  
Grace of God you will find your way  
Through this Labyrinth as in the maze of life  
Sometimes you may come to a dead end and have  
To back track but keep up your spirits and one day  
You will find your way through this Labyrinth  
And back into the light!

Well and even if you are alone you're not really alone  
You can't feel the wind but it is there so too are your angels  
And they give you the strength you need when you do  
Not feel so strong and your faith will be tested to the limit  
Don't be afraid, no just let hope lead the way and you  
Will find your way through the vast and ominous  
Unknown...

By the grace of God you will find your way  
Through this Labyrinth like in as the maze of life  
Sometimes you may come to a dead end and have  
To back track but keep up your spirits and one day

You will find your way through this Labyrinth  
And back into the light!

## Aphrodite

Goddess awakening, born of the sea  
In a burst of golden light a voice  
Spoken like thunder saying behold  
The apple of my eye APHRODITE  
The Goddess of love and beauty...  
APHRODITE, APHRODITE OH  
APHRODITE...

Bend an ear this way and grant  
My plea...

I wanna fall in love with someone  
Who really wants to fall in love with  
Me, I want to feel hot kisses of fire  
Romance, passion and desire, I want  
Someone I can talk to and never  
Runs out of things to say, someone  
Who knows my soul inside and out  
And still loves me anyways oh a  
Blonde haired, blue eyed air to the  
Throne with a body to die for well  
Who can ask for more...

I could but this is all good...  
OH sweet lovely dove of Zeus  
Born of the sea, in a burst of golden  
Light well you came to life and a  
Voice spoke like thunder saying  
Behold the apple of my eye...  
My daughter, APHRODITE oh  
Goddess of love, Goddess of love  
And beauty...APHRODITE!

## Sweet Memories

I remember you and all the things we used to do  
You'd think I'd cry going back in time recalling us  
But I'm over that now and all that remains are  
Sweet Memories, Sweet Memories of a past love  
Although you are still deep in my heart you are  
The closest thing I've ever had to romance and it's  
Quite a mystery how we ever did drift apart  
When did we dance our last dance, my first love?  
Well sometimes it seems just like yesterday when  
I held you in my arms but it has been years since you  
Went away now I'm over the tears but oh my first love  
I remember you and all the things we used to do  
You'd think I'd cry going back in time recalling us  
But I'm over that now and all that remains are  
Sweet Memories, Sweet Memories of a past love  
And here I go again remembering us and the way  
It was you'd think I'd hate you but I guess that's  
One thing time has taken care of and all that remains  
Now are Memories, Sweet Memories of a dear and  
Precious past love!

## Virgo

Well you are the Virgin of Chasity  
All fired up in a warm shade of Indigo  
You are the unification of cosmic  
Forces in the shadow of Mercury  
An adaptable soul but you never  
Compromise your virtues  
Born of the earth and the sardonyx  
You are a beautiful maiden of  
Royal dainties at summer's end  
Your fruit is ripe and by a harvest  
Moon your table is set with  
This and that and it's never  
Old hat oh at summer's end  
On a fat Wednesday night  
Well you are a wonderful  
Humanitarian touching many  
A heart and many a life yes  
You are the unification of  
Cosmic forces in the shadow  
Of Mercury and the last few  
Days of summer all fired up  
In a warm, warm shade of Indigo  
In the wake of September  
Enter, enters VIRGO!

## When You Kiss Me

When you kiss me you  
Set my heart on fire!  
You send me into frenzy,  
A frenzy of sweet burning  
Desire!

When You Kiss Me I am  
Like putty in your hands  
It's nothing short of ecstasy  
Sheer ecstasy and love,  
Love that makes a stand!  
Every time you kiss me,  
Baby every time you kiss  
Me, I get the feeling this  
Is forever and everyday  
It just keeps getting better  
And better!

My love, I've waited a long  
Long time for you...  
Through many lonely day and  
Nights but now here I am in your  
Arms holding you, holding  
Me tight!

And When You Kiss Me  
You set my heart on fire!  
You send me into frenzy  
A frenzy of sweet burning  
Desire!

Every time you kiss me baby  
Oh every time you kiss me!

## Delicate Dream

Oh as delicate as a rose in full bloom  
As delicate as a multicolored butterfly  
Could this be the dream I dream of  
With both eyes opened wide oooh  
Makes my heart go boom, boom, boom...  
Every time you hold me in your arms  
And kiss me here, there and everywhere  
I almost find myself losing my cool but  
No I can't be a fool and rush a good thing  
I gotta take extra special care in this  
Brand new love affair, can you feel my heart  
A flutter like a thousand Angel wings, a sweet and  
Beautiful thing, A DELICATE, A DELICATE  
DREAM...

Well don't you know I've had my share  
Of jokers, players and wolves in sheep's  
Clothing, I've had my share of heartbreak  
Misery and pain...Lord I pray you ain't  
The devil in disguise...oh God I hope you're  
The golden one, a fire and not just a flame  
But for now I know we should just take it  
Slow and see where it goes...

Who knows maybe you are the one I have  
Always dreamed of with eyes opened wide  
You take me in your arms and kiss me here  
There and everywhere...

A new love from out of the blue has got a  
Hold on me oh but I gotta keep my cool  
And not rush into anything like a fool, I have  
To take extra special care in this brand new  
Love affair, can you feel my heart a flutter like  
A thousand Angel wings, a sweet and beautiful  
Thing, A DELICATE, DELICATE, DELICATE

DREAM...

## Landon

Well and now you are somewhere on the  
Highway to Heaven or in the golden fields that  
Never need a plowing either way you should  
Be a saint by now 'cuz you were an angel  
When you were alive, you were an inspiration  
To so many...a man of your word, a man not  
Afraid to cry yeah you were one in a million  
Kind of guy and I know the whole world  
Mourned you when you died...

Well I hear tell your childhood and teenage  
Years were hard pressed to say the least  
Still you managed to put those  
Cumbersome issues behind you somehow,  
Somewhere between Middle America and  
Hollywood but all in all you never did let  
Fame goes to your head...your smile was  
Always genuine no matter how bad things  
Got your faith always saw you through  
The hard times and if someone needed your  
Help you'd go out of your way to help them  
'Cuz you were just that good and kind...  
Well I wonder if you're still on the highway  
To Heaven or in the golden fields that never  
Need a plowing either way you should be a  
Saint by now 'cuz you were an angel, you  
Were angels here on earth!

## Sweet Angel

How could someone like you?  
Ever love someone like me...  
Well you must be an Angel  
A miracle sent to me from  
Heaven above as hard as it  
Is to believe, just when I had  
All but given up on love you  
Came into my life and vowed  
Unconditionally that you would  
Love me 'til the end of all  
Eternity...  
Oh SWEET ANGEL unlike anyone  
Or anything, oh SWEET ANGEL  
Born from a fantasy straight  
Out of a dream, SWEET ANGEL  
Oh SWEET ANGEL you make my  
Heart wanna sing  
How did I get so lucky to be all?  
Your rave well I must confess  
I must be seriously blessed for  
You are not only my whole world  
Now but the love of my life, morning  
Day and night...  
Oh SWEET ANGEL unlike anyone or  
Anything, born from a fantasy straight  
Out of a dream, you make my heart  
Wanna sing...  
SWEET ANGEL, SWEET, SWEET ANGEL  
You are Heaven sent...  
You are my everything!

## Angry Eagle

Loyal to the mount and the sky above  
The Eagle really only wants to soar high  
On the wings of love  
Oh but lest he be provoked he can be your  
Worst enemy or your worst nightmare...  
He is a force to be reckoned with I swear  
Now he is fast on your heels moving in for  
The kill because you brought death and  
Destruction to his star spangled paradise  
Well that wasn't very wise now you're in  
For some big, big trouble and there ain't no  
Where you can run or hide, there's no way  
Now you'll make it out of this alive...  
Yeah you're gonna regret the day you  
Were ever born 'cuz there's nothing like  
An American eagle scorned...  
He wants nothing but peace but you're  
Gonna pay for what you've done. So you  
Better get ready 'cuz here he comes and  
You will surely beg for mercy, unlike the mercy  
You showed us; here he comes like a terrible  
Storm above, a dark winged shadow over  
Your head and you won't know what hit you  
Before your rivers run red and you are dead...  
You're gonna regret the day you were ever  
Born 'cuz there's nothing like an American  
Eagle scorned...  
He wants nothing but peace but he knows  
Sometimes there has to be a time for war  
If you wanna live in peace and so now  
Here comes the ANGRY EAGLE fast on your  
Heels, moving in for the kill!

## **We Need A Miracle...Today!**

I know it takes money to find cures  
For disease but how much more time  
And money will it take for these so  
Called scientist to find a cure for  
Leukemia, Aids and Cancer...I think  
They need to get off their lazy asses  
And start working a little harder and  
A little faster...truth be known they've  
Already found cures for these disorders  
Now it's just a matter of feeding their own  
Selfish greed 'cuz if you think about it  
It didn't take them no time to eradicate  
Polio and TB...well it just makes me cry  
To see innocent men, women and children  
Suffering when they don't have to...think  
About it could just as easily be me or you  
So I think it's time somebody said to  
These so called scientist stop focusing  
On your bio-warfare and start thinking of  
The human races...think about all the people  
You could save now be what supposed to be  
And give us a miracle, We Need A Miracle...  
Today!

## For Soldier

To our brave men and women in uniform.

Well and tonight the candle burns bright for soldier. You are in my prayers and your angels follow you everywhere! I salute you and the red, white and blue. You are my hero and I just wanted to let you know you are honored by measures untold! Whatever road you find yourself on God is already there tomorrow! But tonight I burn a candle bright for soldier, in my appreciation, in and gratitude Well you got what it takes make no mistake and when I count my blessing I count you twice! And again tonight the candles burns bright For soldier you are the spirit and the breath of American life and the song of the eagle echoes forever freedom, loud and strong!

## You Are Who You Are

Don't feel insecure 'cuz  
If someone's gonna love  
You they're gonna love  
You for who you are  
Don't you know it's not  
What's in the mirror but  
What's in the heart so  
Dry your tears and let  
Go of your fears stop  
Tearing yourself apart  
Because if someone's  
Gonna love you  
They're gonna love  
You for who you are  
So if your good ain't  
Good enough then maybe  
They're not good enough  
For you and you're better  
Off alone than to suffer  
Superficial fools  
Don't let it get you down  
'Cuz if someone's gonna love  
You they're gonna love  
You for who you are  
Don't you know it's not  
What's in the mirror but  
What's in the heart so  
Dry your tears and let  
Go of your fears stop  
Tearing yourself apart  
Because if someone's  
Gonna love you  
They're gonna love

You for who you are  
You're only human  
You ain't got anything  
To prove to nobody  
Learn to love yourself  
And the rest will follow  
Live for today and forget  
Tomorrow  
Don't lose the faith  
'Cuz if someone's gonna love  
You they're gonna love  
You for who you are  
Don't you know it's not  
What's in the mirror but  
What's in the heart so  
Dry your tears and let  
Go of your fears stop  
Tearing yourself apart  
Because if someone's  
Gonna love you  
They're gonna love  
You for who you are  
That's just the way it is  
And the way it's meant to be  
Well...you are, you are  
Beautiful to me baby  
So dry your tears and let  
Go of your fears stop  
Tearing yourself apart  
Because if someone's  
Gonna love you  
They're gonna love  
You for who you are  
Learn to love yourself  
And the rest will follow  
Live for today and forget

Forget tomorrow!

## Funny Feeling

Well I've got a FUNNY FEELING  
I'm gonna be crying the blues  
Tonight because you will not be  
Home to hold me tight, I've just  
Got a FUNNY FEELING I'm gonna  
Be laying here in our big ole bed  
All alone waiting, just waiting for  
You to phone, I've got this FUNNY  
FEELING but it's not really funny  
At all when the tears start to fall...  
Well I just don't won't to believe  
You could be out there somewhere  
Tonight cheating on me and I am  
The furthest thing on your mind,  
As I toss and turn, I think to myself  
Will I ever learn, 'cuz deep down inside  
I know there could be only one reason  
Why you're not here with me tonight  
Holding me tight and I guess me  
Wouldn't think too much about it if  
It wasn't the first time, I guess it's  
Just that I can't accept the fact  
You're out there somewhere tonight  
Having the time of your life not  
Giving a second thought about me...  
Oh and no nobody has to tell me  
I know I'm a fool for staying this long  
Maybe in the morning I'll be gone 'cuz  
I'm tired of your lies you think you can  
Disguise, I know what's going on I just  
Wish I were wrong, I just keep praying  
Maybe if I love you more and more  
Every day you will change because my

Love for you hasn't changed because  
Nobody could ever love you the way I  
Love you, oh Lord Want you tell me what  
To do 'cuz...  
I've got a FUNNY FEELING I'm gonna be  
Crying the blues again tonight because you  
Will not be home again to hold me tight I've  
Just got a FUNNY FEELING I'm gonna be  
Laying here in our big ole bed all alone just  
Waiting for you to phone, I've got this feeling  
I've just got this FUNNY FEELING but it's  
Not really funny at all when the tears start  
To fall, I never thought our love would come  
To this or this could ever happen to us but  
I have a FUNNY FEELING it is happening  
To us after all!

## This Is Now

Well this could be the Renaissance or This Could Be Now...  
a circle dance in the hour of the Northern Mockingbird...  
Venus in Pisces by chance...a wild and crazy romance  
serenaded by sweetest sonnets ever sung...  
enchanted by fragrances of Jasmine and Meer...  
well in the shadow of moonlight we celebrate our  
reunion once again tonight never minding those  
and the summer festival down by the river side...  
Well and this could be the great golden age of  
Poe or This Could Be Now...a circle dance in the  
hour of the Great Horned Owl...Jupiter in Mars  
by chance and a wild and crazy romance astonished  
by Tulsa's bright neon lights at the first world's  
fair...enticed by the smell of pop corn and cotton  
candy in the shadow of starlight we celebrate  
our reunion once again never minding those and  
the carnival clowns running all around...  
Well This Could Be the roaring twenties  
and the party to end all parties or This Could  
Be Now. Well whenever time space it is, it's  
always you and me and This Is Now, you and  
I...reunited once again in the age of Aquarius  
in the hour of the House Wren...a circle dance  
that does not end and again we are now, we  
are now!

## When In Rome

Uptown or downtown somebody  
Wants to touch your body  
Somebody wants to get a little  
Naughty so who ever you're with  
May not be your fantasy lover but  
When you have a rock hard, hard on  
It tends to have a life of it's  
Own so when it's all up in your face  
Take what you can get and have fun,  
Yeah just have fun and get ya some

Older doctor and a hot and young sexy

Uptown or downtown whenever WHEN  
IN ROME...

## Let Your Love Come Alive

Well I just don't understand people these days  
Always in a hurry, kind less and rude for  
One reason or another, I'm not saying I'm  
Perfect by no means but I try to treat people  
The way I'd want them to treat me...  
Life is just too beautiful to be ugly  
Life is just too short to waiting for that  
Second chance to make it up to  
Someone tomorrow so why walk  
Around always feeling down and  
That anger you carry around will  
Eat you up inside oh don't you know  
Life is just too beautiful not to be  
Happy and LET YOU'RE LOVE  
COME ALIVE, LET YOUR LOVE  
COME ALIVE...  
Now there are people I know that  
Are just full of the devil and will  
Never change, it's hard sometimes  
To separate the weeds from the  
Roses, it's hard sometimes to trust  
A total stranger when you've been  
Burned one too many times, it's a  
Never ending raging river that's deep  
In the muddy waters of negativity  
But it really doesn't have to be that  
Way if we all just believed in the power  
Of togetherness we could set our  
Spirits free there's no greater power  
Than you and me...  
Life is just too beautiful to be ugly  
Life is just too short to waiting for that  
Second chance to make it up to

Someone tomorrow so why walk  
Around always feeling down and  
That anger you carry around will  
Eat you up inside oh don't you know  
Life is just too beautiful not to be  
Happy and LET YOU'RE LOVE  
COME ALIVE, LET YOUR LOVE  
COME ALIVE...

## Born Of God and the Virgin Mary

Sweet Prince of peace conceived in love  
Born Of God and the Virgin Mary  
And in the light of a star bright  
Angels came saying: "Behold tonight  
In the city of David a savior is born  
Most holy, Born of God And The  
Virgin Mary  
And as the Shepherds who watched  
Their flock on a faraway hill came to the  
Manger so quiet and still and fell to their  
Knees and praised the Lord  
And as they slowly left the nativity they  
Went spreading the word then people did  
Come from all around from the lowly to the  
Three kings to see the infant Emmanuel  
And they also fell to their knees and  
Worshiped the Lord  
Sweet prince of glory conceived in love  
Born Of God and the Virgin Mary  
In the ancient city of Zion  
Where Heaven gave birth on Earth  
And in the light of a star bright  
Angels came saying: "Behold tonight  
In the city of Bethlehem a savior is born  
Most holy, Born of God and the Virgin Mary  
2000 and something years ago we were  
Given one more second chance through the  
Grace of the sacred Trinity when Jesus  
Was born, Born of God and the Virgin Mary.

## I Wish I Could Save You

Well it just breaks my heart  
To see you in tears and a  
Drinking yourself to death  
Trying to erase the past and  
Calm your fears...

Well I Wish I Could Save You

Put my arms around you  
And take away your pain  
But I can't save you if you,  
If you don't want to change  
Still it kills me to see you  
All hung over from another  
Night flying higher than a  
Kite, wasted again and  
Wasting your life away  
Digging yourself into an  
Early grave oh Lord

I Wish I Could Save You

Put my arms around you  
And take away your pain  
But I can't save you if you,  
If you don't want to change  
I wish I knew what turned  
You this way but it's a  
Mystery to me even tho  
We've been friends for  
Years and years I can't  
Break this chain, I can't  
Set you free but...

I Wish I Could Save You

Put my arms around you  
And take away your pain  
But I can't save you if you,

If you don't want to change  
No I can't save you if you're  
Not willing to change!

## Horse of a Different Color

This is the Horse Of A Different Color you've always heard tell about...well and this season it's a celebration of the heart...ceremony of the horseman as the gypies danced you kissed me and I lost all reason and as they partied all night long we made love 'til the break of dawn...then as the clan sat out for the promise of gold summers wetland you took my hand and climbed up real close to me...I said hold on tight, I said getty up Midnight going down the golden mountains and blue green streams...somewhere along the way you whispered in my ear I want you right now, right here let them go their own way we'll find ours...now how could I resist that well I guess California can wait another day or two we've already come thus far and heart to heart I knew we'd live the rest of our days for richer or poorer never to part...ceremony of the horseman, ceremony of the heart and this is the Horse of A Different Color you've always heard tell about!

## You Know Me

Well YOU KNOW ME and what makes me smile  
YOU KNOW ME and what makes me cry  
YOU KNOW ME and you still love me all the while  
YOU KNOW ME and how quite difficult to get  
Along with sometimes still you stand by my side  
I guess it's 'cuz YOU KNOW ME, YOU KNOW  
ME better than I know myself and still you love  
Me more than you even love yourself...  
Well it just blows my mind, you seem to know  
What I'm gonna say even before I say it  
Well darling are you some kinda psychic or  
Can you just look into my eyes and read my  
Soul well I don't know but you got me riding  
High on magical rainbows and it feels good  
Oh how did I ever get by before without you  
It can't be anything other than divine intervention  
That brought us together and it's now I know  
We'll always be together, forever together 'cuz  
How else can you explain how you knew I was  
The one for you from the word hello you just  
Knew all you'd ever need to know, it's just like  
You looked into my eyes and read my soul for...  
YOU KNOW ME and what makes me smile  
YOU KNOW ME and what makes me cry  
YOU KNOW ME and you still love me all the while  
YOU KNOW ME and how quite difficult to get  
Along with sometimes still you stand by my side  
I guess it's 'cuz YOU KNOW ME, YOU KNOW  
ME better than I know myself and still you love  
Me more than you even love yourself...

## Alive Again

From winter to summer and back to winter again  
I hate these cold and gloomy days, the snow and  
The icy cold wind in my face that just seems to take  
My breath away and to make things worse all your  
Stuff and left me today for him but I knew it was a  
Long time a coming way back when before summers  
End, somehow our lives crossed paths for a short  
Time then took different roads but you wanna know  
What I don't think I'll really miss you truth be told...  
Oh no, no not anymore now that there is a new love  
In my life whose kisses set me on fire on these cold,  
Cold winter nights and every time we make love it's  
Like the 4th of July, drowning in sweet, sweet flames of  
Desire I never thought I could feel this way since  
Nobody has ever lived up to my first love, all my lovers  
Since then were just a means to an end until you  
Walked into my life and made me feel alive, ALIVE  
AGAIN...  
Well isn't destiny a funny thing, it's either feast or  
Famine and those bridges that move us on into  
Tomorrow but tonight outside the snow we are  
Cozy and warm wrapped up in each other's arms  
So who cares if winter lasts all winter long as long  
As I have you to hold onto...  
From winter to summer and back to winter again  
It used to be all hum-drum with so many lovers  
Who were just a means to an end oh until you walked  
Into my life and made feel alive, ALIVE AGAIN!

## Like a Ghost Passing Through the Night

Moon of gold and a storm on the horizon  
My cape like gossamer wings in the wind  
Oh starlight, star bright first star I see tonight  
Send me somebody to love before the reaper  
Comes and takes my life...

Well I know it's out there somewhere maybe  
Just across the Tennessee River or the sierra  
Mountains that touch the sky, where do I look  
If there's somebody for everybody like they  
Say or does anyone really love anybody deep  
Down inside...

Well I hear the sound of thunder and turn  
Around in a flash of light, in tears my dreams  
Are shot down again like an innocent eagle  
In flight...

Well I try this spell, this magic potion and  
Invoke the ancient spirits of passion and desire  
Hell if I not meant to be loved in this lifetime  
Then at least send me a lover who can quench  
My fire well I'll take one if I can't have the other  
Because I don't know how much longer I can go  
On all alone every damn night, I feel just like a  
Ghost lost and confused and reliving the past  
And who says it's just one of those things ghost's  
Do at night but looking at this moon of gold  
With my cape pulled up around me tight, I jump  
Back in a flash of light as the thunder grows  
Louder around midnight...

Well I feel like nothing but the shadow, the shadow  
Of A GHOST PASSING THROUGH THE NIGHT, every night  
Just like A GHOST PASSING THROUGH THE NIGHT!

## I?ll Wait Forever

How many boyfriends have you been through  
While I stood by your side wishing you were  
Mine the whole time, how many times have I  
Helped you pick up the pieces of a broken  
Heart, break up after break up, you say I can't  
Really say I've ever been loved, we'll all you have  
To do is to look deep into my eyes to see you  
Are truly loved...

Maybe all you see in me is an old friend and  
Nothing more but I'd you'd only give me a  
Chance I could love you like you've never been  
Loved before...

I guess I'm just too scared of losing your  
Friendship to tell you how I really feel about  
You, I just keep wishing and hoping someday  
You'll think of me as more than just a friend...  
Never would I ever break your heart oh no on  
The contrary I'd bend over backwards to make  
You happy so if I have to wait forever, I'll WAIT  
FOREVER, until maybe you look at me through  
Loving eyes and realize it was always you and me  
That was destined to be together so if I have to  
Wait forever, I'll WAIT FOREVER, I'LL WAIT  
FOREVER until you love me!

## Dusk

Oh and as the sun begins to set I come alive  
The moon comes curling around the mountains  
Like a blue lamp in a dusty pink sky...  
I step into the velvet of the night that I love  
In my red velvet cape and black gloves, still carrying  
A torch for some distant past ancient love and  
As the wind carries my spirit high through the dark  
Clouds above I am in a state of euphoria just  
Thinking about the taste of your in toxic blood...  
When the sun goes down it's my time to rise, my  
Time to fly, as the moon comes up and the day  
Turns to DUSK the magic comes alive...  
Thirsty and dry, time to rise, time to fly and the  
First one to catch my eye in the DUSK will die  
Well that's just the way of the vampire as the sun  
Goes down and the moon comes up...  
Out of the shadows of dusk!

## Ghost Town

Standing in the among the ruins of what  
Used to be a thriving little gold fever town  
I swore I heard music and laughter coming  
From the half-moon saloon, I walked around  
But nobody could be found still I could of  
Sworn I just saw a cowboy walk chasing  
An Apache in a cloud of dust well I felt a  
Chill run up and down my spine and it is a  
Hot, hot day in August maybe it's the heat  
And the sun getting to me, I'd say that if  
I just didn't stumble up on crooked head  
Man swinging from dead man's tree...  
Apparently they don't call this a GHOST TOWN  
For nothing, and they're everywhere, one  
Here and one there, voices of the dammed  
Keep telling me you will not leave this town  
I try to run for my life but they gather around  
Me and pull me to the ground, now here I am  
Confused as I go stumbling around this  
Cursed town, this GHOST TOWN...  
Whose blood do you have on your hands...?  
You stare off into space with cold and evil dark  
Eyes...  
Does the gun in your hand make you a man...?  
Now what cowboy, now that I'm roped and tied  
Surrounded by your hell hounds in this devil desert  
Town...  
Apparently they call this a GHOST TOWN just because  
It's a GHOST TOWN!

## Just Because We're Over

JUST BECAUSE WE'RE OVER

Doesn't mean we still can't

Be friends, JUST BECAUSE

WE'RE OVER doesn't mean

We can't still get together

And have some fun every

Now and then...

After all the years we shared

Together it would be silly now

To just go our separate ways

Forever when we used to be

The best of friends and the best

Of lovers...

So JUST BECAUSE WE'RE OVER

Doesn't mean we have to part in

Hopes of maybe seeing each other

Again, not JUST BECAUSE WE'RE

OVER doesn't mean we can't be

Friends, JUST BECAUSE WE'RE

OVER, JUST BECAUSE WE'RE

OVER...

## A Real Jack the Ripper in a Small American Town

Gladys was a devote Baptist and a  
Sweet old lady who never had anything  
Bad to say about anybody so when this  
Young man moved into the neighborhood  
They said you can just look into his eyes  
And see he's nothing but bad news but  
Gladys said now didn't our Lord say he  
Who is without sin cast the first stone?  
Little did she know she had just dug her  
Own grave for it wasn't a year to the day  
On a dark and starless night close to  
Summer's end he snuck into her house  
And up behind her while reading the good  
Book and with one forceful stroke slit  
Her throat, she fell face down on the kitchen  
Table and one cheek resting over the  
Words of the Lord...  
That was fifty years ago and nobody would  
Of known it was him if it hadn't of been for  
The funny cowboy boots he wore that  
Left their imprints on the bloody kitchen  
Floor...  
Well that was fifty years ago but last night  
He escaped from his padded cell and now  
A demon is on the loose again, like a bat outta  
Hell, in a small, small American town...  
A REAL JACK THE RIPPER that can't be found  
A REAL JACK THE RIPPER leaving dead bodies  
All around, in a small, small American town...  
A REAL JACK THE RIPPER that cannot be found!

## Hung Over

Well you swear up and down this morning  
I told you I love you and I wanna spend the  
rest of my life with you last night...

Well I must have been drunk off my ass and  
desperate to get me some 'cuz hon you're  
really not my type...

I'm not trying to be mean or cruel but we're  
just friends and that's all there ever could  
be between me and you, don't look at me  
so sad and for God's sake please don't cry  
I don't see any reason why you'd lie but  
I'm really not that kinda guy, I guess alcohol  
and friends really don't mix especially alone  
together, you say yeah but you sure were good  
couldn't we be friends and lovers, I don't think  
that would be fair to you what if I met someone  
tomorrow and you suddenly were yesterday's  
news...

I'll always be you're friend but that's where it  
ends and please let's not have this conversation  
again...

let's drop it ok before we end up really mad at  
each other and I really can't handle this right now  
I'm just way too hung over!

## Love Me for Me (The Real Me)

See me not caring anymore  
see me walking out the door  
you've hurt me for the last time  
and I'm tired of you trying to  
mess with my mind, so see me  
not caring anymore, see me  
see me walking out the door...  
Someday somebody will find me  
and fall head over heels in love  
with me, somebody who will  
appreciate me for me...  
I thought you were the one now  
I know I was wrong but oh well it  
wasn't the first time, it won't be the  
last time, 'cuz I know I'm not always  
a very good judge of character but  
someday maybe I will find my soul  
mate and live happily ever after until  
then I just have to believe someday  
somebody will find me and LOVE  
ME FOR ME...  
It's unbelievable how many times  
I've been played the fool but I guess  
that's how it goes when you think  
every body's has a heart of gold but  
I'm tired of being used and played the  
fool so you are the last one from this  
moment on until I know my soul  
mate finally comes along...  
Yeah 'cuz I just gotta keep believing  
someday, somebody will find me and  
LOVE ME FOR ME, LOVE ME FOR  
ME...THE REAL ME.

## My Little MO JO Bag

Well I got an Rx from Marie Lave au  
In the backwoods of New Orleans...  
A sacred blue voodoo MO JO BAG  
She said I made this just for you, just  
For you now Bo...carry it in your left  
Pocket at all times and it will bring you  
The luck, the love and the peace of mind  
You've been trying to find...  
No harm or evil will befall you anymore  
Oh no, on the contrary this bag will make  
All your dreams come true and thus more  
It will bring you prosperity, creativity and help  
You to fulfill your destiny a little quicker on  
Your life's journey and you will no longer be the  
Victim of any kind of physic negativity  
Again...anything you touch now will turn to  
Gold, she said trust me honey child I'm not the  
Voodoo queen for nothing don't you know, but  
Most of all I give you this MO JO BAG for all  
Around well-being and as a matter of fact it will  
Give you the gift of longevity, just wear this  
MO JO BAG in your left pocket every day, you feel  
Me, I know you are a sensitive so I know, I know  
You feel me, and don't listen to what the non-  
Believers say 'cuz don't you know they don't call  
Me the voodoo queen for nothing, just trust me, just  
Trust in me and only me Bo, from this day forward  
Everything you touch will turn to gold, if my name  
Isn't Marie, Marie Lave au!

## I Wanna Know the Answer to Everything

I wanna know what secrets the library of Alexandria  
Held before it was burned to the ground, I wanna know  
What happened to Atlantis and Lemuria before the  
Ocean drug them down, I wanna walk and talk with  
Angels and find out what the hereafter is really all  
About...

I WANNA KNOW THE ANSWERS TO EVERYTHING

No matter how complex or extreme, every little  
Controversy since Adam and eve to generation x, y  
And z, I wanna know 'cuz they say history repeats its  
Self just like the twilight zone or an x-files but the real  
Thing so I WANNA KNOW, I WANNA KNOW THE ANSWERS  
TO EVERYTHING, EVERYTHING...

I wanna know all about the aliens the government  
Any knowledge of and once and for all what part  
The Kennedy's played in the death of Marilyn Monroe  
And I wanna know what mysteries at yet to be  
Discover at the bottom of the Bermuda triangle, too many  
Ships, boats and planes just seem to disappear like a ghost  
In the fog, something like a thief of lost souls...

I wanna walk with spirits of the dead new and old  
And tell me everything they know, no spare me no details  
Even if you don't think I can handle it, don't hold back nothing  
No matter how complex or extreme...

I WANNA KNOW, I WANNA KNOW THE ANSWERS TO  
EVERYTHING, EVERYTHING!

## Masquerade

Well and as the music plays and everybody  
Dances to Mozart inside I stand out here  
On the terrace all alone outside  
All alone except for the owls, the moon and the stars  
I might feel left out and down on myself  
Wishing I was someone in there, someone other than  
Myself but the night is young so who's to say  
I just might not be going home all alone  
Maybe I'll meet the one, the one I've waited and  
Dreamed of for so, so long, who knows but I guess  
I won't meet anyone if I don't make my presence known  
'Cuz the night is still young and I wanna have  
Some fun, after all it is a MASQUERADE BALL  
And I should be having the time of my life, tonight...  
Tonight I could dance with anyone and  
Remain a stranger, a complete stranger if I really  
Want to, but then again, tonight I could be in the arms  
Of the one, the one who can see pass the mask  
And into the eyes that can't disguise the soul  
After all the eyes are the windows to the soul  
And if destiny rules all my dreams  
Will come true, you will know me and I will  
Know you, tonight if destiny rules, if destiny  
Rules, even for a little while here tonight  
At this MASQUERADE, MASQUERADE BALL  
There is a certain something magical  
Happening here I haven't felt since 89, as you take  
My hand my heart says this might be the one,  
The one who will be holding your hand now  
And for a lifetime, but I wouldn't had known it  
If I hadn't of swallowed my pride and  
Danced one dance tonight here at this fairy  
Tale, enchanted fairy MASQUERADE BALL!

## Bad Ass

Oh yeah uh-huh you're such a Bad Ass  
Deep down inside I bet you're just a  
Frightened little child and behind closed  
Doors you're not such a Bad Ass...  
You try to bring everyone down, down  
To your level and if it isn't one crazy thing  
It's something else, oh my God I bet  
You can't even stand yourself...well I'm  
Not gonna suffer your misery, you can  
Act like a Bad Ass all you want but  
You don't scare me...I think it's sad  
You're so cold hearted and sometimes  
I wonder what made you that way, why  
And how it all started...well regardless  
However you might intimidate  
Some people but I'll be damned if you  
Cause me one sleepless night...I  
Learned a long time ago how to live a  
Peaceful and carefree life so go on  
With your bad self but really the joke  
Is on you, you jackass...you aren't  
Really such a Bad Ass!

## New Madrid

Well I love Tennessee, the mountains, the rivers and the valleys.  
Knoxville, Chattanooga and Nashville. But Memphis is a disaster  
Waiting to happen again like it did in the late 19th century when the  
New Madrid first made its presence known. The Mississippi river  
Ran backwards for days and days and Thousands of Indians and  
Pioneers lost their lives and homes as the liberty bell tolled the hour.  
The whole east coast felt its power!

Heaven have mercy on our souls because it is overdue to shake  
Things up again! Only God knows when but it's destined to come  
Around again...

It seems like not too many people are unaware of the NEW MADRID  
And the devastation at hand or is it we are just too preoccupied with war and  
The carrying on of the other lands well I don't know but I do know one thing for sure history  
Has a peculiar way of repeating its self. So let's not be so quick to put this book back on that  
Shelf. Take care in all you do don't you know we are not promised  
Tomorrow and the NEW MADRID is a bombshell about to split America into  
Could be the gates of hell and we're all as good as screwed!

## Sleepwalking

Well there's a chimpanzee playing  
in my flower bed, there's a ghost in my  
attic raising mortal hell, I must be  
going crazy 'cuz I haven't even taken  
any pills and this can't be real, I tell  
myself you know this just can't be  
real...

I ask everybody if they see what I  
see and they say uh no we don't see  
anything, it's like some kinda like an  
Alice in wonderland movie it seems  
surely I'm just tripping on a dream  
and hallucinating all this  
SLEEPWALKING...

someone please wake me up from this  
impossible dream 'Cuz I'm sitting here  
eating brains like spaghetti with a zombie  
and Heath Ledger just walked out my  
back door and if that's not enough there's  
some kinda wild Greek orgy going on down on  
my living room floor...

Well am I going crazy or is this just  
kinda Alice in wonderland dream, I ask  
everybody if they see what I see, they  
just gasp and say uh no we don't see  
anything, has my mind finally flown the  
coop or am just tripping on a dream  
this is all to unreal to be the real deal,  
someone please wake me up from this  
hurly-burly comatose state I seem to be in  
and stop my SLEEPWALIKNG  
stop my Alice in wonderland  
SLEEPWALKING!

## Light Hearted

Somewhere beyond this there's recovery  
Somewhere between the heart and the mind  
Sooner or later we will find peace, love and  
Joy...we just have to believe even in our  
Darkest hour there a light within that always  
Shines so don't be so hard on yourself  
This too shall pass, keep the faith 'cuz what's  
Past is best left in the past...allow yourself  
To be Light hearted, let go and let God  
Everything happens for a reason so enjoy  
Life and all the beauty that surrounds you  
This season...there's really no real reason to  
Be afraid no matter how bad things seems  
Everything will be ok...so be Light hearted  
Give yourself a chance, sing a new song  
Dance a new dance 'cuz somewhere beyond  
This there's vindication somewhere between  
The heart and the mind...we will find grace of  
Sweet redemption...so be Light hearted and  
Let your spirit shine!

## Blue Revelation

Blue Revelation  
Dark fate  
Blue tears  
Oh the heartbreak  
Well and now the ones I  
Loved are all gone and I am  
All alone just like a ghost  
In my own home as the days  
And nights just drag on  
Somewhere in between  
Darkness and dawn  
And the world keeps bringing  
Me further down than usually  
No one, nowhere to save me  
No one, nowhere to love me  
And it's driving me crazy...well  
And this Blue Revelation here  
Of dark, dark fate  
Of the bluest blue tears  
And great, great heartbreak  
No I can't find anything to hold  
Onto anymore crying naked on  
The floor there is no open window  
With the closing of the door  
The soul and the heart at war  
And it's all because of this  
Blue Revelation here  
Of dark, dark fate  
Outside the cold, cold rain  
Where the bluest of blue tears  
Fall in pain from this hard pressed  
Heartache!

## If You Need a Friend

He looks like he could use a friend  
Every time I see him he always looks in  
A sad, sad way.  
Well I try to talk to him but the kinda  
Hard to talk to. How do I tell him I think  
He's really, really cool?  
It just kills me to see him so morose  
Every time I see him again I wish I could  
Tell him you don't have to be lonely...  
Don't be lonely now 'cuz If You Need A  
Friend I'll Be Your Friend!  
If you need a buddy to share your  
Secrets with I'm all ears and if you need  
A buddy to do things with I promise  
I'll never disappear. If you need a brother  
Like the brother you never had...well your  
Brother is here!  
If you need a kindred spirit to quite your  
Fears I will do my best to make your nightmares  
Disappear and when you can't think straight  
I will guide you 'til you know why you are here.  
I could be wrong but you look like you need a  
Friend. How do I tell you then If You Need A  
Friend I will be your friend, never expecting  
Anything in return. If You Need a Friend  
I will be your friend 'til the end!

## Make the Best of Today

Nobody knows what tomorrow will bring  
Could be sunshine, could be rain  
Could be pleasure, could be pain  
But you got to have faith over fear  
Even in your darkest hours and  
Drowning in your own tears, keep the  
Faith, faith over fear and  
MAKE THE BEST OF TODAY before  
It slips away, like the sands of time  
Slipping through your fingers, every  
Moment, every hour of everyday but  
It all comes down to you, to find the beauty  
In something if you really want to and  
MAKE THE BEST OF TODAY before it all  
Slips away, like the sands of time that seems  
To slip through your fingers faster and faster  
Every day, MAKE THE BEST OF TODAY...  
Because you never know where tomorrow  
Will find you, you could be here one minute  
Then gone the next just like everybody  
Else, time waits for no one, white rabbit on  
The run...  
Rich or poor, in peace or war well only  
Heaven knows for sure but I know a  
Window will always open with the closing  
Of any door but even in your darkest hours  
Drowning in your own tears, have faith, faith  
Over fear and...  
MAKE THE BEST OF TODAY before  
It slips away, like the sands of time  
Slipping through your fingers, every  
Moment, every hour of everyday but  
It all comes down to you, to find the beauty

In something if you really want to and  
MAKE THE BEST OF TODAY before it all  
Slips away, like the sands of time that seems  
To slip through your fingers faster and faster  
Every day, MAKE THE BEST OF TODAY...  
Time waits for no one and the white rabbit  
Is on the run!

## I Will Love You Forever

Well every now and then I have to pinch  
Myself to see if I'm not dreaming for even  
In my wildest dreams I never dreamed  
I'd ever find someone as tender hearted  
And sweet on me like you...I guess it just  
Goes to show you never do know  
Where life is going to lead you but it's  
Now I know it's you and me now happily  
Ever after together...and I WILL LOVE  
YOU FOREVER, nothing on God's green  
Earth will ever change that my darling,  
My friend, my lover...two hearts one  
Together and my love I swear I WILL  
LOVE YOU, I WILL LOVE YOU  
FOREVER...I don't think I'll ever run out  
Of words of showing you just how much  
I care, whether here or there, my love,  
My friend, my lover I WILL LOVE YOU  
FOREVER and ever and ever, I WILL  
LOVE YOU ALWAYS AND FOREVER!

ever happened to me and now I only live  
to make you happy, to make you happy

MY PLEASURE, IT'S MY PLEASURE!!

## Judy Garland

Hollywood Angel, Somewhere over the rainbow  
And on down that yellow brick road through  
The years and stage to stage well That's Entertainment  
Still going strong, although she's been gone for  
So long her spirit still lives on...  
Like a journey to a star, maybe once, maybe twice  
MGM favorites would come to see her show from  
L.A. to New York City standing in the shadow of  
Her name in bright neon lights...  
Then the curtains would rise and the applause was  
Louder than thunder, she'd just stand there with her  
Arms crossed under the spotlight 'til the moment  
Was right but as soon as she'd start singing Call the  
Press, call the news the crowd would go wild again  
But she had such a powerful voice she could sing over  
The, singing Zing Went The Strings Of My Heart, Come  
Rain or shine, Judy's Ollies, Pretty Girl Milking Her Cow,  
Just in time and of course Somewhere Over The Rainbow  
But that was never the end of the show, she'd ask the  
Audience what they'd like to hear now, she would never  
Leave them for less than what they came for, from  
Las Vegas to Singapore...  
From The Wizard of Oz to A Star Is Born, the world  
Remembers and still mourns, Francis Gum otherwise  
Known as JUDY GARLAND, a timeless legend like a  
Journey to a Star, way up high where the blue birds  
Fly!

## Widow's Hill

Even when the night air is calm  
and still you can hear the wailing  
of women from the past that flung  
themselves off of WIDOW'S HILL  
to the cold, cold ocean below and  
legend has it at Collinwood they're  
waiting for another jaded woman  
to join them at the bottom of  
WIDOW'S HILL where their restless  
spirits wonder still...

Well listening to this tragic story  
gave Victoria Winters the shivers  
and she couldn't sleep a wink  
that night, she wondered what in the  
world could be so bad that these  
women would take their own lives...

The Mistress of Collinwood said "oh  
my dear I'm sorry if I upset you, pay no  
more mind to these silly stories and  
that's all they are nothing but silly old  
stories" but Vicky said I must be crazy  
but I feel like they're trying to lure me  
to my death I don't know why that's  
just the way I feel and I can't help  
myself, especially after seeing the  
shadow of a lady in white at the top  
of WIDOW'S HILL last night"...

The mistress of Collinwood said "oh  
darlin' it must of been your imagination,  
I've never heard or seen anything out  
there but if that's how you feel then please  
promise me you'll take someone with you  
if you must go out there" Vicky agreed but

she knew the Mistress of Collinwood was  
lying and just trying to relinquish her fears  
Vicky knew the stories were true just as  
she knew she had heard their wailing on  
this cold October night and it wasn't the  
wind because the night air was calm and  
still, yes she knew it had to be the restless  
spirits of those poor, poor widows that still  
haunt the high ledge and rocky ocean  
below WIDOW'S HILL!

## Don?t Make Me Use Voodoo on You!

Well you better treat me good or I will  
throw out an ancient Voodoo spell on you  
dead men tell no tells especially when  
at the bottom of a black water bayou  
so you better treat me good, I'm a telling  
you if you don't want to end up as  
Alligator food and if you don't want me  
to cast any Voodoo, hoodoo on you...  
'Cuz this past year the bond I thought  
we had is wearing paper thin and my  
patience is wearing thin, typical Leo  
you say you know me better than I know  
myself well you better think again  
I'm nobody's fool so I'm warning you  
I'm warning you...  
you better treat me good or I will  
throw out an ancient Voodoo spell on you  
dead men tell no tells especially when  
at the bottom of a black water bayou  
so you better treat me good, I'm a telling  
you if you don't want to end up as  
Alligator food and if you don't want me  
to cast any Voodoo, hoodoo on you...  
You're lucky I haven't hurt you already  
I guess I'm just a witch with a heart, can  
you imagine that, you say I'll do better  
please believe me, you bewitched me  
and it was love at first sight the first time  
I saw you in your dead tree garden, in the  
shadow of the moon's shadow sometime  
around the stroke of midnight and I haven't  
even casted a spell on you but still you  
say you are the one, the one I've been

looking for my whole life, even tho you know  
what I am you say I don't give a damn,well  
maybe I'll keep you around for another lunar  
cycle and we'll see if you can keep your  
promises in the dark but I'm warning you,  
I'm warning you, you better not break my heart  
I'm warning you, I'm warning you...  
you better treat me good or I will  
throw out an ancient Voodoo spell on you  
dead men tell no tells especially when  
at the bottom of a black water bayou  
so you better treat me good, I'm a telling  
you if you don't want to end up as  
Alligator food and if you don't want me  
to cast any Voodoo, hoodoo on you...  
Don't make me use my voodoo, hoodoo on  
you!

## Gaia's Paradox

Metallic spacecraft's cloud the sky  
Griffin's, Dragon's and Fairies'  
spread their wings and fly  
Mermaid's come on the back of  
Dolphin's singing their sacred song  
of Precedent  
Well I wouldn't of believed it either  
if I hadn't of seen it with my own  
two eye's like many different peril  
dimensions intertwining with ours  
at the same time breathing deep  
the spirit of yours and mine!  
I've always heard nothing is  
impossible and this just goes to  
show as the Mountain's crumble into  
the Sea's and now there are Lake's  
where Desert's used be hot and cold  
and Desert's where the Lake's used  
to run and flow  
It's just Gaia in a strange kind of  
Paradox  
Did someone really mean to open  
Pandora's Box?  
'Cuz now Night is Day, Day is Night  
it's hard to believe this is happening  
but it's happening alright  
The ghost of Atlantis rising again  
just like the Phoenix come back to  
life, Vampire's, Werewolves and the  
Dead walking among the living in  
plain sight!  
Well I wouldn't of believed it either  
if I hadn't of seen it with my own two

eye's all we can do now is just survive!  
as the Mountain's crumble into  
the Sea's and now there are Lake's  
where Desert's used be hot and cold  
and Desert's where the Lake's used  
to run and flow  
It's just Gaia in a strange kind of  
Paradox  
Did someone really mean to open  
Pandora's Box?  
Gaia (guy-ya)  
is the spirit of Mother Earth  
she is the giver of dreams and  
the nourisher of plants and  
young children.

## Tonight's the Night

Looking into your icy blue eyes  
has me beside myself and  
heart over mind, you sweep me  
off my feet every time we meet  
and your voice just makes wanna  
melt like butter, my heart is all a  
flutter...

You could be trouble for me if  
you keep leading me on, someone's  
gonna end up taking somebody  
home and getting it on...

It can't be wrong when it feels so right  
and whatever you're into I'm sure I can  
get into that maybe twice...

Feeling the heat in me, feeling the heat  
in you, touching me, touching you oh yeah  
well doesn't that feel good...

How can it be wrong when it feels so right  
TONIGHT'S THE NIGHT we can make our fantasies  
come to life, TONIGHT'S THE NIGHT yeah oh yeah  
TONIGHT'S THE NIGHT!

## Craig de Num

Dog Soldiers of the secret Scottish regimen  
Go in op of your creatures that lurk in  
The shadows I know you've found more  
Monsters than the world knows and the  
Labyrinth of your coven remains legend  
Since many hundred years ago and the  
Rumor goes your lair has many bottomless  
Pits of where dragons, werewolves and  
Selchies dwell within the gates of hell...  
Well so I've heard and it's been told in the  
Scroll and if any Dog Soldier breaks his oath  
Of silence he'll find himself food for the  
Wild and savage ones I used to think it's  
Was folklore until I myself became joined  
The brotherhood well what have I done  
I thought it would be all in the name of fun  
Somehow they found out I was an English spy  
For Queen Victoria, somebody will be swinging  
By a tree tonight in Craig de Num but I'm not afraid  
For her royal highness and England so go ahead and  
Kill me but you'll only be diggin' your own graves  
In case of my death the British army has orders to move  
In and invade your secret society of dog soldiers and  
Ancient Scottish regimen!

## Give Credit Where Credit is Due

We'll have you ever wondered why they  
give Columbus the credit for finding  
North America when he never set a foot  
on the promise land, no it was the Vikings  
that came here first and we have proof  
after finding their settlements we now  
know it pre-dates any other civilization  
except the Indians known to man...  
So I think it's time to re-write the history  
books 'cuz  
Shouldn't we GIVE CREDIT WHERE  
CREDIT IS DUE, don't you know not  
everything you hear or read is true  
it might be what some people want you  
to believe but don't be a fool, seek, research  
and find the truth, no don't be a fool and  
GIVE CREDIT WHERE CREDIT IS DUE  
Columbus day should be changed to  
Viking day now wouldn't you say...  
Why do we permit our children to be  
lied to in school especially when we  
know it's not true...?  
I think it's time we GAVE CREDIT  
WHERE CREDIT IS DUE...  
Now let's GIVE CREDIT WHERE  
CREDIT IS DUE!

## Don?t Tell Me What I Cannot Do

DON'T TELL ME WHAT I CANNOT DO

I'll do what I want to just to show you  
even if it is to spite you, I'm not a child  
anymore in jr. high school, I know I might  
be too old to know better but I'm still too  
young to care so I'm warning you...

DO NOT TELL ME WHAT I CAN NOT DO...

Well I know I can be stubborn and when  
I get something in my head, I'll find a way  
or bust hell wide open, whether or not it  
means walking a real fine line, it's my life  
it's my life and if you were minding yours  
you wouldn't be minding mine...

I know I might be too old to know better  
but still too young to care and nobody will  
tell me what I cannot do no, not even you

DON'T TELL ME, DON'T TELL ME WHAT  
I CAN NOT DO or I will do it just to spite  
you, I will do whatever I want to do...

Well and you can just go get screwed!

## Garden Of Love

Well and your love is like a warm summers rain to my soul  
making the amaranths of hope and dreams grow.  
Oh and the emotion is as colorful as a neon rainbow  
my love for you is not a secret anymore. It's like a  
butterfly that pleases where ever it goes!  
Oh and the fountains of true blessings run deep  
Winter, Spring, Summer and Fall in this Garden  
without gates or walls. It's almost like a dream except  
it is real and it is just exactly as love should feel!  
Well this Garden Of Love must be a place created  
by none other than God up above!  
The dream was the seed before you came along and  
watered it just enough with your sweet magic touch  
now it is a beautiful, beautiful sacred  
Garden Of Love!

## The Year I Was Born

THE YEAR I WAS BORN

we were still fighting the  
Vietnam war, Nixon was all  
caught up in the drama  
of Watergate then forced  
to resign by summertime  
handing his key to the  
White House over to vice  
president Ford, 38th  
president of the United  
States...

THE YEAR I WAS BORN

the chart topping songs  
were Band On The Run,  
Cat's In The Cradle and  
You're Sixteen...

A Love story and The  
Godfather Pt. 2 were the  
two biggest movies on  
the silver screen...

THE YEAR I WAS BORN

a gallon of gas was only 50  
something cents and it was  
only \$25 to \$35 dollars for  
a month's rent...

THE YEAR I WAS BORN

love was in the air despite the  
war still going on in Vietnam,  
we just started putting smiley  
faces on everything, everywhere  
in 1974 we had joy, we had fun, we  
had season in the sun...

THE YEAR I WAS BORN...

THE YEAR I WAS BORN!

## From My Heart to Yours

Although we are an Ocean apart  
you are deep in my heart  
I think about you every day  
and dream about you every night  
in this mansion that overlooks  
the Lakelands can sometimes be  
a lonely place but knowing you  
will be in my arms this weekend  
brings a smile to my face!

From My Heart to Yours  
my love for you is stronger than  
ever it was before...  
wondering if you love me isn't even  
the million dollar question anymore  
no, so From My Heart To Yours  
here's sending you my love now  
where ever you are From My Heart  
From My Heart To Yours!

Yes I used to be quite impatient in  
my youth but now that I am a little  
older I believe there is truth in what  
they say...when they say all good  
things are worth waiting for.

Time gives and time takes away but  
God willing if we can't be together  
this Valentines then I'm sure we'll  
more than make up for it this coming  
Saturday! What's a few more days  
when I know I am yours and you are  
mine!

...And my darling I love you more  
than words can say so here's hoping  
that where ever you are you are having

a happy Valentine's day, From My Heart  
From My Heart To Yours...  
sending my love your way!

## Dragons from Mars

In the catacombs of Ares there's  
an ancient liar of Dragons on the  
dark side of Mars, savage and  
giant creatures with enormous  
and powerful wings and with the  
beating of their wings cause  
great sand storms, blocking out  
all light from the Martian moons  
and all the stars...

Well these cold blooded reptiles  
drink from the magma flow that  
pours out of the Olympus Mounts  
volcano, where the queen turns out  
another hundred or so, as the elders  
take off flying high in a pinkish-red  
Martian sky, terrorizing the Marinerian  
aliens everybody thought had died  
and everybody says Mars is a dead  
planet but that's what they want you  
to think, it's Nasa's best kept secret  
by far and these Dragons, DRAGON'S  
FROM MARS...

In the shadow of Phobos and Deimos  
and Jupiter on the rise...  
across the catacombs and canyons of  
Ares and Olympus Mons...  
It's like something from a sci-fi movie but  
it is very real, as real as aliens are...  
these DRAGONS, DRAGON'S FROM  
MARS...

You ask me well how you know...  
I am a Martian that came to earth a  
thousand years ago...

## Gulf of Mexico

Walking the white, white sand  
and watching the sunset makes  
me feel so sad that you're not  
here with me to share what  
all the other lovers are sharing  
intimately well it leaves me  
feeling crazy over lonely in  
the breeze of the sea...

Somewhere down on THE  
GULF OF MEXICO, seems as  
tho everybody but me has  
someone's hand to hold  
young and old oh how I  
miss you tonight walking  
THE GULF OF MEXICO...

Well there's no doubt this  
is paradise but it might as  
well be Siberia without you  
oh don't you know I'm as  
blue as the ocean in the  
full moons shadow, I can't  
stop the tears no more than  
I can turn the tide crashing  
down on THE GULF OF  
MEXICO...

So I contemplate ending  
it all in the dark, dark waters of  
raging in front of me with so  
much intensity, almost like the  
passion you once felt for me...

Well I am crazy over lonely in  
the breeze of the sea oh how  
easy it would be to surrender

myself body and soul to the dark,  
dark waters off THE GULF OF  
MEXICO!

## I Know Somebody Hurt You (But It Wasn't Me)

Well and I can tell just by looking into your eyes  
your heart has been broken many times but if  
you could just make yourself believe in love again  
I could prove to you my love knows no end, I could  
be forever yours and you could be forever mine...

I KNOW SOMEBODY HURT YOU BUT IT  
WASN'T ME no, so come here and let me hold you  
let me love your pain away baby don't be  
scared to put your trust in me, I know exactly  
what you need...a little TLC, a little sympathy  
a little romance honey, don't give up on love so  
easy, I KNOW SOMEBODY HURT YOU BUT  
IT SURE WASN'T ME...

So put the past behind you now and you'll  
be glad you did when you discover I can be  
your best friend and your dream lover if you could  
only surrender, surrender to me somehow  
surrender to me now 'cuz...

I KNOW SOMEBODY HURT YOU BUT IT  
WASN'T ME no, so come here and let me hold you  
let me love your pain away baby don't be  
scared to put your trust in me, I know exactly  
what you need...a little TLC, a little sympathy  
a little romance honey, don't give up on love so  
easy, I KNOW SOMEBODY HURT YOU BUT  
IT WASN'T ME, IT SURE WASN'T ME!

## Desert Twilight

Well and it's once in a lifetime reinvention  
magic kinda like a secret superstition  
miracle of a the souls great salvation  
love found me just in time, the kind I  
thought I'd never find the kind that only  
happens once in a lifetime  
Now there's no question it's all clear  
somehow in the way your eyes' in the  
moonlight say what you can't seem to  
say, the way you reach out to touch my  
face and hold me tight sleepless but  
who wants to miss out on this kind of bliss  
to be with you is like being in Heaven  
every night in the cool, cool Desert night  
holding you, holding me tight in the  
Desert Twilight  
If this wasn't real I'd swear it was just  
a dream but lying here in your arms  
I know this is not a dream I have the  
feeling now this is a great and wonderful  
new beginning once in a lifetime kinda  
thing  
Now there's no question it's all clear  
somehow in the way your eyes' in the  
moonlight say what you can't seem to  
say, the way you reach out to touch my  
face and hold me tight sleepless but  
who wants to miss out on this kind of bliss  
to be with you is like being in Heaven  
every night in the cool, cool Desert night  
holding you, holding me tight in the  
Desert Twilight

## New Master Magician

From out of a blue mist comes magic  
the voice of a meadow lark, a song  
straight from the heart...  
well it is magic beyond belief like  
something out of a dream like nothing  
you've ever heard or seen and I still  
don't believe my eyes, how the heck  
did he make that rose come alive,  
how did he make that 600 pound  
tiger disappear from the cage it was  
in, how in the world did he walk through  
that looking glass, wearing a mask  
like the phantom of the opera and  
come back through without a scratch  
on him, well it's a mystery to me but  
he's got to be the NEW MASTER  
MAGICIAN of the 21st century...  
NEW MASTER MAGICIAN so  
amazing and so very mystifying to  
see and you gotta see the DARREN  
ROMEO Show, it's magic beyond belief  
like something out of a dream, like  
nothing you've never heard or seen oh  
the enchanting DARREN ROMEO that  
can take you to the stars and set your  
spirit free, well it's still a mystery, a  
mystery to me but he's got to be the  
NEW MASTER MAGICIAN of the 21st  
century, NEW MASTER MAGICIAN,  
a hypnotizing, a mesmerizing  
NEW MASTER MAGICIAN!

## Starcatcher

Well and you say I am one of a kind  
it's you that legends are made of

a miracle somehow sometimes life  
is stranger than fiction well and here  
I go again fallen in love faster than  
a shooting star from the Heaven's  
above

Starcatcher your arms now have me  
cradled like a baby it must of been  
fate how I ever came to land safely  
in your hands and did not slip through  
your fingers like tiny grains of sand  
divine intervention or a spell like creation  
well I am yours forever now, I am yours  
forever Starcatcher

Now I'm gonna sing you my love song  
and bring you some light gonna stay  
always close to your heart every day and  
every night it cannot be forbidden now  
if it takes a miracle somehow without  
logic or question but just the spirit of  
love like a shooting star down from the  
Heaven's above oh

Starcatcher your arms now have me  
cradled like a baby it must of been  
fate how I ever came to land safely  
in your hands and did not slip through  
your fingers like tiny grains of sand  
divine intervention or a spell like creation  
well I am yours forever now, I am yours

forever Starcatcher  
Don't let the magic die...  
keep the light alive...  
keep the fire inside...  
I am yours forever...  
Starcatcher, Starcatcher!

## Unique

From the color of your eyes to the sound of your voice  
There's no one in this world exactly like you, no, oh no  
It's in the way you smile, it's in the things you do and  
It's in the things you say well you are Unique in every  
Way

You are Unique from your head to your feet, inside and  
Out, you are beautiful without a doubt, heart and soul  
Just like a star in the sky or a winter rose not one is the  
Same for sure yes you are Unique from out of the bosom  
Of the Lord

From the dreams you dream to the way you treat  
Others the way you'd want to be treated yourself well  
It's in the way you laugh, it's in the way you feel love  
In your heart like a fire that never will die well you are  
Unique unlike anyone dead or alive

You are Unique from your head to your feet, inside and  
Out, you are beautiful without a doubt, heart and soul  
Just like a star in the sky or a winter rose not one is the  
Same for sure yes you are Unique from out of the bosom  
Of the Lord

You are a light in the dark...  
A willow in a strong, strong wind...  
A perfect example of Heaven within...  
Well you are who you are and you  
Are Unique, you are Unique!

## Heaven Forbid

Well he's my friend and I'd never  
Do anything to betray him but  
The things you say and do when  
We're alone I get the feeling you're  
Just using him to get to me...  
Well HEAVEN FORBID I'm wrong  
But my intuition is usually right  
On the money...so what can I do?  
I can't go accusing you of being  
Unfaithful just because you're  
Eyes seem to say let's get down  
And dirty, I wanna try you on  
For size...I try to turn away but  
You put your arms around me  
And whisper into my ear damn  
Baby you're so hot, I bet you're  
Packin' give me what you got  
It's tempting I must say but I have  
More respect for my buddy  
Than to go there and I swear  
If you're just using him to  
Get to me well I've got news  
For you I won't betray him...  
HEAVEN FORBID I'm wrong  
'Cuz he's so crazy about you  
Maybe you're just a tease  
And you wouldn't be unfaithful  
To him but if you're just using  
Him to get to me then I hope he  
Sees through you before he  
Gets his heart broken...well  
HEAVEN FORBID I'm wrong  
But my intuition is usually

Right on, right on the money  
And if I was someone else you'd  
Probably let me spank that monkey  
Still HEAVEN FORBID I'm  
Wrong, HEAVEN FORBID I'm  
Wrong!

## I?m a Survivor

Why do some people wanna make  
your life a living hell, is it because  
they're not happy with their own lives  
well as far as I'm concerned they  
can go to the Devil 'cuz...?

If you don't like me then that's  
just too bad, I'm not gonna bend over  
and kiss anybody's ass to make  
them like me...

no so just go on and throw your bitch  
fit, I don't care if you do or if you don't  
get over it, I will not suffer your misery  
I will not let your negative energy rub  
off on me, no matter how hard you try  
to make me angry I will not stoop to  
your level of immaturity...

It's a mystery to me why some people  
wanna make other people's lives a living  
hell, I guess it's just because they're not  
happy with their own lives, well I will not  
suffer their misery or be a part of anybody's  
pity party, 'cuz when something knocks me  
down I get right back up and try again, like  
a willow I will bend until I get what I want  
in the end, maybe it's just the way I was  
raised and a matter of pride but I'M A  
SURVIVOR, I'M A SURVIVOR...

I will survive!

## Anthony

Well and the Anthony I knew  
was a scared and lost little boy  
confused about life and sought  
sanctuary by drinking himself out  
of reality...well I thought I could  
save him but he only ended up  
using me so I had to just throw  
my arms up and walk away, years  
ago saying Anthony, I hope in time  
you'll find something in life that'll  
make you happy, look me up when  
you grow up...maybe I should of  
stuck around instead of disappearing  
like a ghost in the night 'cuz now  
I wonder what ever happened to you  
and if you ever learned to love yourself  
in this stage of your life, I wonder if  
you ever stopped drinking and if you  
ever opened up your heart to someone  
that makes you feel complete...well  
don't you know I hope so, cuz I'll never  
forget that sad and lost little boy you  
used to be, I pray you're the man now  
God meant for you to be...well I wonder  
I wonder what ever happened to  
Anthony!

## The Return of a Lost Lover

Same dream, different night  
a sense of De Ja Vu takes  
me back to another life...  
my heart beats fast like  
angel wings, as you come  
in out of the shadows I begin  
to remember everything...  
Irish green eyes radiating like  
an glowing Amber, your eyes  
say more than words could  
ever say as you look deep  
into mine the memories like  
a jigsaw puzzle come together  
a masterpiece of eternal love  
well it's so intense like a night  
storm come looming up above  
Lightning flashed behind you  
and all around me. Thunder  
shook the leaves off the trees  
as your long blonde hair swept  
back and forth like a willow in  
the wind you took my hand in  
your hand and what was is again  
you kissed me and it was genesis  
all over again. Lightning and thunder  
the RETURN OF A LOST LOVER...  
RETURN OF A LOST LOVER!

## Destiny

Well I remember I was such a shy guy  
when you came into my life but I swore to  
myself I'd never fall in love with you  
but you kept at me calling me day and  
night wondering if I was still coming over  
to spend the night and no matter how hard  
I tried to resist you we just couldn't keep  
our hands off each other and everywhere  
we went we were always together...  
everybody knew you were falling head over  
heels for me, everybody knew I had you  
wrapped around my little finger but we  
didn't care what everybody thought about  
us we were just too crazy in love...you'd look  
deep into my eyes as if you could see into  
my very soul I'd blush feeling a rush like  
the winds off a hurricane then you'd smile  
at me and I could hear Angels sing...  
everybody knew 'cuz nobody could be so  
blind to see still I needed you and you  
needed me I guess it was written in the stars  
I guess it was our Destiny well I swore I'd  
never fall in love with you but what's meant  
to be is meant to be and it surely had to be our  
Destiny!

## Spirit Guide

SPIRIT GUIDE if you are near me, I pray you will show me the way.

SPIRIT GUIDE if you can hear me give me a sign today!

I wanna breathe your breath of wisdom deep into my soul.

Touch me with your perfect healing hands. So I may be whole again.

Take my hand and lead me back to the ancient places where I come from. Help me to understand my connection to the great one!

Is it through the eyes of the eagle, the bear or the wild cat?

Give me strength to face the past and prosper in the things I lack.

If only through my dreams reveal to me the things my heart is missing.

Put me on the path to true love. If it is written in the stars above.

Well it is all I dream of!

Oh SPIRIT GUIDE if you are near me I pray you will show me the way. SPIRIT GUIDE if you can hear me give me a sign today!

SPIRIT GUIDE I am trying to be brave but the truth is I am so afraid so SPIRIT GUIDE come, come and lead the way!

## Knowledge Is Power (Listen to Your Intuition)

Knowledge Is Power so listen to your intuition,  
it is the voices of the Angels so make yourself  
familiar with them, they hold the key to your  
destiny and the light within, to deny them is to  
deny yourself great and marvelous things indeed,  
don't you know they can perform miracles and  
make dreams come true well and all you have to  
do is to believe wholeheartedly!

The veil can be lifted and then you will see  
things in a different light, don't you know they  
are just tiny breath away just waiting to answer  
the prayers you've yet to pray...

Well what do ya got to loose, open your heart  
and let them through now listen to your  
intuition it is the voices of the Angels!

## Orbs

Multi-colored Orbs before my eyes...  
what's going on here, are my eyes just  
playing tricks on me...well I rub my eyes  
but they do not disappear I wonder if it's  
spirits in despair or the guardians of mine  
trying to tell me have no fear still I wonder  
if it could be him or her or something dark  
and sinister I wish I could somehow  
pierce the veil and see for myself whatever  
it is but it never has tried to hurt me these  
Orbs that consume my room quite frequently  
these Orbs that spin and bounce off the  
walls...you might think I'm crazy but I dare  
you to spend one night here then you  
won't doubt me at all 'cuz it's just as much  
as an enigma to me these Orbs, These Orbs  
of great mystery!

## Sorcerer

Well and I can see you clearly in my astro  
sleep state my third eye is wide awake so  
you better tread carefully and save your desire  
for me only or I will turn you into a worthless  
cornsnake 'cuz one way or another it's us  
forever...a submissive slave or a perpetual  
lover you can't break the spell I have you  
under and my every command will be your  
will be your every determination with the  
slightest wave of my hand...so I'm warning  
you while you are out and about tonight  
you better watch yourself 'cuz I'm watching  
you and even though your star shines so  
bright I hold the keys to your destiny and  
you will be mine forever...never underestimate  
the power of the Sorcerer...I hold the keys to  
your destiny...so mote it be!

## Blue Moon Tavern

Well good evening and welcome...

to the BLUE MOON TAVERN

what in the world are you doing

out on this dreadful stormy night

here sit by the fire while I bring

you somethin' strong to drink...

I usually don't take in strangers

but I have a room upstairs if you'd

like to stay here tonight...

he said thank you but I wouldn't

want to intrude, I said nonsense

I could use the company to tell

you the truth, pouring myself

a strong drink, he said you're

too kind, for all you know I could

be a mass murderer, a demon in

disguise, sitting down next to him

I said well I guess I'd be shit out

of luck huh but I can sense these

things and you don't give off that

vibe...

We sat there talking for hours and

hours, drinking ourselves higher than

kites, we laughed and laughed 'til

we cried then he got really quiet and

looked at me with these cold dark

piercing eyes, he said thank you for

your hospitality but I guess you were

wrong about me, I've been watching

you and I came here with the intentions

of killing you tonight and before I could

utter a word, I felt the cold hard steel

of his knife quickly thrust deep into

my heart and the smile on his face was  
the last thing I saw before everything  
went dark!

## Martha Berry

Pretty and privileged young lady of Rome...  
Rome Georgia that is didn't see the world  
through her rich father's eyes, no she  
saw poor mountain folk struggling to  
survive and barely getting by when she  
could have anything she wanted and  
the best education money can buy  
but that only made her feel selfish, sad  
and bad...many times her father  
would ask her what's the matter darlin'  
you can't hide from me the tears  
you've cried she said oh father you've  
given me some of the best tutors in  
the world now I've been thinking I'd  
like to share some of that knowledge  
with our local and less fortunate  
children of the hard pressed farmers  
well he gave her his blessings and in  
her big play house she began  
teaching a hand few of boys and girls  
she knew but soon more came and  
she needed more room so her father  
built her a bigger school house but  
yet again they needed an even bigger  
one and on and on MARTHA BERRY  
dedicated the rest of her life educating  
those less fortunate never asking for  
a cent from anyone and now Berry  
College remains the legacy, the legacy  
of MARTHA BERRY!

## Out of My Mind

Well I came to know you just a week or so ago  
And you seemed different than the others but  
After you got what you wanted you didn't want  
Me anymore, I should of known you were just  
Another player...

And I must of been OUT OF MY MIND just  
Like the last time...I search for love but  
Heartbreak is all I ever seem to find well I  
Should of seen the signs but a fool is blind  
And I must of been OUT OF MY MIND...

Well and I've been down this road before  
You'd think I wouldn't be as trusting and  
Keep repeating the same mistake but  
When you're lonely you're destined to  
Give in to what you want to hear, again  
And again even tho you know you're  
In for nothing but a broken heart, tears  
In the dark...well I've been down this  
Road before, when will I ever learn  
You play with fire you're bound to get  
Burned but I just help myself thinking  
This time it's for sure...

I must of been OUT OF MY MIND just  
Like all those other times yeah I should  
Seen all the signs but a fool for love  
Is blind and I must of been crazy, crazy  
OUT OF MY MIND!

## Down at The Station

Waiting Down at The Station to catch the 2:05  
I thought I heard your voice calling out my name  
but I guess it was just the chatter of the crowd or  
the noise inside my brain, my tears begin to fall  
just like the Minneapolis rain as I climb up onto  
the train.

Well I take a seat next to a window half hoping  
you'll step in out of the shadows before the train  
pulls out of the station and beg me not to go but  
I know leaving you was the right thing to do I  
just wish I could convince my heart but that's  
something I can't seem to do.

I whisper to goodbye as the train begins to pull  
out of the station then again I hear my name, I tell  
myself get a hold of yourself but something made  
me look up and there you were to my surprise!  
You reached out and kissed me taking the seat  
next by my side, saying, "I'm sorry baby, please  
don't leave me but if you want me to leave you  
alone I will but since were already here why don't  
we take that second honeymoon we've been talking  
about" I just smiled and again the tears began to  
fall as the train leaves the station I think maybe,  
just maybe you really do love me after all!

## And Another Thing...

Well and you can't believe in superstition  
and believe in destiny  
what's meant to be is meant to be and you  
can't jinx yourself just by revealing your  
dreams no, nor can you curse yourself 'cuz  
curses don't exist for one thing And For  
Another Thing...

Pretty is as pretty does don't you know  
it's what's inside that matters most and  
what matters most is love and faith in  
our Lord above so if your down on  
yourself now have heart and cheer up!

We all have our troubles but a smile can be  
a beacon of light to someone in their darkness  
and a broken spirit in need...

tenderness and kindness is the message of the  
Angels straight from God to us above all  
things And Another Thing...

They say we have free will and that's true to  
a certain extent but God has a certain plan for  
you and me don't you know everything happens  
for a reason just like rain to the river and the  
rivers to the sea many paths are taken but the  
past is the past and there's no sense in looking  
back now just make the best of today and do unto  
others as you would want done unto you that  
begins the miracle to all things And For Another  
Thing...

Love is the message of The Angels straight  
from God to every one of us...

## Over You

Now That I'm Over You I can move on with my life  
and do all the things I didn't do because all my  
time was consumed sitting around waiting to hear  
from you...yeah now that it's over I'm glad and I can  
breath again, I can spend more time with my friends  
well I thought you'd be the death of me but I survived  
there's only so many tears you can cry until there's  
nothing but a numb and barren heart inside but  
Now That I'm finally Over You at last I can put  
yesterday once and for all in the past...I guess some  
dreams aren't just meant to be but you live and  
learn it's tho it goes from burning to burned but  
still life goes on and Now That I'm Over You I'm glad  
I'm relieved it's over and it's all but dead and gone!

## Turning the Page

Well and in my great big book of life their have  
been many, many chapters full of romance  
heartbreak and secrets I'd never wanna come out  
and the death of loved ones that'll always pain me  
but Turning the Page once more again today it  
seems I've learned yet another thing I did not know  
yesterday, some good, some bad but I write them all  
down anyways 'cuz my life has been quite a journey  
I must say and so I turn yet another page in my  
journal I keep under lock and key from prying eyes  
maybe when I'm dead and long gone they can make  
a movie out of my diary but until then my deepest  
thoughts and feelings remain my own through the  
bad and sad, through the happy and sad...yes my life  
has been quite a journey and yet again I have learned  
another thing I did not know yesterday and so again  
I go turning another page, Turning the Page!

## Book of Love

Well and here I go again  
opening up our book of love  
to when I was yours and you  
were mine and I still shed a tear  
reliving all those sweet summer  
nights knowing they'll never  
come again...how did our love  
die when our love was something  
we never could hide I was so sure  
it would stand the test of time but  
now you're just a precious memory  
locked away forever in my heart  
just like a rose pressed between  
the pages of us and our great big  
Book of Love...well I get a bitter  
sweet feeling remembering all our  
ups and downs we had as I go  
traveling down memory lane again  
it makes me smile sometimes, sometimes  
it, makes me sad but then I try to put  
you out of my mind and back upon  
the book shelf but it isn't long 'til I  
take it down again and again it's  
almost as if you're really here I swear  
you'll always hold a special place in  
my heart just like the rose pressed  
between the pages of us in our book  
our great big Book of Love!

## Darren Romeo

DARREN ROMEO is not your typical magician  
there is magic in his voice, there is music in  
his magic kinda like Las Vegas meets Broadway  
and everywhere he goes he steals the show  
probably 'cuz of his magnanimous spirit and heart  
of gold, no he's not any different on or off stage...

DARREN ROMEO is living proof dreams really  
do come true but that's only because he kept the  
faith alive, deep down inside then all the right doors  
started opening up for him like he was given some  
kinda magic key but really it was just his own  
souls destiny and after all he's been through he's  
still one really cool ass dude and DARREN ROMEO  
is living proof dreams really do come true...

Well and now DARREN ROMEO is the new master  
magician, there is magic in his voice, there is music  
in his magic kinda like Las Vegas meets Broadway  
and everywhere he goes he steals the show maybe  
because of his magnanimous spirit and his heart of gold  
well he is as rare as a snow covered winter rose oh  
DARREN ROMEO...

DARREN ROMEO...

## A Real Life Loving Fairy Tale

Well I guess I'm just one in a million few  
that still believes in love and the dream  
of dreams come true when you wish  
upon a lucky star up above...

Well and I wonder why some people  
give up on love without giving it a second  
chance, maybe they're still hurting and  
broken hearted from a love that never  
stood a chance and although I too  
have been played the fool I just can't  
bring myself to give up on love and  
true romance...

A REAL LIFE LOVING FAIRY TALE  
the kind that lifts you up to Heaven  
from out of the bowels of Hell, the kind  
that comes along only once in a lifetime  
well and my intuition tells me you're  
just a heartbeat away from finding me  
sitting here by this old wishing well  
dreaming of A REAL LIFE LOVING  
FAIRY TALE and happily ever after  
just you and I, running hand in hand  
through meadows of wild flowers and  
butterflies, underneath a big and beautiful  
rainbow in the summer sky well I close  
my eyes and that gives me hope that  
there's someone for everyone, A REAL  
LIFE LOVING FAIRY TALE and all will  
be well that ends well...

so I'll wait forever or until you come true  
can't you hear me singing your song all  
the day and night time too, my heart a  
calling out to you...

sitting here by this old wishing well and  
dreaming of A REAL LIFE LOVING FAIRY  
TALE...

we will be happily ever after just you and  
me...

living the dream, A REAL LIFE LOVING  
FAIRY TALE...

oh I know someday you will come true  
and we will live together forever in A REAL  
LIFE LOVING FAIRY TALE...

all's well that ends well, happily ever after  
and ours will be a story to tell of A REAL,  
A REAL LIFE LOVING FAIRY TALE!

## Love of My Life

Well we had ten good years together  
but even if we just had one you  
left a special place in my heart  
that'll last forever even as new  
loves come and go I know  
I will love you still...just  
thinking about you feels  
just yesterday to me and  
it probably always will...  
remembering how you used  
to hold me tight has gotten  
me through some very sad  
and lonely nights well I can  
still see your face frozen  
in my mind and those eyes  
that seemed to see straight  
through this soul of mine...  
I know looks aren't everything  
but oh my goodness you  
were some kind of Greek  
God...it's been a long  
time now since you disappeared  
from my life but you're still  
in my dreams every night  
and I swear you'll always,  
always be the Love Of My  
Life!

## Forever and a Day

Well and there is a lover's moon  
up in a starry sky tonight and my love  
for you is something I cannot hide  
so I turn to you and kiss you tenderly  
on your soft lips up on the banks of  
the Tennessee river so deep and wide  
just like my love for you but deeper  
still is the passion you make me feel...  
Oh yeah and it is eternal, two hearts  
one soul, in the twilight's glow I know  
I know and tomorrow I will love you  
more than yesterday, my love rest  
assured my love is here to stay, now  
and always, FOREVER AND A DAY...  
Well and I swear by the stars above  
I will never do you wrong, I'd rather die  
to ever see you cry and no that's not  
a lie, you are my Angel, my Heaven  
one in paradise so believe me when  
I say I'll love you more and more today  
than yesterday, even more tomorrow  
than today, rest assured my love is yours  
now, now and always...  
FOREVER, FOREVER AND A DAY!

## Playing With Fire

When I first met you I thought you were cute  
but after that I didn't think too much about it  
'til you started coming around asking me out  
and texting me everyday, I thought hmm well  
ok why not we can go out for dinner and let  
that be that but you were so charming and  
sweet you swept me off my feet in a big, big  
way, one thing led to another and then of  
course we ended up lovers, the best of friends  
and the best of lovers even in public places  
I would never had considered with any other  
but I have to admit getting caught in the act  
was an exhilarating feeling I had never  
experienced before now I can't count how  
many times we've gone at it, today alone and  
you still want more...

Now we find ourselves on a grey hound, thinking  
we it was just the two of us, little did we know  
a sexy blonde was getting into our little act  
you asked me do you care if they join in, I said  
THIS IS PLAYING WITH FIRE but what the Hell  
you've already unleashed a beast in me like a  
starving tiger burning with desire, so what the Hell  
you Devil you but you're so good even if playing  
with you is like PLAYING WITH FIRE...  
yeah it's like PLAYING WITH FIRE...FIRE!

## These New Strange Times

All the things I never said before  
really doesn't matter much anymore  
the world is changing me like never  
before like a ghost in the thick of  
fog...well truth is stranger than  
fiction just like a fire burning  
somewhere out to sea...it seems  
the world is going crazy and it's  
trying to do the same thing to me...

THESE NEW STRANGE TIMES  
there's no peace of mind, we're  
more stressed out and impatient  
than ever before, we're more like  
robots than human beings and  
I for one can't take it anymore in  
THESE NEW STRANGE TIMES  
there's just no rhyme or reason...

Well and if I could I would run  
for cover but if I disappeared on  
you I'm afraid you'd never  
survive so I stay and I lie and  
I cry...it's crazy 'cuz I know  
I'll never get out of your love  
alive but oh well what the hell  
we'll all be dead in twenty-  
twelve and it's coming up on us  
like a tiger on the run in  
THESE NEW STRANGE,  
STRANGE TIMES!

## This Season

Well and maybe This Season  
A dream or two may come true  
And peace of mind will follow...  
This heart of mine that's been  
Broken for so long may finally  
Forget you and be as new, as  
Good as new oh yeah This  
Season maybe I can put the  
Past behind me...keeping  
Faith over fear and God will  
Make the one path crystal  
Clear well I have to believe  
My soul will be delivered, delivered  
Like a phoenix rising out of  
Many dark years...if it takes  
A miracle, a new cause, a new  
Reason for being well maybe  
A dream or two will come true  
This Season, This Season!

## A Million and One Hearts

Well and at least A Million and One Hearts  
wants the hurting to stop and the loneliness  
to end but right now somewhere somebody  
just got their heart broken again...in these  
new strange times it's more about looks than  
what's within and all around the world you  
can feel the misery of it in the wind it makes  
the sound like thunder but gives no helping  
hand oh don't you know love is the dream of  
the Angels for every woman and man but  
love through the ages has become like tiny  
grains of sand slipping through our hands  
and there is no light in the dark everyday  
and every night for A Million and One  
Hearts that'd give anything to find a love  
that'll last to the end of their lives!

## Neptune

Spiritual regeneration and universal intelligence  
Neptune in the 9th hour invokes lucid dreams  
and third eye visions of intuitiveness oh  
Lapis Lazuli in the shadow of a frosted moon  
I become omniscient like the great horned owl  
to Samhains' coming Ostara as the ebb and flow  
of sacred aqua return now from the Titus-Bode  
In this verve century of Emir and the pious  
bloodstone a new cognizant cycle begins  
signifying the great divine Eden once again  
so does sayeth Sanskrit and the winged prophet  
in the midst of indigo radiant and hallowed oh  
in the 9th hour of lucid dreams I become visionary  
just like Enoch in the shadow of the moon  
spiritual regeneration and universal intelligence  
of Neptune.

## Avalon

Well and as night turns into day  
I walk the three star path just like I  
did way back when, when Merlin  
was a young man in trainin'...  
a lot has changed since then but  
it's still paradise like it's always  
been where ancient magic still  
lingers like the sweet smell of  
Jasmine in the wind...well and to  
know the Lady of the Lake is to  
know the secret of the sisters of  
fate and Morgan Lefayes devious  
ways but the village men and  
women are safe from the dragons  
and the wraiths that dwell across  
the haunted marsh only the brave  
hearted Knights fight the good  
fight as the cliff dwellers sing the  
sacred song of Avalon...  
it's faith over fear and Edens own  
Phoenix...well and again I walk the  
three star path back to Avalon!

## In the Hour of the Northern Mockingbird

Cashmere, super playboy cologne and a little bit of gold and silver  
well I'm beginning to see everything in a whole new light  
this rainy Monday...

Yesterday was not my day but now I know everything's  
gonna be alright, everything's gonna be ok, even though  
it is dark and grey and the rain keeps pouring down  
I won't let it get me down...

I'm just way too busy entertaining a fantasy to let anything  
bother me **IN THE HOUR OF THE NORTHERN  
MOCKINGBIRD...**

Well and she called and asked me if I'd like to have some  
company, I said sure that's fine with me, then she said is it  
ok if I bring a friend, I said why not and no hon you're not  
putting me on the spot, the door is open so when you get  
here just come on in, come on in...

You walked in with her and it was love at first sight, yes and  
I fell head over heels in love with my best friend's new friend  
**IN THE HOUR OF THE NORTHERN MOCKINGBIRD...**

Instinctively I just knew at that very moment I had found  
the love of my life on that dark and grey, rainy Monday, you  
stole my heart, you stole my heart away **IN THE HOUR,  
IN THE HOUR OF THE NORTHERN MOCKINGBIRD...**

Now I see everything in a whole new light, it was love,  
love at first sight, **IN THE HOUR, IN THE HOUR OF THE  
NORTHERN MOCKINGBIRD!**

## My Heart Skips a Beat

Eyes of jade and hair like the golden sunshine  
a body like a work of art and a smile so sweet  
and kind...

Well MY HEART SKIPS A BEAT every time we  
come face to face, it's erogenous in Ephraim  
state of grace and it's so hard to catch my breath  
when you reach out to touch my face, I can hardly  
speak, every time we meet MY HEART SKIPS A  
BEAT, MYY HEART SKIPS A BEAT...

But your beauty is just the half of it, you've just  
got this special way of all the things you do and  
say...

And every time we come face to face, it's so hard  
for me to catch my breath, it's like another world  
another time and place, every time we come face  
to face, MY HEART SKIP, SKIPS A BEAT  
and I get so weak in the knees, every time you are  
near me whoa I just get so excited baby and  
MY HEART SKIPS A BEAT, yeahh it's so erogenous  
MY HEART SKIPS A BEAT, MY HEART SKIPS A  
BEAT every time, every time we meet!

## If You Could See Me Now

They say if somebody loves you once they will always love you...Well you loved me many moons ago now do you regret letting me go...aren't you the one that said you loved everything about me, you just couldn't get enough of me well I can still hear you saying but maybe you never did really love me either way life goes on with or without you anyhow oh but If You Could See Me Now you just wouldn't believe your eyes, you'd lay awake at night thinking of a way to get me back and ditching that other guy, you'd write me the sweetest love letters begging me to give you one more chance, you'd send me roses in hopes of me giving into the romance...'cuz like a fine wine I've only gotten better with time, I'm not trying to brag but I got 'em knocking down my door I've got 'em standing in line like never before so it's a shame you're nowhere to be found 'cuz If You Could See Me Now you'd really love me this time around If You Could See Me, If You Could See Me Now!

## Stronger

Hear the music beatin' Stronger  
Feel the brandy kickin' in Stronger  
See me gettin' hotter and a growin'  
Stronger  
Well and as the candles burn brighter  
the dream comes to light once more  
faces crystallize but I really don't know  
them anymore.

I draw on my wisdom and magic  
now, and let the heart go oh  
like a ghost in the fog dragging  
a long silver chain in the shadow  
of my shadow, I still love you so  
Well could it be this is my destiny  
could this be a secret set free?  
Hear the wind a blowin' Stronger  
Feel the heartbeat a beatin' Stronger  
See me growing older and gettin'  
Stronger!

## I Will Die For You!

Well and if you should come while I am asleep Lord  
I want you to know I never meant to fall off the band  
Wagon. If I have to live through the 7 year tribulation  
And Christian persecution, famine and war I will not  
Hide my light under a bushel no, I will stand up and  
Proclaim your name...Jesus Christ my Lord and I Will  
Die For You.

I will not take the mark of the beast  
Never, no not ever... Let 'em kill me if that's what it  
Comes down to I will do whatever I have to do to  
Prove my love for you and God even if it means  
Being a martyr!

If I'm left behind I want you to know  
I never meant to lose my way...Please forgive me Lord  
I pray!

If I have to live through the days of terror  
And evil I will be strong and steadfast, not giving  
Into the devils temptation and I will be a better  
Person than I ever was in the past, I will not fear any  
Kind of evil in the valley of terror!

If I have to live through the 7 year tribulation and countless  
Days of cold bloody wars. I will proclaim your sacred  
Name...Christ Jesus My Lord, I will, I Will Die For  
You!

## The Seven Sacred Truths

Well and this comes from the deepest  
depths of my soul and heart straight to  
yours as in knowing the first of the seven  
sacred truths is that we are all one and  
two or more gathered in his name miracles  
happen for sure and when we honor one  
another there is nothing we cannot do  
together!

That leads to the second sacred truth and  
the love of one's self, have faith in yourself  
and the rest will naturally come!

Love is divine power to the third sacred truth  
and there is nothing to ever really fear  
don't you know you are never really alone  
when there are angels always near!

Surrender your own will to the blessed  
Trinity so says the fourth sacred truth, seek  
only the truth for the truth shall set you free  
that is the sixth sacred truth, live in the moment  
whatever will be will be now is the seventh  
sacred truth well this comes from the deepest  
depths of my heart and soul straight to yours  
I love you and I know, I know there's nothing  
we can't do when we come together as one  
'cuz we are one and I love you forever...

Whether or not you believe the way I do  
or in these Seven Sacred Truths I love you  
I will always love you!

## Lost Souls

Well I see them here, I see them there  
I see them everywhere but nobody knows  
nobody knows I can see and communicate  
with the dead but if they did I know they  
would think I was a little touched in the head  
but I'm not crazy I just have one foot in this  
world and one foot in the other...

It's like a curse and a blessing, I listen to  
their stories and then I try to guide them  
toward the light, one after another but  
unfortunately some souls refuse to believe  
their dead and will not hear otherwise  
they just go on trying to do all the things  
they used to do when they were alive, some  
are good, some are bad but they all have the  
same personalities they had when they died

Well and you say well I think It'd be cool  
to talk to the dead, I say yeah that's what you  
think but most people think you're crazy, a little  
touched in the head, having one foot in this  
world and one foot in the other, it's more a curse  
than a blessing but still I try to guide them  
toward the light, one after another but I cannot  
make them go if they don't want to go...

It's good to know the Angels are just as busy  
as I am trying to save these LOST SOULS...  
one way or another these LOST SOULS will not  
linger in purgatory forever oh no someday these  
LOST SOULS will be found and taken to live  
in paradise, in the presence of God's love light  
for all eternity then and a half past forever!

## Jealous Me, Jealous You

Well jealousy is a sorry state of affairs  
they say if you love someone you'll trust  
them completely or it'll destroy the very  
foundation of any relationship and I know  
oh boy do I know I mean just look at us  
jealousy has always been a big problem  
for us, just a matter of trust for me and you  
maybe the love we thought we had wasn't  
love at all and time is taking its toll on us  
nothing left but heartbreak for me and you  
'cuz jealous are we two, it's sad but it's true  
it has always been JEALOUS ME,  
JEALOUS YOU...

So where are the reasons why it should be  
an shameful emotion we should entertain  
oh well it's such a shame, such a crying  
shame, I try not to let your coming and goings  
worry my heart so but I just can't live like this  
anymore, you'd think I'd be more open minded  
by the way you question me to death about  
who was that on the phone, who were you  
talking to...

Well without trust our relationship is doomed  
and I feel it coming sooner now than later, we  
just can't go on this way not trusting each other  
since the very beginning jealousy has been a  
problem, a big, big problem for me and you  
where is the reasons why, JEALOUS ME,  
JEALOUS YOU, jealous, jealous are we two  
oh JEALOUS ME, JEALOUS YOU!

## Avalanche

Well and the voice of you keeps echoing,  
echoing in my head, swearing by the moon  
and stars above now that you found me  
there could be no other love yes I can still  
hear your voice and those words you said  
echoing in my head but it's just the memories  
of you, the memories of you and me like when..  
when we used to play in those fields of gold  
before those mountains grew heavy in snow  
now only in my dreams do you ever come back  
to me, I must be crazy to keep that an old  
flame burning in my heart, it's just like an  
AVALANCHE falling down to the ground and  
now I'm in over my head frozen in my tracks  
and left for dead...

oh but I can still hear your voice echoing in  
in my head, saying I'll always be here standing  
right by your side, well how was I played the fool  
no it's not the first time but this time I really fell  
head over heels for you just like an AVALANCHE  
coming down hard and fast, just like an AVALANCHE  
and in over my head, in over my head and left, left  
for dead!

## Bridge Burning Down

Well you ain't been nothing but a thorn  
in my side since you came into my life  
I thought by now you'd take a hint  
I don't really want you in my life but  
still you insist on coming over to my  
house every dang night...

Well I know my mama told me not to  
burn your bridges and so I guess it's  
my fault you keep hanging around, I  
thought maybe someday I'd grow to  
love you but there's still no love here  
anywhere to be found so I guess it's  
time to burn this bridge and burn it to  
the ground, burn it, burn it down...

Well 'cuz you're nothing but a nightmare  
in my life that just won't go away, every  
night, every day, I just clench my teeth  
every time you touch me and oh God  
Heaven forbid you try having your way  
with me, how many headaches can one  
person have til you realize I'm not in love  
with you and I just wish to hell you'd set  
me free...

Well I know my mama told me not to  
burn your bridges and so I guess it's  
my fault you keep hanging around, I  
thought maybe someday I'd grow to  
love you but there's still no love here  
anywhere to be found so I guess it's  
time to burn this bridge and burn it to  
the ground, burn it, burn it down...

**BRIDGE BURNING DOWN, BURNING  
BURNING DOWN!**

## This Is Not Another Love Song

Well and it's a winter wonderland tonight  
by the light of a bright full moon but  
THIS IS NOT ANOTHER LOVE SONG  
oh no it's more like a dagger through the  
heart and a ghost from the past come home  
well and I am restless, climbing the stairs  
and going from room to room, room to room  
of haunted memories, I haven't felt so sad  
or unhappy since 2003, where are the reasons  
for being thrown for this flip again, de ja vou...  
I've been here before but why was I so blind  
to the signs this time, I swore I would never  
let you betray me again; I guess I was just  
crazy to think you could change your cheating  
ways and love only me now I have come to  
tearfully see nobody really loves anybody  
anymore, you were just a waste of my precious,  
precious time but when you are dead and gone  
I will live on and on, people will ask about you  
but all I'll have to say is that I guess you just  
packed up your stuff one day out of the blue  
and moved on, nobody will ever know the truth,  
nobody will ever know that I shot and killed you  
and threw your body over widow's hill, down into  
the dark ocean below on this cold, cold winter's  
night by the light of a bright, bright full moon,  
laughing to myself well I guess I had my revenge  
in the end but now I know it wasn't the end of  
it all for the ghost of you is back just to torment  
me and drive me insane as I go climbing the stairs  
down the dark halls and from room to haunted room  
full of memories, well I've never known heart pounding  
fear like I do tonight, I pray God forgive me but didn't

you have it coming to you, I was just trying to spare  
someone else the despair you put me through,  
well and so it might look like a winter wonderland  
tonight by the light of a bright, bright full moon  
but THIS IS NOT ANOTHER LOVE SONG oh no  
you might be dead but the ghost of you has come  
home, I know it's a fine line between love and hate  
but this is more like some kinda sick and twisted fate  
yeah you might be dead now but you just won't  
leave me alone...the ghost of you has come home  
and this is hell on earth for me now, I should of just  
left well enough alone, oh but this never was, THIS  
NEVER WAS A LOVE SONG!

## Vampire Toy

Well and his eyes are so hypnotizing you just can't turn away  
He has total control now over your mind body and soul  
He wants you now and what he wants he gets, yes him  
Always finds a way...  
He says take my hand and give you to me, bid farewell  
To the sunlight forever and for all eternity, you'll get accustomed  
To the moonlight so don't be afraid just give yourself to me, give  
Yourself to me tonight and be done with this worthless mortal life  
Take my hand now and just hold on tight, hold on tight...  
Well and you may not know it but he loves you with all his  
Lifeless heart and it was love at first bite, how the scent of your  
Perfume aroused him wild with desire now you beg to feel his  
Breath on your skin and that poison kiss again, makes him so  
Excited just like a little boy with a new toy and you, you are  
His new Vampire Toy...and you roll your eyes in the back of  
Your head every time!

## Nightfall

Nightfall and fog off the lake lands.

The ghostly touch of a cold and icy hand  
fills you full of fear and loathing.

Creature of the night where are you going?

I follow your shadow through the dark  
and cloudy night like a black widow for the  
love of your life.

There is a whole lot of mystery to your  
prowling and howling.

My web quivers as the wind blows across  
the river but I am silent approaching the  
stranger.

In the Nightfall and fog off the lake lands  
like the touch of a ghostly cold hand and  
a deadly kiss leaves nothing left for you at  
all in the Nightfall.

## Lakelands Manor

Ships at bay come and go every day and every night at Lakeland Manor and sailors are welcome to stay but only if they are brave...It is a beautiful castle but like they say you can't judge a book by its cover oh no 'cuz this place has many demons since many centuries from another and the mystery outnumbered...Lady in the garden, weeping as if in mourning, Faint voices whispering, Rocking chairs a rocking, Piano playing, Doors opening and closing all by themselves. It is not somewhere you'd want to be all by yourself...Oh and I did catch the glimpse of something out of the corner of my eye, The slightest trace of perfume in a cold spot passing by...Well I get the feeling inside I am being watched and it makes my hair stand on end I am a believer now if I never was and you can't pay me enough to spend another night there again at Lakeland Manor!

## Graveyard Witch

Oh no and I will not forget tonight! If you loved me you'd treat me well oh but what the hell, don't you know pay backs are hell! You will be sorry when I work my spell on you, yes you will be sorry for the rest of your cursed life! 'Cuz it's back to the Graveyard once again. Too late now to make amends. Try as you may you cannot win! Oh the curse of the Gypsy witch will haunt you 'til the day you die. Some things cannot be forgiven and this is one of those things. I've taken all I'm gonna take from the old Lion and blue grey eyes. You have no one else to blame but yourself, now the ends justify the means on great dark wings. And it's back to the Graveyard once again.

Too late now to make amends. Try; try as you may now you just can't win! You are no match for the Graveyard Witch and yes it is back to the Graveyard once again!

## Hekate

In the shadow of moonlight  
My cape pulled up around  
Me tight, standing at the crossroads  
Under the tree of life, eyes like fire  
In the night...  
I call upon the spirit of HEKATE  
As thunder rolls and lightning strikes  
She rises up from out of the underworld  
Like a phoenix out of the flames and  
Whispers my secret name, speaking in  
An ancient language I knew in a lifetime  
Once a long, long time ago...  
Oh HEKATE supreme and powerful  
Goddess of all witches and the triple  
Crossroads, Oh HEKATE supreme and  
Powerful high priestess of water, wind  
Earth and fire, immortal and ageless in  
Her beauty with one looks in her dark  
And enchanting eyes you feel yourself  
Drowning in a sea of desire, seductively  
She dances the dance of celestial intrigue  
She says clear your mind and come and  
Go with me, you have found favor with me  
HEKATE, Oh HEKATE supreme and powerful  
Queen mother of water, wind, earth and fire  
From out of the Urns of Minos...  
HEKATE goddess of the crossroads  
Oh HEKATE guides me and protects me  
Always...

## Nightstorm

So I find myself once again in the shadow of the crescent moon  
Back to the marshlands in the throes of an ancient gossamer  
Forest...well I can still hear your voodoo beckoning the sprits  
And I too can feel the power here where I stand as lightning  
Flashes and reveals the silhouettes of the undead walking these  
Cursed and sacred grounds and as the thunder rolls it almost  
Drowns out the drums echoing sounds...I take refuge at St. Mary's  
Over the way and here in the candlelight is where I'll stay 'til  
The break of day for I know I'll be safe here until the Nightstorm  
Ends although I too shake as violent as the walls bend from  
The furious winds and the Zombies trying to get in but I have  
Faith in the Lady and that she'll keep me safe from them and  
This ominous Nightstorm as when dark turns into light again  
I'll just have to ride out this Nightstorm a couple more hours and  
See this nightmare to the end!

## Full Moon over Werewolf

Full moon in the sky, curse of the werewolf on the rise  
And the poison runs through his veins and then  
The man becomes the beast once again...

FULL MOON OVER WEREWOLF going in for the kill  
Tearing through the mountains and hills, on the heels  
Of his next bloody meal, all the stories you've heard  
Are true, so please don't go out tonight if you don't  
Have to if you value your life 'cuz there is a FULL  
MOON OVER A WEREWOLF tonight...

And across the country side you can hear the  
Tormented howling, let that be a warning for the  
Curse of the werewolf can happen to almost anyone  
In any neck of the woods, I sure would hate to  
See it happen to you...

Evil comes in many forms and this one is the Devil's  
Pet, FULL MOON OVER WEREWOLF hungry and  
Starving to death...

Full moon in the sky, curse of the werewolf on the  
Rise!

## The Black Forest

Well I am no stranger to  
the kiss of death  
... the closer the sun sets  
I can hear you calling to  
me creature of the night  
where the winter roses  
grow in the cold, icy wind  
and falling snow...

IN THE BLACK FOREST

I find my way through  
the briars and down the  
pathway, the ancient ones  
laugh and say enjoy your  
stay but they don't know me  
very well or the magic passed  
on to me by Morgan Le Faye  
I am here for one reason and  
one reason only, to raise you  
from your grave so don't dare  
the gypsy of the wild heart  
because the spirit is one with  
the dark and darker than

THE BLACK FOREST...

So there is no fear in this  
night as the raven circles  
the grave, I wave my hands  
and bring you back to life...

Drink of my blood and let it  
rejuvenate your soul as the cold,  
cold vile wind does blow and  
echoes the curse of the Vampire...

Through THE BLACK FOREST  
of Collinwood I walk the secret

passage way again to the place  
I swore I would leave you but now  
I have had a change of heart and I  
command you to rise, rise from  
your grave, awaken now it is almost  
day...

IN THE BLACK FOREST where  
you were made, IN THE BLACK  
FOREST through the briars  
just down the way from the old  
house on the hill, you no longer  
have your own will and I say  
it still...

Don't dare the Gypsy of the wild  
heart...the spirit is one with the  
dark, as dark as THE BLACK  
FOREST!

## Ghost Town

Standing in the among the ruins of what  
Used to be a thriving little gold fever town  
I swore I heard music and laughter coming  
From the half-moon saloon, I walked around  
But nobody could be found still I could of  
Sworn I just saw a cowboy walk chasing  
An Apache in a cloud of dust well I felt a  
Chill run up and down my spine and it is a  
Hot, hot day in August maybe it's the heat  
And the sun getting to me, I'd say that if  
I just didn't stumble up on crooked head  
Man swinging from dead man's tree...  
Apparently they don't call this a GHOST TOWN  
For nothing, and they're everywhere, one  
Here and one there, voices of the dammed  
Keep telling me you will not leave this town  
I try to run for my life but they gather around  
Me and pull me to the ground, now here I am  
Confused as I go stumbling around this  
Cursed town, this GHOST TOWN...  
Whose blood do you have on your hands...?  
You stare off into space with cold and evil dark  
Eyes...  
Does the gun in your hand make you a man...?  
Now what cowboy, now that I'm roped and tied  
Surrounded by your hell hounds in this devil desert  
Town...  
Apparently they call this a GHOST TOWN just because  
It's a GHOST TOWN!

## Dusk

Oh and as the sun begins to set I come alive  
The moon comes curling around the mountains  
Like a blue lamp in a dusty pink sky...  
I step into the velvet of the night that I love  
In my red velvet cape and black gloves, still carrying  
A torch for some distant past ancient love and  
As the wind carries my spirit high through the dark  
Clouds above I am in a state of euphoria just  
Thinking about the taste of your in toxic blood...  
When the sun goes down it's my time to rise, my  
Time to fly, as the moon comes up and the day  
Turns to DUSK the magic comes alive...  
Thirsty and dry, time to rise, time to fly and the  
First one to catch my eye in the DUSK will die  
Well that's just the way of the vampire as the sun  
Goes down and the moon comes up...  
Out of the shadows of dusk!

## The Devil's Triangle

South Atlantic an ancient and  
ominous death trap awaits unexpected  
ships and planes and tonight it has  
claimed many lives again...well it is a  
mystery that most likely will remain  
unexplained buried deep in sin...however  
I have heard it's the remnants of Atlantis  
and a great and powerful crystal...a portal  
to another dimension well whatever it is  
I don't believe it's a myth or any kind of  
delusion...out of the blue come a green and  
sinister fog spanning San Juan, Bermuda  
and Miami engulfing the Sargasso sea  
well I pray God watches over you in your  
ship or plane as you enter and cross  
over The Devils Triangle and his demonic  
waters!

## Roanoke

Well and they came by sea in the 17 century. They had the highest of hopes as they did come ashore the wild wood lands. And setting up housekeeping they were in the best of spirits in the beginning. But in need of more supplies, eventually. Some sailed back to England only to return to a great mystery! Roanoke had just disappeared without a trace. Nothing to be found in the whole quiet place. And to their puzzlement no one dared to even conceive what it could have meant. Because Roanoke had just vanished like it was never there. Somebody said, "well the whole blessed colony couldn't have just disappeared into thin air"! But they did feel something sinister had happened there! And they called it the devil that had stolen Roanoke right out from under them never to be found again.

## Lady in White

Well and does she have some kind of unfinished business  
Here and What is she looking for? What makes her weep?  
And weep? Does she not know she lives no more?  
Oh Lady in White in the darkness in the night.  
Lady in White of effervescent light. Reminiscing life  
And Lovers return by moonlight. Oh Lady, Lady in White.  
Well have you seen her in the gardens? Did her mournful  
Song befalls your ears? Have you seen her outside your window?  
Did it strike you as curiosity or fear? How long has this been going on?  
Is her haunting timeless? Do you mind her company?  
Is her restlessness endless? Oh Lady in White in the darkness of the night.  
Lady in White of effervescent light reminiscing life and  
Lovers return by moonlight. Oh Lady, Lady in White.

## Edinburgh Castle

Cold spots and disembodied voices  
echo in the ancient castle as shadows  
come from out of nowhere, soldiers in  
armor, ladies in waiting well and but  
then they disappear almost as they  
appear oh don't you know living in  
EDINBURGH CASTLE can be  
a living nightmare...

They say the only thing you have to  
fear is fear it's self well but I guess  
they never spent one night at  
EDINBURGH CASTLE if they  
had they wouldn't say that I'm sure  
for Heaven's sake I knew there was  
something evil and sinister here the  
moment I walked through the iron  
gates of EDINBURGH CASTLE...

Well the hair on the back of my neck  
stood straight up feeling the cold, cold  
breath of something not of this world  
on my skin, well I swear if there's any  
portal to Hell it's gotta be it's gotta be  
this castle if there is any, it's gotta be  
EDINBURGH CASTLE...

And the feeling of delirium is enough  
to drive you outta of your mind even for  
a short time, living at EDINBURGH  
CASTLE is like living in a nightmare  
I swear it can be your worst nightmare  
oh but no they will not let you leave  
once you get there, once you walk through  
those big, big doors of EDINBURGH  
CASTLE, EDINBURGH CASTLE!

## The Jersey Devil

Well something of a Blair Witch documentary  
The three of us on dark, dark October night  
We parked our car and took our flashlights  
Deep into the pitch black woods trying to prove  
Or disprove the legend of the ghost man  
Well maybe it's just the idea of it all but I do  
Feel like I'm being watched, don't you feel it to  
Wait a minute, stop, look and listen don't you hear  
That, it sounds like it's coming from over there  
And all around us, I said hello is there anyone  
There, you said boy do you really wanna know  
Well I don't know about you but why don't we  
Just forget about this and go home but she  
Became speechless and as we turned around we  
Came face to face with THE JERSEY DEVIL...  
I never ran so fast in all my life trying to make  
It back to the car and the old dirt road and to be  
Honest with you I forgot all about them 'cuz it's  
Now I know there are things in the darkness  
Wicked and abnormal, thank God for watching  
Over us but I don't think I'll ever sleep again...  
Oooh Jeepers creepers and now here we are  
Again after twenty years going down that same  
Ole dirt road and I'm just sitting on pins and  
Needles, you'd think me crazy if I told you why  
Sometimes you just have to prove yourself wrong  
Because after all these years you still can't believe  
You saw what you saw with your own two eyes  
And but if I saw what I think I really saw well  
I can't believe I'm still alive and if you don't  
Believe me just go ahead and ask them, ask them  
The night from out of the twilight zone, the night  
We came face to face with THE JERSEY DEVIL

I remember it as tho it were yesterday even to this  
Day I still have nightmares of that dark, dark October  
Night, the night we came face to face with the  
JERSEY DEVIL and ran, ran for our lives!

## Angelique

Oh immortal sorceress, daughter of Lilith  
She is a prism in the moonlight, a deity  
Darker than the Sargasso sea, her fury is  
Unforgiving as the Titans came to  
Recognize all because of their jealousy  
Over her lineage and limitless validities  
War was declared and with one wave  
Of her hand mount Olympus went down  
In flames she just laughed and laughed  
Devouring their celestial transcendence  
Future generations should have learned  
From the fall of the Titans fall but them  
Didn't learn anything at all...  
Cleopatra tried imprisoning her so she could  
Discover the secrets of everlasting life to be  
Queen of not only Egypt but the whole wide  
World but the daughter of Lilith turned herself  
Into the cobra that would be Cleopatra's  
Demise, you thought it was Rome well  
You were wrong; it was her all along...  
Angelique from Martinique, a timeless  
Beauty that even Venus would envy  
Frozen rose suspended in time, high  
Priestess calling out to you, messin'  
With your mind, she'll tell you she loves  
Then she will rip out your heart...  
'Cuz hell has no fury like a woman scorned  
And her magic is like lightning you never  
Know when it comes, her spells are forever  
Binding and she feels no shame in her game  
She'll make you regret the day you were  
Ever born, she may look like an angel but  
She is the devil in disguise and she will have

You right where she wants you with just one  
Look into her icy blue eyes 'cuz hell has  
No fury like a woman scorned especially  
When the woman is ANGELIQUE, ANGELIQUE  
From Martinique...

Oh immortal sorceress and daughter of Lilith  
She is a prism in the moonlight, deity darker  
Than the sea than lies below widow's hill  
You may think she is just a legend but me  
Assure you she is very real...

ANGELIQUE from Martinique, a timeless  
Beauty even Venus would envy, frozen rose  
Suspended in time, high priestess calling out  
To you, messin' with your mind, she'll tell you  
She loves you then rip out your heart...

'Cuz hell has no fury like a woman scorned  
Her magic is like lightning you never know  
When it comes, she'll make you regret the day  
You were ever born 'cuz hell have no fury  
Like a woman scorned especially when that  
Witchy woman is ANGELIQUE, ANGELIQUE  
From Martinique!

## Widow's Hill

Even when the night air is calm  
and still you can hear the wailing  
of women from the past that flung  
themselves off of WIDOW'S HILL  
to the cold, cold ocean below and  
legend has it at Collinwood they're  
waiting for another jaded woman  
to join them at the bottom of  
WIDOW'S HILL where their restless  
spirits wonder still...

Well listening to this tragic story  
gave Victoria Winters the shivers  
and she couldn't sleep a wink  
that night, she wondered what in the  
world could be so bad that these  
women would take their own lives...

The Mistress of Collinwood said "oh  
my dear I'm sorry if I upset you, pay no  
more mind to these silly stories and  
that's all they are nothing but silly old  
stories" but Vicky said I must be crazy  
but I feel like they're trying to lure me  
to my death I don't know why that's  
just the way I feel and I can't help  
myself, especially after seeing the  
shadow of a lady in white at the top  
of WIDOW'S HILL last night"...

The mistress of Collinwood said "oh  
darlin' it must of been your imagination,  
I've never heard or seen anything out  
there but if that's how you feel then please  
promise me you'll take someone with you  
if you must go out there" Vicky agreed but

she knew the Mistress of Collinwood was  
lying and just trying to relinquish her fears  
Vicky knew the stories were true just as  
she knew she had heard their wailing on  
this cold October night and it wasn't the  
wind because the night air was calm and  
still, yes she knew it had to be the restless  
spirits of those poor, poor widows that still  
haunt the high ledge and rocky ocean  
below WIDOW'S HILL!

## New Moon Spell

### NEW MOON SPELL

in the backwoods of the  
Louisiana bayou voodoo  
is alive and well...

Calling on fire, wind, earth  
and water in the shadow of  
the torch lights as the  
dance of the dead is danced  
caught up in a trance like  
frenzy, the high priest reads  
from the book of rites and  
invites the spirits to breath  
from our cup of life...

Three times the power  
of three and this month is  
the perfect month as Jupiter  
trines Aries...

As the dance of the dead  
is danced around the  
sacred crystals, ancient  
skulls and the brewing  
cauldrons and I know these  
things all too well...

In the backwoods of the  
Louisiana bayou every time  
the moon is new you can hear  
the distance drums beating  
to a voodoo ceremony as  
A NEW SPELL rings out  
through the night hauntingly!

## Stronger

Hear the music beatin' Stronger  
Feel the brandy kickin' in Stronger  
See me gettin' hotter and a growin'  
Stronger  
Well and as the candles burn brighter  
the dream comes to light once more  
faces crystalize but I really don't know  
them anymore.  
I draw on my wisdom and magic  
now, and let the heart go oh  
like a ghost in the fog dragging  
a long silver chain in the shadow  
of my shadow, I still love you so  
Well could it be this is my destiny  
could this be a secret set free?  
Hear the wind a blowin' Stronger  
Feel the heartbeat a beatin' Stronger  
See me growing older and gettin'  
Stronger!

## Different Dimensions

Tick tock goes the clock or does it now  
could just be an illusion in a world of  
confusion in a man-made world built  
on lies don't you just wish you could  
disappear through a door somewhere  
to another world where everything  
makes sense and there's never no  
more sorrow to make you wanna cry  
Well I remember hearing a story  
Einstein once told that there's many  
many mirror like Earth worlds of  
infinity of DIFFERENT DIMENSIONS  
the same reflection of you but many  
different outcomes depending on the  
many different roads we choose to  
take, could be destiny, could be fate...  
Well somehow, someway I'm gonna  
find these mysterious pathways to  
these DIFFERENT DIMENSIONS  
no matter how long it takes and start  
all over again on another Earth like  
world, a DIFFERENT DIMENSION I  
really feel at home in even if I have to  
kill me, myself, my twin in thousands  
and thousands of DIFFERENT  
DIMENSIONS...  
I will find the right one in the end so  
let the journey begin through stars of  
infinity and thousands and thousands  
of DIFFERENT DIMENSIONS!

## Outside the Snow

Breath on my window silently screaming out for a certain Scorpio but it's like you've just disappeared like a ghost in the blinding snow the fire here inside is warm but I feel a chill craving your hot, hot lovin', starvin' for the ecstasy in your kisses and in your hands well the passion floods my soul and curls my toes... but here it is half past 2 and I'm still waiting, waiting and waiting, texting, texting and texting you oh Lord I need to see you again 'cuz surely you're not so far away you can't cross the frozen river and swim the snow but your cellphone seems to be off tonight and it's just driving me crazy wondering if you're holding someone else in your arms so warm and tight but I pray for your sake you're not if you value your life... can't you hear me silently screaming out for you like a banshee's echo across the frozen river... **OUTSIDE THE SNOW... OUTSIDE THE SNOW...**

## When I Count My Blessings

When I Count My Blessings I count you twice 'cuz it's  
a miracle come true that you're even a part of my life  
I have so much to be thankful for and I thank God  
every day and every night but When I Count My Blessings  
darling I always count you twice...well it's true we  
often get distracted with the world pulling us in many  
different directions but I guess that's life in the  
big city still like a river that always finds its way  
to the sea I always find my way back to you, you always  
find your way back to me...love is not taken for  
granted even when it's not said often enough we are one  
in the same like an ember to a flame and that's one  
thing I know will never change...I have so much to be  
thankful for and I thank God every day and every night  
but When I Count My Blessings I always, I always count  
you twice!

## Just In Time for the Holidays

Thinking of popping the question this time they say  
Long distant relationships usually don't work out I guess  
We are the exception and if I have to be honest I must  
Say I knew we were meant to be together way back when  
I just knew it in this heart of mine and I'm so excited now  
Knowing soon we'll be together today Just In Time For  
The Holidays  
And back to the Smokey Mountains and our rendezvous  
Cabin their playing your new hit song on the radio once  
More maybe you're listening to my new cd Christmas Spirit  
I sent you just last week as you make your way down from  
Providence through the hard fallen' snow and icy winds please  
Take special extra care baby 'cuz I can't wait to see you and  
Hold you in my arms again Just another hour or two away  
Just In Time For The Holidays!

## Sagittarius

Well and you are a freedom  
lover if anything so archer  
of my dreams go on and  
spread your wings as  
lightning goes to the sky in  
the blink of an eye you  
disappear again, born of the  
wind...Sagittarius carefree  
and adventurous, traveling  
heavenly roads and now  
only God knows where  
you are but as you go you  
roll like thunder...well I  
pray I'll see you again as  
Spring turns into Winter  
Sagittarius oh Sagittarius  
for me there will be no other  
love and if I have to I'll wait  
for you forever, forever  
Sagittarius...I can still hear  
you saying I will come back  
to you someday but It is my  
destiny to spread peace, justice  
and harmony to the four corners  
of the earth, this is my whole  
purpose and has been since  
the ancient time of my birth  
and as lightning goes to the  
sky in the blink of an eye  
you are gone again somewhere  
up high above the wind...  
Sagittarius oh Sagittarius  
ruler of my heart where ever

you are, near or far I know, I know  
you can feel my love, ooh my love  
my sweet, sweet Sagittarius!

## Men of Letters

MEN OF LETTERS is a secret underground society, some say they've been around since the 1930's, some say they go all the way back to the Knight Templars, all I know is that they still exist today but don't ask me how I know 'cuz I was sworn to secrecy but I will tell you what I can without giving it all away...

THE MEN OF LETTERS have thousands of files on the supernatural from creatures we thought were myth's, to creatures we've never even heard of before, only other secret societies are granted permission to go through their extensive library from time to time but they never have more than hour to find the information they come to find 'cuz the MEN OF LETTERS have thousands and thousands of files on the supernatural but some things will always remain under lock and key for only their eyes to see 'cuz it would mean the end of the world if it ever got into the wrong hands so THE MEN OF LETTERS have to stay one step ahead of every new generation that doesn't quite understand just how powerful knowledge can be but these MEN OF LETTERS are the sons of the legacy...  
a pure bloodline passed down over time...  
guardians of the supernatural...  
guardians of knowledge all powerful...  
MEN OF LETTERS...  
MEN OF LETTERS...

## The World Unseen

Well there are many, many  
portals and gateways from  
this world of the living to  
the WORLD UNSEEN  
where demons and ghosts  
walk among us not only  
in the night but in the  
daytime too...  
Could be they've attached  
themselves to you just  
because they find you some  
kind of an amusing new  
kind of plaything and you  
are familiar with the occult  
and the oui, well don't you  
know it is a portal, a gateway  
for them and then the haunting  
begins, cold spots and goose  
bumps on your skin disembodied  
voices telling you to do bad  
things and your stuff has been  
moved from one room to another  
again...  
You hear wicked laughter behind  
you, you turn around to find no one  
there, could be because of you're  
a sensitive and wise in the ways of  
the occult, no wonder they find you  
an amusing little plaything but then  
again it can happen to any of us  
demons and ghosts are here, there  
and everywhere 'cuz there are many,  
many, many portals and gateways

from the land of the living to the  
WORLD UNSEEN!

## Mary King's Close

Underground spillover of sickness  
and the stench of death...  
men, women and children confined  
and condemned, condemned to suffer  
even after the hour glass has ran out  
of time, there is an un-natural coldness  
down the long and winding dark halls  
you can still hear their screams  
reverberating off the walls as Mary King  
still comes to the children to stop  
their crying as it was in the last few  
minutes of her dying, there's just no rest  
for those who die a violent death...  
Well now and MARY KING'S CLOSE has  
changed over the centuries but the ghost's  
remain, remain thirsty in their hunger for life  
oh what unimaginable horror, agony, pain  
and misery in a dreary and heartless plight  
and you can still hear their screams  
reverberating off the walls, you can still feel  
their breath on the back of your neck  
down the cold long and winding dark, dark  
halls, men, women and children confined and  
condemned to linger in their suffering well  
but there is no rest, no rest for those who  
die such a gruesome and violent death...  
Underground spillover of sickness and the  
stench of death, unimaginable horror and  
misery, you can still hear those blood curling  
screams coming from MARY KING'S CLOSE  
MARY KING'S CLOSE...  
under quarantine!

## After Midnight

Eerie sounds all around deep in  
the heart of the graveyard AFTER  
MIDNIGHT, shadows appear and  
seem to move, heartbeat like  
thunder in a state of fright, they're  
coming from all around, I try to  
scream but can't make a sound  
wickedness and evil gnawing  
away every bit of life well don't  
you know the graveyard is no  
place to be AFTER MIDNIGHT...  
The dead are known to come  
back to life, AFTER MIDNIGHT  
you better stay inside and keep  
your doors and windows locked  
up real tight, AFTER MIDNIGHT  
you better pray to GOD for the  
love of your life, AFTER MIDNIGHT  
the bewitching hour begins...  
AFTER MIDNIGHT and the nightmare  
begins again...  
AFTER MIDNIGHT!

## Gothic

Silver dagger  
Shadow of a stranger  
Ominous danger  
In a dark, dark place  
unknown  
down deep where  
very few have ever  
gone  
And you, you in all  
your mysterious and  
Gothic ways  
that strange look in  
your eyes is like looking  
into the eyes of death  
on a foggy grey day  
I am afraid but paralyzed  
and cannot run away...  
As your voice echoes the  
words from your big black  
book of spells  
I feel trapped like a fly in  
a black widows web  
In the shadow of candlelight  
night after night  
with your cape pulled up around  
you tight  
I feel the cold, cold steel of your  
silver dagger  
Looking into the face of monster  
As the earth comes falling in on me  
my soul is released from its body!

## Sea Sorceress

Oh well and the first time I ever saw you  
an Ocean of emotions came crashing down  
upon me it was magic by the full moon and  
waves off the velveteen sea  
You took me by the hand and led me into  
the deep somewhere around the Octopuses'  
web and the Mermaids liar more than 21,000  
leagues under the sea but I was not scared  
you took me into your arms and kissed me full  
of intoxicating air now I think I'm falling in love  
I must be under your spell but oh well what the  
hell now who cares about the world above  
Could this be Atlantis or the lost Garden of Eden  
I don't know but I you're the sound of your beautiful  
voice has me in a trance a full and real dream like  
romance, a state of enchanted ecstasy now would  
you wanna go back if you were me well I don't wanna  
go back no I wanna stay here with you forever now  
who cares, who cares about the world above  
But then the next thing I knew the sun was shining  
down upon me and the white sands well it must of just  
been a dream but it couldn't of been a dream because  
I see here lying next to me a pearl necklace sparkling  
iridescently oh Sea Witch why did you forsake me  
I cry out I love you come back, come back as I cross  
the sea shore and the light of day turns into night  
of starless black a voice arose from the deep and said  
you will see me again someday and the next time my  
arms will keep you and never let you go again  
now I only live for that day when we will come to swim  
once again together forever  
...Spending every day and every night  
waiting and watching desperately

walking along the waves of velveteen  
drowning in my misery, lost without you  
'cuz now I only live to be one with you  
for eternity under the sea...

## The Unsung Heroes of Christmas

Well it just breaks my heart  
That you can't be home for  
Christmas...nobody should have  
To work on Christmas day but  
Not everybody sees it my way  
People make excuses and say  
It's not all about the money...yeah  
Right you think you're trying to fool  
So for those of you that has to  
Work on Christmas day this song  
Is for you...the true hero of  
Christmas, merry, merry Christmas  
To you...  
All the Doctors, the Nurses and  
Pharmacists, all you truck drivers  
Waiters and firemen, all of you  
Retail employees, the security guards  
And policemen and a special thanks  
For all of you in Afghanistan...well you  
Are the true heroes of Christmas this is  
Clear but we still wish you were here  
Home where you belong...  
Oh don't you know it just breaks my heart  
That the world can't stop for Jesus for just  
One day out of the year well it seems like  
A sin but the world is full of scrooges  
Much to chagrin...  
Still some make excuses and say it's  
Not all about the money...yeah right you can't  
Fool me in the end so this song goes out  
To the true UNSUNG HEROES OF  
CHRISTMAS oh bless your heart and  
Soul, I just want to say hey I appreciate

More than you'll ever know and a very,  
Merry, merry Christmas to you all of you  
UNSUNG HEROES OF CHRISTMAS!

## Mistletoe

Hang it high, hang it low  
It really doesn't matter, no  
Just hang that Mistletoe  
And kiss me, kiss me  
With all your heart and  
Soul  
You know that's what  
I've been waiting for  
Ever since you came  
Through our front door  
It'd be great if you could  
Stay awhile and maybe  
Help us decorate  
We've got plenty of  
Eggnog and gingerbread  
Cakes but before you go  
Want you this Mistletoe  
Yeah...  
Hang it high, hang it low  
It really doesn't matter, no  
Just hang a little Mistletoe  
And kiss me, kiss me  
With all your heart and  
Soul  
Then maybe before you  
Leave we can take a walk  
Down the snow covered  
Road and talk about you  
And me...  
It'd be great if you could  
Stay a little while longer  
You know my parents  
Wouldn't mind! They like

You almost as much as I  
Do, almost ha-ha!  
Their always talking about  
How we're just like two of  
A kind.  
But if you must go  
Will ya do me a big, big  
Favor and hand this bag full  
Of Mistletoe  
Yeah...  
Hang it high, hang it low  
It really doesn't matter, no  
Just hang that Mistletoe  
And kiss me, kiss me  
With all your heart and  
Soul oh...

## Merry Christmas from Me to You

Well MERRY CHRISTMAS TO YOU  
from my house to yours, I pray it's the  
best Christmas you could ever hope for  
but don't forget it's not all about the  
presents under the Christmas tree  
no it's really more about the birth of  
Jesus Christ our Lord, our Lord and  
savior who was born so we may live  
forever and so if we keep the true  
meaning of Christmas how could we  
even feel sad or blue...

Don't you know the promise of forever  
is in the air, can't you feel it, oh can't  
you feel it everywhere so MERRY  
CHRISTMAS, MERRY CHRISTMAS  
TO YOU, may it be all you want it to be  
and from the foothills of Tennessee  
A VERY MERRY CHRISTMAS, A  
VERY, VERY MERRY CHRISTMAS  
from you from me!

## Trinity

In the name of the Father, the Son and The Holy Spirit  
I am born again, I am finally at peace within and  
now I just have to shout out Alleluia, Alleluia, Alleluia  
I have been saved by the grace of the Trinity, by the  
power and the mercy, I am forgiven of my sins  
in the name of the Father, the Son and the Holy Spirit  
now and forever Amen...

Well but I'm not saying I'm perfect or better than  
anyone else by no means but I have been brushed  
by Angel wings and now my life is no longer what it  
used to seem now that I am redeemed...

In the name of the Father, the Son and the Holy Spirit  
I am born again, forgiven of my sins...

Alleluia, alleluia, oh alleluia...

saved by the grace, the power and the mercy of the  
Holy, Holy TRINITY!

## I Exalt Thee

For so long I have been down so low  
lost in the darkness of doubt, the Devil  
kept saying you think and you worry  
way too much but Jesus said I am the  
way, the love and the life, his voice  
sounded like rolling thunder, turning  
my heart inside out and it's now I know  
you can hear me, down on bended knees  
saying oh hallowed be thy name, forever  
and for all eternity, yes and I pray for  
those, for you and me, I am so tired and  
weary but I know Jesus will give me  
the strength to sustain until he comes  
back to get me because I know, I know  
he loves me oh and so I EXALT THEE  
Lord Jesus, I EXALT THEE, I EXALT  
THEE...

Oh and as the Angels sing I sing along  
with them, he heard me as if I were singing  
alone, singing my new heart song, singing  
my life is in your hands, grant me wisdom  
peace and patience so I can be the man  
you want me to be, the man you wanna see  
me be, show me the way and I will follow  
because love leads me and if nobody loves  
me Jesus I know you love me and I EXALT  
THEE, I EXALT THEE Lord Jesus, I EXALT  
THEE...

## Let Love Begin

Well what can I offer you  
When you already have  
Everything and more...  
You snap your fingers and  
An entourage of nameless  
Faces come running pampering  
You but isn't there not anything  
You do not yearn for...where  
Do you go when you dream,  
Do you ever feel like there's  
Something missing in your heart  
...well I may be a fool but here's  
Sending my love your way all  
The way to the United Kingdom  
From Tennessee now does that  
Bring a smile to your face, does  
That make your day, does that take  
You away, does that touch you  
Deep within if it does then c'mon  
And Let Love Begin oh you red  
Haired English angel open up your  
Heart, open your heat and let me in  
Although we are an ocean apart  
Don't you know I'd jump a jet plane  
Tonight to get to you if you'd only,  
Only open your heart and Let Love  
Begin!

## Hold That Thought...

Hold That Thought I've got a  
UFO to catch...they wanna  
Throw me a party for some  
Reason or another but I'm  
Sure it'll be a hoot-n-any so  
Hold That Thought darlin'  
I'll be back before you can  
Finish your beer and we can  
Get back to getting down  
And dirty...oh my heart, oh  
What a day...this morning  
My new cd was released  
And I graced the cover of  
Time magazine then took  
A limo to have lunch with  
Tom Petty and Don Henley  
Little did I know BMI arranged  
The whole thing for my first  
Smash hit "Out Of a Dream"  
I thought the celebration  
Would never end so we'd  
Get back to getting down  
And dirty well it seems  
Everything I touch now  
Just turns to gold oh but  
Wait a minute baby  
Hold That Thought and  
My beer...I'll be back  
Before you can get out  
Of them clothes, just  
Hold That Thought...  
I'll be back before you  
Can say baby don't go

I have to catch this UFO  
So just Hold That  
Thought, Hold That  
Thought!

## You, Yourself

There's good and bad in everything I guess that's just  
the way of this thing we call life but without pain  
and sorrow we wouldn't learn anything, we need a  
little rain in our lives for our souls to grow still  
even in the dark there are traces of light And You,  
Yourself can be a beacon of light for another if it's  
just to give them some hope to cope when in times of  
trouble and misery has them not knowing up from down  
you yourself can create a miracle if it's just to  
give someone a helping hand...sometimes we all need a  
helping hand so be a friend and when you need a  
friend to see you through you will find someone to  
stand by you...It's just like that old saying you  
gotta take the good with the bad tired of living,  
scared of dying it's like we're caught somewhere in  
between but faith and prayer is a powerful thing and  
You, Yourself can create miracles we are only a little  
lower than the Angels and even on those cold and  
starless nights there are still traces of light...

## South Hawthorn

Somewhere Down Over South Hawthorn's Way  
That's where we would always meet at the dark  
End of the street in the moon's shadow  
Teenagers sneakin' some kissin', some huggin'  
And some lovin' until the break of day and just  
A little bit more again until sunset tomorrow!  
As another summer night finds us on fire  
Entertaining the feeling of our souls new found  
Desire now come hail or high water and the  
Passion explodes like thunder!  
Young and kindred spirits fresh out of puberty  
Giving into our ecstasy 'til the break of day and  
Then just a little more again until sunset tomorrow!  
Oh Somewhere Down Over South Hawthorn's Way  
That's where we would always meet at the dark  
End of the street in the moon's shadow  
Teenagers sneakin' some kissin', some huggin'  
And some lovin' until the break of day and just  
A little bit more again until sunset tomorrow  
Somewhere, Somewhere Down Over South Hawthorn's Way!

## I Know How You Feel!

Well I feel your trauma I'm no stranger  
to the misery of a broken heart and the  
drama you try to avoid everyday...every night  
moving in the same circles you've been  
moving in for so long...blind in the dark  
I feel your pain like a hard driving rain kinda  
like a ghost lost in the fog for years on end  
no arms to go around you and drowning in  
the deep end crying out for help and wishing  
you were someone else...it's enough to make  
you wish you had a heart of stone when you  
are all alone caught somewhere in between  
the dark and the dawn, the nightmare that has  
a hold on you, the hell you're going through  
another day closer to going insane well I  
Know, I Know How You Feel 'cuz I feel the  
same!

## 13 Ghosts

Your house is a historical landmark  
That's been passed down from  
Generation to generation but little  
Did you know this gift you were  
About to inherit would cause  
Great chaos and devastation..  
Your ancestors are getting  
Restless now longing for some  
Company in that big, big castle  
Over-looking the north pacific sea  
On the edge of widow's hill  
Over-looking a dark raging sea..  
Well now and your son and  
Daughter's oui ja board is talking  
back without hands speaking of  
things the departed ones can  
understand, then the gate keeper  
speaks of the others saying I am  
here with the father of your fathers  
mother, the one who sold his soul  
for the sake of a lasting dynasty  
but now your curiosity has the  
better of you and now you seek an  
audience for a séance in a cold, icy  
room over-looking the sea, in the  
shadow of candlelight 13 GHOSTS  
will torment you tonight if you don't  
die from fright before dawn's early  
morning light, still you will never be  
the same sane person again living  
in this haunted castle of 13 GHOSTS  
there is no limit to their evil...no limit  
to their sin...

they'll do whatever it takes to get you  
to join them forever in this big, big gloomy  
castle over-looking a dark and raging sea  
where pain, suffering and death is it's only  
legacy!

## The Dark Glen

Take special care with you as you travel  
through the DARK GLEN tonight, ride  
your dark stallion fast and don't stop  
for nothing for there is evil there that  
would love to possess your life and  
they are all around, in the forest, in the  
lakes and up in the mountains high  
earth and sky, so stay focused now  
and don't let them distract you from  
getting back to Warwickshire just  
across the other side, the other side  
of the DARK GLEN, ride, ride like the  
wind...

Still I worry and I fear for the love of  
your soul for so many, many good  
men have gone in but never returned  
from the DARK GLEN...

I have seen crystal visions of demons  
beasts and all sorts of hidden things  
that would boggle the mind but even  
in all my magic I cannot protect you  
all the time and of all nights on this  
All Hallows Eve you are walking a very  
fine line between your villages and mine...

This is the one true test of love, willing  
to go through hell to get to Heaven; still  
I would rather suffer loneliness just to  
keep you safe in your shanty village  
town than for you to risk your life to get  
to me through the haunted glen...

THE DARK, DARK GLEN!

## Give Me What You Got

Well you say you like what you see  
Well fasten your seat belt baby my  
Love is an intense one to say the least  
Yeah and I'm a naughty boy so if you  
Think you can handle that then bring it  
On, bring it on 'cuz I've overheard you  
Talking about me to some of your  
Friends and you say you think I'm  
Devastatingly hot...well if you got the  
Endurance then show me what you got  
And don't stop just Give Me All You Got  
Even if it's just for one night so what and  
Why not...lay me down and set me free  
Hold me, kiss me, do with me what you  
Please, what'cha waiting for 'cuz I've  
Overheard to talking to your so called  
Friends and they tell me behind your back  
That you think I'm totally hot well then c'mon  
C'mon and Give Me, Give Me What You Got!

## Just Forget It?

Well here it is a quarter after three in the morning  
and I'm all alone again...I wish you would call me or  
come over and keep me company don't you know I'd give  
anything to be your everything again but we're not even  
any longer friends you'd think after all these years I  
would have learned to let you go...they say just get  
over it, Just Forget It but that is easier said than  
done...hope continues to haunt my heart, holding onto  
any flicker of light in the dark maybe when Saturn  
loses it wings I'll finally learn not to care but 'til  
then I'm a long ways of being there, no I can't get over  
you and I can't just forget the love we shared...well  
was I born to live a life of solitude, was I meant to  
suffer through the seasons like a ghost holding onto a  
dream of you...they say just get over it already at  
last but I can't forget, I Just Can't Forget the past.

## Sail Away With Me

Well and I know these lakes like  
The back of my hand  
I used to like to be on the open  
Waters alone the serenity made me  
Feel strong but now after meeting  
You I am a new man and now I'd  
Like nothing better than if you came  
Along and...

Sail Away With Me together in  
The breeze of the sea let lose the  
World and breath deep the  
Tranquility yes and it is true I know  
The best things in life are free so  
Baby want you come along now  
Come and Sail Away With Me  
We can drop anchor right here  
And make love underneath the clear  
Blue sky lovers in motion to the  
Waves a rocking' and a Rollin' pooh  
Yeah baby and looking into your  
Eyes I can see you feel the way I do  
Inside I can't believe this is happening  
To me but now I am a new man and  
Now I want you always right by my  
Side so...

Sail Away With Me together in  
The breeze of the sea let lose the  
World and breath deep the  
Tranquility yes and it is true I know  
The best things in life are free so  
Baby want you come along now  
Come and Sail Away With Me  
Come and Sail Away With Me!

## Until We Meet Again

Well Until we meet again you'll be  
in my thoughts and prayers  
where ever your heart takes you  
take care my love, take care...I know  
you've got to follow your dreams  
and I hope they all come true sooner  
or later for God only knows when but  
oh how I'll miss you Until We Meet  
Again, no I'll try not to cry but I'm  
already misty eyed...you put your  
finger on my lips and say shhhh let's  
not say goodbye let's just say fare  
thee well Angel eyes...well I love you  
so much I will set you free 'cuz I'd  
feel awful if you ever came to resent  
me from following you're the desires of  
your heart and soul but still haven't  
found yet so let your journey begin  
I'll surely miss you my love, my friend  
take care and you'll be in my prayers  
Until We Meet Again, Until We Meet  
Again!

## #1 Man

Whoa oh baby ain't I still your #1 Man  
do I still make you feel safe and warm  
when you are in my arms, do I still turn  
you on every time we touch, ain't I still  
the one and only one you will ever love  
well baby, oh baby, baby please tell me  
I am still your one and only man, your  
#1 MAN, your #1 man...

'cuz if you asked me to I'd give you  
the moon just because I can, I will  
protect you, I will defend you like no  
man can and when you are scared  
of the unknown I will hold your hand  
I will be your peace of mind when  
confusion clouds your mind and  
when you've taken about all you can  
stand I will wipe away your tears  
because don't you understand just  
how special you are to me well  
you are so very special to me you  
understand, I will give you the moon  
and stars just because you deserve  
it and because I am the man, I am  
the man, your #1 MAN, your #1 MAN.

of our lives, dancing, laughing and kissing  
'til the early mornings light well now  
I close my eyes and bite my lip oh how  
sweet it is just the thought of you makes  
me oh so, so hot I wanna jump into your  
sea, so wet drowning in ecstasy oh baby,  
baby I want you, I need you just imagine  
all the wild and crazy things we could do  
so bring it on over here if you are  
DREAMING ABOUT ME, I've got your love

come on over here, I've got your love...  
I've got your love baby...  
if you are DREAMING, DREAMING OF ME!

## Every Day

Every day that goes by I remember when you used to love me and the tears fall like rain from my eyes because no one could ever take your place. Every day I die just a little bit more inside.

Every day, Every day that goes by, I long for sweet yesterday when we would love the days away, it's a mystery to me how ever our love flowed liked a river then seemed to just turn to dust, but still you will hold a special place in my heart longer than always!

And every day I hope to see you again! Just because we're not who we we're that doesn't mean we can't still be friends! Every day I come home I hope to find you waiting on my front door steps like you used to do not too long ago but as usual you are nowhere to be found. I know you've moved on with your life as I should also too I know but for me it doesn't seem to be so easy to let you go oh no...And every day that goes by the tears fall like rain from my eyes missing you and the things we used to do.

I'm like a prisoner to my heart and the memories of you now that we are apart. Every day dying just a little more inside. Every day, every day that goes by.

## Happy Birthday My Love

Happy Birthday My Love  
Although we are no longer  
Together anymore I still wish  
The very best for you well and  
On this day of all days I hope  
You get all you want and more!  
May the sun shine down on  
You where-ever you are yeah  
And keep that fire burning in  
Your heart, don't you know  
That's what I always loved  
About you and that intense  
Charisma I've never known in  
Any other, I know, I know I  
Will love you forever!  
Damn the people, the rumors  
And lies that came between us  
Still I have no regrets no, I'm just  
Happy to have all those tender  
Memories of sweet, sweet yesterday  
But I'd be a liar if I said I never  
Prayed God would send you back to  
Me before I go to my grave.  
You are one in a million so keep  
That fire burning in your heart  
Where-ever you are I sincerely  
Wish you a very, very Happy Birthday  
Now Happy Birthday My Love!

## Don?t Worry about Tomorrow (God is Already There)

DON'T WORRY ABOUT TOMORROW GOD IS ALREADY THERE

have faith of the heart and believe in the power of prayer I know  
there are those out there that just love to make you feel unworthy  
but don't you know God loves you more than you're aware so  
DON'T WORRY ABOUT TOMORROW GOD IS ALREADY THERE...

Well I know you feel down hearted today and nothing is going  
your way, somebody has hurt your feelings again and made you cry  
and you are worrying yourself sick over something tomorrow may  
or may not bring, well dry your eyes now God is on your side and you  
will survive 'cuz no matter what...

God loves you more than you can ever imagine so have faith of the heart  
and take it to him in prayer, there's really no reason to despair over tomorrow  
'cuz GOD IS ALREADY THERE...

Everything happens for a reason according to his grand plans although  
I know you wish you could understand but he has your best interest  
at heart even if it's just to make you stronger so take it in stride now  
nothing ever lasts forever and DON'T WORRY, DON'T WORRY ABOUT  
TOMORROW GOD IS ALREADY THERE!

## Where Heaven and Earth Meet

A stroke of genius like a work of art  
I can feel it in my heart now a miracle  
and a dream come true  
The breaking of bondage like little  
pieces of glass scattered apart  
coming back to myself now in the  
movement of Kiev and Curio Czar  
The turn of a new century and 20 past  
2000 a new cycle of spiritualism has  
begun as if back to Shangri-La  
Angels have come and brought back  
peace among the land and so now I know  
the prophecy wasn't just a work of  
fiction Somewhere Between Where Heaven  
And Earth Meet 21 past 2000 life has never  
been so sweet now here, Here Where  
Heaven And Earth Meet  
Well and in a flash of brilliance divine  
by thus far a miracle and a dream comes  
true just like a work of art and a revelation  
of the heart coming back to myself, coming  
back to myself now in the movement of  
Kiev and Curio Czar!

## TIT for TAT

Why now must we fight  
like we are enemies  
when we are supposed to  
be in love...  
they say two wrongs don't  
make a right but you never  
let the little things go and  
in turn I return every negative  
and derogatory thing right  
back...it's a crying shame  
we must play these childish  
games, you hurt me, I hurt  
you back just like that,  
TIT FOR TAT...

Well but don't you think we  
it's about time we should just  
forgive and forget and get back  
loving each other like we said  
we would forever, we can't go on  
holding onto grudges that just  
promises to tear us apart but I  
know I'm just as much to blame  
as you are 'cuz you hurt me, I  
always have to hurt you back  
just like that in a snap, TIT FOR  
TAT...

I wish we could get back to the  
way we were in the start oh don't  
you know it is like a dagger in my  
heart but you never give in and I don't  
give up, it's a crying shame we play  
these childish games, you hurt me  
I hurt you back, an unbroken cycle

over and over again...

TIT FOR TAT, TIT FOR TAT!

## It?s No Secret

Walk with me through the gate and garden  
I have a story to tell you 'Lil darlin' but  
understand it was a different way of life  
in 1864 when the country was divided and  
thrown into a civil war...

it was then a Captain of the Union army  
was wounded at the battle of Shiloh but  
somehow he managed to escape and  
make it to this great estate in the thick  
of ice and snow well and she saw him  
looking out the big picture window..

A beautiful old maid of 29, like I said  
this was another place in time but  
despite the scandal she took him in  
and nursed him back to health but  
little did they know that cold winter day  
would change their lives forever as the  
days went by and the months turned  
into years he stayed here and they  
raised a large, large family together...

No one ever knew what happened to  
him, he changed his name and was  
never heard from again but IT'S NO  
SECRET Anymore your great, great  
grandfather was a Yankee in the civil  
war...

you said shut your mouth, it can't be  
true, I said oh but it is, it is true but don't  
worry honey child, it'll make a good  
novel or two, you said well that is for  
sure now that IT'S NO SECRET, IT'S  
NO SECRET Anymore!

## Fly

Sundown on a January Sunday  
a blast from the past caught me  
by surprise although we have  
been estranged someone could  
of told me you died, now I am  
in mourning regretting that we  
never got to reconcile so but with  
tears in my eyes on this cold, cold  
January night in the shadow of  
a full moons light I say I'm sorry  
I know I could of been a better  
son but a wild horse will run...  
But now you can put your wings  
up, put your wings up, put your  
wings up and fly but please  
daddy please don't forget me  
over on the other side...  
But put your wings up, put your  
wings up, put your wings up  
and FLY, just go on and FLY  
now FLY, just FLY!

## The One in Control

Sometimes we all get to feeling  
a little lonely and sad, sometimes the  
darkness can be so overwhelming  
there just doesn't seem to be any  
light to be found but don't lose hope  
God isn't heartless and when you  
need him he won't let you down but  
you get to give it all to him and let  
all your sorrows go, the harder you  
push the stronger he will resist 'til  
you realize he is THE ONE IN  
CONTROL...

So fear thee not oh no he is in  
control, he is in control of the way  
the four winds blow, he is in control  
of the rain, the ice and snow, the way  
the rivers and the oceans ebb and flow  
and he is in control of your heart  
mind, body and soul, no matter how you  
want it to go, he is THE ONE, THE ONE  
IN CONTROL!

## Follow Your Heart

You say come and live with me  
if you want to be free who cares  
what people think I am all you need  
so don't be afraid I promise you,  
you can trust me baby  
Well and I did feel a connection  
from the start just like lightning in  
the dark so I can't help but to follow  
my heart now my bags are packed  
and ready for the my life to paint  
a new work of art  
You say you think it's time I become  
my brand new man and that this year  
is the year for a refreshing change  
you say you ain't got nothing to lose  
baby only great and wonderful things  
to gain  
And so who cares what people think  
my bags are packed and I'm a gonna  
follow my heart, I'm a gonna set my spirit  
free there just comes a time who you  
gotta live what you believe and be who  
you are now I'm a gonna follow my heart  
why don't you Follow Your Heart now  
don't you think it's time to Follow Your  
Heart and set yourself free!

## The Miracle of Love

Well I never thought I'd ever get over you  
but that was until last night when someone  
new came into my life...

now I feel a reason for going on living and  
smiling instead of crying, it's a Miracle  
plain and simple there's no denying, it's  
a Miracle, Miracle of love...

'cuz when you walked out on me I swore  
I'd never fall in love again, you broke my  
heart into so many pieces I couldn't  
imagine anyone could ever put it back  
together again but that was until last  
night when someone new came into my  
life...

now I feel a reason for going on living and  
smiling instead of crying, it's a Miracle  
plain and simple there's no denying, it's  
a Miracle, Miracle of love...

Well and now my heart feels full as the  
moon is tonight, you reach out to touch  
my face and all the heartaches I've been  
carrying around with me for so long just  
seem to vanish without a trace...you  
kiss me so gently and tenderly I just  
tremble in your embrace and here I  
go again falling in love once again...

now I feel a reason for going on living and  
smiling instead of crying, it's a Miracle  
plain and simple there's no denying, it's  
a Miracle, Miracle of love...

## Freedom Sea

Well there comes a time when every boy  
Must become a man but don't cry mama  
I'll be just fine on my own and I don't need  
Anyone to hold my hand I know you'll  
Miss me while I'm gone and I'll miss you  
Too but now I must be moving along  
I hear the call of the wild and I can see  
A new day a dawning out on the open sea  
Well and it's now I know this is my destiny  
Don't you go I got to follow my heart  
Wherever it takes me and there is no freedom  
Like the freedom of riding out the waves of  
A deep, deep blue sea  
I'm not saying I don't have mixed emotions  
But I'll work'em out in time so please mama  
Don't you cry God will take care of me and  
All will turn out to be fine I wanna see the  
World now and live like a gypsy I ain't  
Getting any younger don't you know, no  
And I'm not getting anywhere here in a hurry  
I hear the call of the wild and I can see  
A new day a dawning out on the open sea  
Well and it's now I know this is my destiny  
Don't you go I got to follow my heart  
Wherever it takes me and there is no freedom  
Like the freedom of riding out the waves of  
A deep, deep blue sea  
This is my destiny...  
I can feel it in my heart...  
Just like a gypsy...  
Freedom calling out to me...  
Taken, taken by the sea...

## Hail Mary

Well and once again I have fallen  
fallen short of the glory oh but  
HAIL MARY full of grace and most  
most holy I have to believe that  
in my darkest hours you are  
watching over me with a tenderness  
and compassion only a mother  
can give a child, full of unconditional  
love in the name of your righteous  
sons name, Christ Jesus...

Oh holy mother surround me now  
in your warm love light, hold me in  
your arms ever so tight oh mother,  
Queen of Heaven you know I only  
want to be the man the Lord wants  
to see me be so instead of feeling  
unworthy couldn't you just cease  
the pain of my shame, couldn't you  
just look deep down into my soul  
and show our Lord that one special  
something he can find favor with me  
once again, oh I pray, pray for me  
mother Mary, most holy, most holy  
blessed virgin Mary, HAIL MARY  
full of grace, forever and ever...amen

## Temple of the Heart

Sitting here by the fireside in the shadow of a golden light I reflect on my life and once again the poet writes...

Just like a sacred journey back to The Temple of The Heart these are ancient times somewhere between the light and the dark.

And In remembrance of you I pour myself another glass of wine for all the unresolved issues left suspended in time.

But that's another story for another time I'm seeing life through different eyes now than I did yesterday. You may still say I'm a dreamer but the dreams I dream now have all taken on a whole new meaning!

But somethings never change like the color of my eyes the fire that burns inside and the tower turning...

As I journey back to The Temple of My Heart somewhere in between the light and the dark. Sitting here tonight by this fireside in the shadow of a golden light and once again the poet writes...

## Portrait of a Lady Come to Life

### PORTRAIT OF A LADY COME TO LIFE

staring out of the upper window in the broad  
daylight, starched in a broad collar and a long  
flowing dress of black, it is as cold as an icy  
January morning you just know something  
is in the room with you and if you could move  
you'd be getting out of there fast 'cuz story goes  
she was a vain and self-centered woman  
from many centuries ago but God only knows  
the true secret life that remains untold but  
the portrait of a smile less Fraulein still haunts  
those who own the painting after all this time  
a legend in her own mind, evil incarnate suspended  
in time...

### PORTRAIT OF A LADY COME TO LIFE

disrupting a God fearing family's life, greatly  
enjoying scaring the hell out of them oh and  
there she goes driving them crazy again causing  
chaos and just laughing about it but no one else  
seems to be laughing about it but there's just  
no doubt about it...

### It's THE PORTRAIT OF A LADY COME TO LIFE

morning, day and night, as cold as ice...

well my advice is to burn that damn painting and  
burn it tonight!

## Jesus is Just a Heartbeat Away

Whatever your troubles, whatever your fears  
give them to the Lord and set your spirit free  
open your heart and mind today, don't you  
know JESUS IS JUST A HEARTBEAT  
AWAY, peace and love is yours for the  
asking, there are no Angels here in waiting  
For God gave his only son so we could be  
reconciled in Heaven with him, there is salvation  
for anyone who repents and ask for forgiveness  
of their sins so worry not your soul, you are loved  
you are loved more than you'll ever know  
Jesus came into this world to save it not to  
condemn it 2,000 and something years ago  
and every minute of every day a miracle  
happens from the host of Heaven to those  
here on earth who still believe heart and soul  
It's great the world can be at peace on  
Christmas day but shouldn't we carry that  
feeling with us every day all year around  
this is my Christmas wish when tomorrow  
comes we'll all still be friends and peace  
can still be found yes this is my Christmas  
wish today for...

For God gave his only son so we could be  
reconciled in Heaven with him, there is salvation  
for anyone who repents and ask for forgiveness  
of their sins so worry not your soul, you are loved  
you are loved more than you'll ever know and  
JESUS IS JUST A HEARTBEAT, A HEARTBEAT  
AWAY!

## Oh No Not Again

Here we go again trying to revive something  
That has long since been dead and somebody  
Said I see red well and here we go again  
Going around and around again...  
Oh and I feel a strange change from the other  
Side of your closed door putting a strain on me  
Trying to sort out these mixed up feelings oh  
Don't you know it is a strain on me but here we  
Go again, OH NO NOT AGAIN...  
Well but this is the sixth day in a row the rain  
Has fallen down oh and I am just as blue, no love  
Anywhere to be found oh no and no one to wrap  
My arms around and still the rain keeps fallen  
Fallen down, down, down...  
Oh and how I wish I knew then what I know now  
But you can't go back so you just gotta try to muddle  
Through this somehow but you'd think after all  
These years it would be easier to swallow your pride  
But no one ever gets out of this world alive...  
If only I knew then what I know now but you can't  
Go back you just have to make tomorrow a little  
Better somehow...  
Oh but here we go again, OH NO, OH NO NOT AGAIN  
But here we go again, trying to raise the dead  
Somebody said I see red and here we go again  
Around and around again, OH NO, OH NO NOT AGAIN  
OH NO NOT AGAIN, NOT AGAIN!

## Just Sayin?

I know there's nothing I can say to you  
that will change your mind, you say  
it's the end of an era and a new one  
has just begun but listen to me as I  
leave this echo in your head 'cuz you  
will never get away from me no matter  
how far you run...

I'm JUST SAYIN' my love for you will  
go on and on long after you're gone  
and I'm JUST SAYIN' you will feel me  
like the cold and icy winter wind as  
the moon moves across the blue ridge  
mountains and shines through the bare  
trees...

I'm JUST SAYIN' nothing can change  
what we had when we had it all no oh  
so I'm JUST SAYIN', I'm JUST SAYIN'  
and I ain't playing, JUST SAYIN'!

## Karen

A timeless superstar she was  
You could hear it in her voice  
All her dreams, all her love  
She could just had a way of  
Touching your soul maybe 'cuz  
She had a heart of gold  
Oh now even still her songs  
Go on and on as if her spirit is  
Still reaching out to us from  
The beyond just like an angel  
Come home  
Karen Carpenter and they still  
Long to be close to you as time  
Goes by you're still loved by  
Your fans, old and new  
A timeless superstar she remains  
Something of a legacy preordained  
And as her songs go on and on  
Every time it's just like an angel  
Just like an angel come home.

*~Dedicated to Karen Carpenter~*

## Let It All Hang Out

Audacious says the eyes of blue green  
black and shiny leather from head  
to toe, you sexy thing, you sexy thing  
well and today a new love has found  
it's way to my heart and nothing  
nothing's gonna go wrong, I can hear  
the birds singing a brand new song  
and I feel absolutely fantastic...  
Oh no doubt I'm breaking out  
freedom, freedom is what I'm talking  
about and I just wanna dance and  
shout and LET IT ALL HANG OUT  
today is one of those day's I can  
say I've only dreamed about oh and  
I just wanna dance and shout and  
LET IT ALL HANG OUT...  
'Cuz oh whoa my head is spinning  
dancing up against you I'm drunk  
with desire, you sexy, sexy thing  
long blonde hair like horses mane  
blowing in the wind like wild fire  
well today love has found its way  
through the summer heat and haze  
and I am carried away by all the  
wild and naughty things you say  
oh but whoa, whoa I feel fantastic  
Well no doubt I'm breaking out  
freedom, freedom is what I'm talking  
about and I just wanna dance and  
shout and LET IT ALL HANG OUT  
today is one of those day's I can  
say I've only dreamed about oh and  
I just wanna dance and shout and

LET IT ALL HANG OUT, yeah and  
just LET IT ALL HANG OUT!

## New Orleans

Well I'm a heading back to NEW ORLEANS  
Tonight, gotta get out of this one horse town  
And back to Bourbon street where the night  
Life is hot to trot in the big city lights and the  
Music keeps you on your feet and the vampires  
Could be just about anyone you meet...  
Just hanging out in the French Quarter and  
Having a good ole time, it depends on what you're  
Looking for that depends on what you will find...  
Reading of the cards, a drink or two at this bar, a  
Drink or two at that bar, or just a one night stand  
Take your pick it's all there like liquid gold running  
Through your hands and that's why I'm heading  
Back down to NEW ORLEANS, the city of dreams  
Down in NEW ORLEANS, NEW ORLEANS!

## Lily Sweet

For years she has waited for this day  
you didn't have much to say but I  
guess it's better that way anyways  
she says she would write but they knew  
she was glad to be getting out of here  
and she did not shed one single tear  
he took her hand and said don't be  
afraid now hence forth our wedding day  
And now the Angel has earned her  
wings don't you know a heart has to  
follow its dreams, in the shadow of an  
older man and a set of golden rings  
oh lily of the valley, sunshine over  
a mountain spring, finding herself  
following her dreams and the Angel  
has found her wings...

And with child he holds her and tells  
her LILY SWEET I know you will  
make a good mother she say for the  
first time in my life I truly feel alive  
and then after another five the light  
of love still shines bright in her eyes  
And now the Angel has earned her  
wings don't you know a heart has to  
follow its dreams, in the shadow of an  
older man and a set of golden rings  
oh lily of the valley, sunshine over  
a mountain spring, finding herself  
following her dreams and the Angel  
has found her wings...

but time and child birth and the  
Spanish influenza took its toll on  
her little body and six months after

her new born Heaven set her spirit  
free, but she held on just long enough  
to kiss them all goodbye, then she  
quietly died, it was the first time he  
ever cried and now the Angel has really  
earned her wings in the valley of the  
lily, LILY SWEET in the valley of the  
lily!

## Crystal Visions

Welcome...to the 5th world of mysticism well I see  
A Crystal Vision and consulting my big black book of  
Miracles to recite the incantation you need tonight with  
A wave of my hands and a flash of light I change your  
Life...just as surely as the moon has a hold on the  
Oceans time has casted their spells on you...look for  
The day during the summer solstice when Venus  
Eclipse the sun and the night when the resurrected  
Dragon comes then and only then can the next chapter  
Begin...apprentice to the Wizard I have seen the  
Path to enlighten in a Crystal Vision of a new  
Golden age and the holy mother holding the world in her hands  
Saying ceases the violence and hate now as  
We enter the 5th world love is the new command thus I  
Say!

## Don?t Go in the Basement

Oh DON'T GO IN THE BASEMENT child,  
Don't let them in; don't let them get to you  
Keep all the doors that lead downstairs  
Double locked, I'm telling you this for your  
Own good child, do whatever you gotta do  
Just DON'T GO IN THE BASEMENT...  
For your basement is a portal to hell  
Where demons come-a crawling up from  
An old water well and a new one with  
Five heads and tails just made his way  
From out of the bottomless pit today and  
He whispers to outcome child 'cuz I know  
A really good game you'd love to play oh  
But you must be wise and see through  
His disguise, please listen to me and please  
Do not turn that key, I know at your age  
It's hard to do what you're told but if you  
Don't do what you're told you will surely be  
Ripped from the innocence of your precious  
Soul oh so...  
DON'T GO IN THE BASEMENT child 'cuz  
They are there just waiting to hurt you now  
So keep all the doors that lead downstairs  
Closed and double locked, I'm telling you for  
Your own good child, you can do whatever  
You wanna do just DON'T, DON'T GO IN THE  
BASEMENT!

## Overpowering

Oh and after all this time I've known you  
it never did cross my mind that you could be  
the one for me, was it Jupiter or was it Venus  
that has opened the door to love now after  
all this time whoa and it's OVERPOWERING  
so intense and OVERPOWERING...

Oh and in the days to come I know desire  
is gonna burn, burn hotter than the summer sun  
fire to fire, lover to lover and that's a force  
to reckon with kinda like that of Niagara Falls  
the San Andres and Mount Saint Helens  
all put together oh so intense and oh so  
very OVERPOWERING...

Oh and just like lightning and thunder  
it is the perfect storm of the heart yes  
for the very presence of you is so  
electrifying and when we kiss whoa  
the sparks fly, well I swear I have never  
felt so alive and whoa It's intense and  
so damn OVERPOWERING...

Oh and in the days to come I know desire  
is gonna burn, burn hotter than the summer  
fire to fire, lover to lover and that's a force  
to reckon with kinda like that of Niagara Falls  
the San Andres and Mount Saint Helens  
all put together oh so intense and oh so  
very OVERPOWERING...

just like lightning and thunder...  
it is the perfect storm of the heart...  
oh so intense and oh so, so  
OVERPOWERING!

## Abydos (Opening Of the Tomb)

Well I can see the golden Falcon of Edfu  
circling Abydos tonight in the shadow of  
a blue moon, I can feel the cool, cool desert  
winds walking the three star path of the  
Jackal back to Giza again pulling my cape  
up around me tight I enter the ancient and  
dark catacombs down, down to your never  
opened tomb and I recite these words from  
the Book Of The Dead...the cavern is opened  
for you in the abyss and in the sunshine  
you are released; the cavern is opened for Shu  
and if he comes out may you come out...rise now  
and take your seat in the bark of Re the great  
one who rises and shines in the waterway of  
the lake...so mote it be!

## Brave Heart

Somewhere in a cottage down by the lake lands hidden  
out of sight...superstition is like a religion no one  
understands... well and in the darkness of the night  
Lightning strikes the water parting the rain as I sit  
here by Candlelight looking through a wooden window  
pane...I hear your knock on my door but like the  
black widow spider that guards it's nest of treasures  
you should know better now Some spells are forever  
and some paths are not to be tread on, never...well and  
now this is something not even I can undo even in all  
my magic I cannot bring you back and that's that...  
cursed is the dark side of the mountain and the  
village you came from in the shadow of the black  
whole sun well I wear this ancient amulet for  
protection and keep to myself...if only some Brave  
Hearts would do that themselves but they never  
learn some spells are forever...looking out across the  
lake lands I see their spirits and the blood soaked  
sands of 1313 and a Knight Templars LastEndeavour.

## Crazy in Love

Sometimes two people just fall in love  
with each other like two moths drawn  
to a flame, I look into your eyes and it's  
then I know I have found my soul mate  
as right as rain, holding you, holding me  
you say I didn't know I was lost until  
you found me, could this be what they  
call destiny, I don't know but I'm crazy  
bout you baby, crazy, crazy for you  
baby...

It's just a shame we're both married  
and have to sneak around like we do  
but they'll both be served their divorce  
papers in a week or so and then they'll  
know bout me and you, until then I  
guess we'll do what we have to do  
just to see each other 'cuz we just  
can't get enough of each other not  
now and no not ever baby 'cuz we  
are CRAZY, CRAZY IN LOVE with  
one another, CRAZY, JUST CRAZY,  
CRAZY IN LOVE now and forever  
CRAZY, CRAZY IN LOVE I swear  
by the moon and stars above, it's  
love, it's love just CRAZY, CRAZY  
IN LOVE...

## Cross My Heart

Oh my love I know you know how  
I feel about you but I just wanted  
to tell you one more time again...  
I CROSS MY HEART and hope to die  
never will I ever stop loving you  
never will I ever tell you lies I will be  
your friend and the lover you never  
had or at the very least I will I swear  
to try, I will be everything you need me  
to be and the hand that wipes away  
the tears you cry, I will be the star  
you have wished upon a thousand  
times or the rainbow that lights up  
your cloudy skies, I will be yours  
forever, forever your one and only guy  
CROSS MY HEART, CROSS MY  
HEART and hope to die!  
well I know you know this but I just  
had to tell you again one more time  
you are every breath I take, you are  
my every heartbeat oh honey and it  
surely is sweet, Heaven is yours and  
Heaven is mine oh how I love you  
just like the red, red rose loves the  
golden sunshine, some say love is  
blind oh but not this time, we go  
together like rhythm and rhyme and  
I swear never will I ever stop loving  
you, I am yours forever, forever your  
one and only guy, forever just you and  
I, oh CROSS MY HEART, CROSS MY  
HEART and hope to die, I swear it's  
you and only you my heart beats for

oh CROSS MY HEART, CROSS MY  
HEART and hope to die, CROSS MY  
HEART and hope to die!

## Dear God

Dear God I humble myself unto thee  
on bended knees tonight by candlelight  
well some say you only stride with us  
for so long and I know I can be a better  
man than I am but please don't forsake  
me just yet as I try my level best to right  
my wrongs oh Dear God don't ever let  
the Devil pluck me out of your hands for  
I am weak Lord but you are strong and  
I've heard 'em say if you seek me with all  
your heart you will find me whether in  
the good or bad times well Dear God I  
seek you with all this heart of mine...wash  
me clean of my sins in the blood of Christ  
once again, give me just one more second  
chance once again Dear God I pray...Amen!

## Deeply Grateful

Well if I were to count my blessings  
They would outnumber the grains of  
Sand on the shore but I'm only human  
And just like everybody I often take  
Them for granted still that's no excuse  
So please forgive me Lord...for in my heart  
I am Deeply Grateful, I am grateful for  
Today that wasn't promised me, for the  
Wisdom I've learned from all the mistakes  
I've made and for the miracles you've  
Granted me and sent my way...I only want  
To be the man you want me to be so  
Please forgive me when I fall short of your  
Glory for I know if I were to count my  
Blessings they would outnumber the stars  
Above. Well I know you know I am Deeply  
Grateful, Deeply Grateful my cup overflows  
With your never ending love!

## Give Me Back My Heart

If you can't give me your full attention  
Then I don't want you in my life at all  
I don't want to hear any more of your  
Lies and no I do not want to see you  
Tonight or answer your call just Give Me  
Back My Heart and let me make a brand  
New start...go on now and find someone  
Else who doesn't care if you tear them  
Down and will not accept them for who  
They are for I will not play your game  
And they'll be no more tears in the dark  
'Cuz thus far you've proven you can not  
Keep your promises to me so go on, just  
Go on and find someone as sorry as you  
Are and Give Me, Give Me Back My Heart!

## I Am Touched

Oh yes and I AM TOUCHED by your smile, by your laughter and your charm, spending time with you is like spending time in paradise oh yes 'cuz baby I AM TOUCHED by the way you touch my face and kiss me in an explosive way oh and when I look into your eyes I realize I am loved and dear God I AM TOUCHED, I AM TOUCHED...

It's in the way you say I am the love of your life, the way you hold me tight, the way we just sit up and talk all night, it's in the way you say you rather die than loose me and again the way you hold me tight...

Oh baby 'cuz spending time with you is like spending time in paradise, looking into your eyes I realize I am loved so, so much oh and Heavens above I AM TOUCHED, mind,body and soul oh I AM TOUCHED, I AM TOUCHED more than you'll ever know, more than you'll ever know how much I AM TOUCHED!

## I Will Be Happy (No Matter What)

Well sometimes I feel like running away  
I tell myself there's not much keeping me  
Here anyhow but then I hear a voice saying  
I love you baby so want you stay, please  
Stay...well and I always do but this time  
You've got some major suckin' up to do  
Things have changed 'cuz I have changed  
Almost like overnight somehow I'm no  
Longer the fool you took for granted  
Yesterday now and so I don't care if you  
Approve of my new lifestyle now or not  
You better accept me for me or you can  
Bite me it's the only choice you got 'cuz  
Let me tell you here and now I Will Be  
Happy No Matter What...I'm not scared  
Anymore to be on my own I know I  
Will survive and like that old saying goes  
You can't keep a good man down and so  
I Will Be Happy No Matter What...they say  
Love is never having to say you're sorry so  
If I hear those words come out of your  
Mouth one more time I'll give you something  
To be sorry for 'cuz I'm not scared to be on  
My own anymore believe me or not and I  
Will Happy, I Will Be Happy No Matter What!

## If You Want It, Come and Get It

Well and if you like what you see  
then c'mon and make a move on me  
swallow your pride and don't be shy...  
Yeah IF YOU WANT IT COME AND  
GET IT, I swear you won't regret it  
we can dance and dance and dance  
'til closing time then we can take it  
to your place or mine and make  
a little magic oh no baby I promise  
you won't regret it so IF YOU WANT  
IT COME AND GET IT...  
oh 'cuz I can see you staring at me  
from across the crowded room and  
I'm hoping you will get your courage  
up to introduce yourself very soon  
and who knows this might be both  
our lucky night 'cuz we both know  
what we are doing here tonight so...  
IF YOU WANT IT COME AND  
GET IT, I swear you won't regret it  
we can dance and dance and dance  
'til closing time then we can take it  
to your place or mine and make  
a little magic oh no baby I promise  
you won't regret it so IF YOU WANT  
IT COME AND GET IT...  
IF YOU WANT IT COME ON, COME ON  
NOW AND COME AND GET IT!

## **Moonshadow Castle Curse**

Sitting here in this red velvet room  
overlooking the sea...candlelight  
strikes the piano keys and like a tiger  
on the run here I go again moving in  
for the kill casting another magic spell  
on you by force of will...can't you feel  
the magic just across the moat and the  
many crimson hills...well and can't you  
see the towers turning and burning as  
the night sky turns blue...I try not to  
take it to heart where it concerns you  
but I still do... only you can quiet the  
storm in my heart baby and end the curse,  
the curse of Moonshadow castle's tragic  
love story!

## Not Much of Nothing (If Anything)

Well and these days are sad days  
Not Much of Nothing If Anything  
To brag about I must say...well the  
Candles still burn bright, I still live  
By the moonlight and you, you are  
Still the love of my life but you are  
Nowhere to be found...well it's just  
My dreams face down and Nothing  
Much of Nothing If Anything and  
That's a heavy crown to carry around  
I fear life is slipping through my hands  
Like grains of sand through the hour  
Glass, I try to live for tomorrow but I  
Can't help from living in the past  
I'm nothing more than a the pale shadow  
Of a ghost in the fog off the Lakelands  
Tho I'm doing the best I can but it's  
Like a dagger through my heart, tearing  
Me apart but that's just my sorry excuse  
Of a life face down Nothing Much  
Of Nothing If Anything and that is a  
Heavy crown to carry around!

## Overpowering

it is the perfect storm of the heart...  
oh so intense and oh so, so  
OVERPOWERING!

## Roses from Holland

ROSES FROM HOLLAND and an invitation  
to join you there for the summer  
well in my reply I said thank you but no  
thanks if you're just looking for a lover  
I don't do like that anymore I want to  
know what this thing is now that they  
call love besides I really can't see any  
future for us so I'm sorry baby and I  
hope you understand, I am flattered  
by the roses and those pretty pictures  
of Amsterdam but we are from two  
totally different worlds and wtf we  
haven't even held hands so no I just  
don't think it would ever work out  
between us, maybe I'm just not the  
person you think I am I said in my  
reply...

Thanks but no thanks I think, I must  
decline baby still if you think you still  
can't live without me then you will  
find a way to prove it to me and well  
actually ROSES FROM HOLLAND  
is a good start, come on now your  
you are just beginning to move my  
heart but you got to prove your love  
to me and I guess you gotta start  
somewhere so ROSES FROM  
HOLLAND is a pretty good start  
ROSES FROM HOLLAND and white  
laced cards that say please come  
to HOLLAND I love you with all my  
heart!

## Sex Appeal

Well and do you like what you see baby, you can have me if you want me, if you can get into that, I'm hotter than a mule in a pepper patch after all I am a man and time is slipping through our hands well and sometimes you just need passion in your life and so I need someone like you tonight, it may be wrong but hell it's all right...

I can feel your fire all around me and it's driving me crazy, I can feel your desire holding you, dancing with me, you have intense SEX APPEAL, so intense it mystifies me, your SEX APPEAL turns me on, keeping on all night long, the feeling lingers longer even after the early mornings dawn...

whoa and just get a whiff of that cologne ummm baby did I mention how you turn me on and damn you have a body worth dying for, I don't know if I can take much more, yeah I am burning hot with desire baby can you feel the fire, fire to fire...

I am drunk on the sweetness of ecstasy, holding you closer, dancing with me, your SEX APPEAL is so overpowering it feels like a fantasy

a fantasy that really has this man turned on, keeping on all night long and the feeling lingers on even after the early mornings dawn

your SEX APPEAL and the passion lingers on and on and on!

## Sparkle

Oooh oh and you could be the reason  
for this gleam here in my eyes  
for the last few season stardust hasn't  
stopped raining down by the river side  
I stare through a cold and frosted window  
pane upstairs, looking out from my sister's  
home and my magic lamp burns all  
through the night, watching every move  
you make and tonight I can see the vision  
of you running back to me in the shadow  
of the pale blue moonlight...  
well my sister said see child I told you  
everything was gonna be alright she told  
me trust your intuition and search yourself  
for insight...  
Oooh oh and through the cold frosted  
window pane, upstairs in my sister's  
house, my magic lamp burns, burns bright  
all through the darkness and into the  
dawn's early morning light oh yeah and  
I can still hear you saying you loved the  
way my eyes sparkled in the shadow of  
firelight, I was only 19 at the time but  
love still sparkles and love still shines  
in these eyes of mine you can see just  
how love sparkles, how love still sparkles  
and shines and in a crystal vision I can  
see you running, running back to me!

## Taboo

Total abandonment of better understanding, unspoken fear and

wild eyed in disbelief, shadows in the cemetery, a lovers grief like the image in a broken mirror like a black cat crossing your path, blood stained tears falling on a single rose of black, ooh dejavoo, hoodoo and voodoo from the old country where you can hear the screaming banshee in the darkness of a starless night you can see mysterious apparitions and bright flying lights...

Well it is total abandonment of better understanding and totally Taboo!

## To My Grave

Dark and sinister rain befalling us  
I know something is wrong, I can feel it in my bones,  
Catastrophic endless fountain of blood,  
But faith refuses to panic at all...  
I will go to my grave as a soldier of the Lord...  
Yes I will go my grave fighting this war...  
I will be fearless and brave, until He gives me wings and  
I'll fly away...  
Yes I will go to my grave, praising His name forever more...  
I will go to my grave as a soldier of the Lord.  
And it won't be long now, I know...  
Jesus is coming, I can hear Gabrielle's trumpet...  
I can hear my body turning away from my soul,  
I can see the angels waking those who have long slept,  
I can hear the sound of Michael's shield and sword...  
Well, I fight like I've never fought before,  
'Cuz he gave me His heart, so I'll give Him mine, for sure...  
And I'll go to my grave and as a soldier of the Lord...  
Fearless and brave, I'll go to my grave,  
I'll go to my grave, as a soldier of the Lord.

## Velvetine Velour

Well I fancy her, I fancy you, fancy that and it sure feels good, the way you touch my face, the way you kiss my lips and your body close to mine, candle light and fire light intensifying the mood, ecstasy under a red velvet blanket, under me, over you whoa this is wild even to this wild heart of mine well now I fancy this, that and you oooh yeah and that feels so good...

Although the rain outside continues to fall and this early February wind is subzero I am as snug as a bug in a rug oh what a valentines night to remember, passion like I've never known before, heart to heart and skin on skin and then for whatever reason that remains therefore and again and again and even then once more oh what a feeling on the bed, in the floor all over VELVETINE VALOUR...

It's coming to the point morning will find us closer together, falling in love with each other, a burning desire like a fire from one lover to another, the way you touch my face, the way you kiss my lips and your body next to mine oh this is wild now even to this wild, wild heart of mine, what a valentines night to remember, romantic and erotic beyond anything you could compare it to oh now and I fancy her, I fancy you and I fancy that too, whoa and it sure feels so damn good, and even then once more, on the bed, in the floor oh what a feeling, oh what a feeling all over VELVETINE VALOUR!

## Where Did I Go Wrong

Well you won my heart even tho it was hard for you to do  
Then you broke my heart after I had fallen madly  
Head over heels for you so I wonder was it me, did I  
Do something wrong...I wish I could find you and ask you  
But you've been long since gone well sometimes  
I wish I had never met you then your memory wouldn't  
Haunt me every day and every night just sitting here  
All alone by the phone in the shadow of candlelight  
Wondering if I ever cross your mind after all this time  
And still asking myself if I did something wrong...  
There's no doubt you left your mark on my heart  
Although it's been many a moon since you've  
Been gone well how long can my love for you  
Go on, how long can I keep racking my brain  
Trying to figure out Where I Went Wrong, love  
I wish I knew, I wish I knew Where Did I Go  
Wrong?

## Win You Over

Well and the day I met you was the day  
I heard Angels sing and I was under your  
spell in case you couldn't tell, you gave me  
a new meaning to the dream of dreams  
as my heart lost its self in your sky blue  
eyes...

Oh and I know I could be your friend and  
your lover but how do I WIN YOU OVER  
I know I could be your one and only one  
forever and I know it would be paradise  
oh spending all of our time together but  
how, how do I WIN YOU OVER...

'Cuz baby I have looked for someone  
like you my whole life and I don't need  
no fortune teller to tell me this is meant  
to be, I can just imagine how it would  
feel to kiss you now and hold you tight  
lost in your beautiful, beautiful sky blue  
eyes...

Oh and I know I could be your friend and  
your lover but how do I WIN YOU OVER  
I know I could be your one and only one  
forever and I know it would be paradise  
oh spending all of our time together but  
how, how do I WIN YOU OVER...

WIN YOU OVER, WIN YOU OVER!

# YOU

Oh what I wouldn't give to be loved by YOU  
oh what a dream come true 'cuz YOU just  
got that certain something that fascinates  
me baby and pleasing YOU would only  
please me oh how I wish YOU would  
notice me 'cuz I'd give anything to be loved  
by YOU...

Well can't you see it in my eyes or are YOU  
just hopelessly blind, surely you're not so  
blind to read all the signs or maybe then again  
maybe YOU just don't give a damn 'cuz I am  
who I am, still I want YOU oh yes I do...

Oh what I wouldn't give to be loved by YOU  
oh what a dream come true 'cuz YOU just  
got that certain something that fascinates  
me baby and pleasing YOU would only  
please me oh how I wish YOU would  
notice me 'cuz I'd give anything to be loved  
by YOU...

Oh 'cuz I am so crazy about YOU, I pray  
someday YOU will want me too, maybe  
someday that dream will come true 'cuz  
yes I am just so crazy 'bout YOU, YOU  
and only YOU...

SO Oh what I wouldn't give to be loved by YOU  
oh what a dream come true 'cuz YOU just  
got that certain something that fascinates  
me baby and pleasing YOU would only  
please me oh how I wish YOU would  
notice me 'cuz I'd give anything to be loved  
by YOU...

Loved, loved by YOU!

## You've been on My Mind

After seeing you again yesterday  
I just can't think of anything else  
but you, oh your beautiful face  
your pretty eyes and your wicked  
little grin makes me wanna get  
to know you better if you know  
what I mean and I think you do...

Darlin' You've BEEN ON MY MIND  
all day today as the rain comes  
and goes away I wish I could see  
you right now more than words  
can say 'cuz YOU'VE BEEN ON  
MY MIND, YOU'VE BEEN ON MY  
MIND all day today...

Oh and after seeing you again  
yesterday, I could tell just by talking  
to you that this time around we could  
be more than just friends and although  
I am a little older than you, age is just  
a number in the end, what matters most  
is what you feel way deep down within  
and...

Darlin' You've BEEN ON MY MIND  
all day today as the rain comes  
and goes away I wish I could see  
you right now more than words  
can say 'cuz YOU'VE BEEN ON  
MY MIND, YOU'VE BEEN ON MY  
MIND all day today...

but really YOU'VE BEEN ON MY  
MIND for a long, long time...  
YOU'VE BEEN ON MY MIND!

## You?ve Got Me Going

Well and it's just like you did  
start up an old, old car now  
you've got my motor running  
bout to overheat, 'bout to blow  
a fuse, bout to throw a spark  
you're driving me wild down  
romance street oh yeah baby  
YOU'VE GOT ME GOING

Well and just like flying a  
World War 2 airplane  
straight up into a big blue  
sky oh and I'm about to  
flip a gage, tripping on a high  
oh yeah baby YOU'VE GOT  
GOT ME GOING...

Well and just like an old  
and forgotten steam engine  
you've got my whistle blowin'  
bout to jump track, bout to  
blow my stack, rockin' and  
rollin' on down the railway of  
love...

Well oh yeah baby YOU'VE  
GOT ME GOING, YOU'VE GOT  
ME GOING, GOING, GOING  
GONE!

## You've Got Class

Oooh somewhat of a Charles Dickens  
Character from your hat to your boots  
Well I can tell you're different than most  
People these days but hey that's a good  
Thing it's got my goat if you know what  
I mean, yes you got what it takes, you  
Got what it takes, you just seem to radiate  
Oh yeah and baby You've Got Class  
You've got it going on dear freshman  
I just gotta ask do you want me 'cuz  
I want you whether it's right or wrong  
You've got me in a state of ummhmmness  
Well you've got it going on, you've just  
Got it going on and I am a gasp at your  
Jaw dropping kinda class  
Cool, confident and self-assured you  
Could charm the pants off of anyone  
Anywhere, anytime but you know that  
Don't you well your eyes make that clear  
But hey that's a good thing just go ahead  
Baby and lay it on the line it's got my goat  
Yeah it's got my goat by the throat, it's  
Got me feeling hotter than a pepper sprout  
Over you now 'cuz you've just got what it  
Takes and you radiate, you just seem to radiate  
'Cuz you just got this certain kinda class  
Dear freshman and I want you, I want you  
Right or wrong you've got me in a state of  
ummhmmness well you've got it going on,  
You've just got it going on and I am a gasp  
At your jaw dropping kinda class, damn baby  
You've Got Class!

## You're My Hero

Well and you are one of a kind  
There's no one in the world like you  
I know 'cuz you lift me up so high  
When I'm down so low...  
That's why you're My Hero and I  
Know I ain't got nothing to fear  
When you are around 'cuz  
Not even the Lone Ranger has  
Nothing on you and not even  
Superman can do the things you do,  
You've saved me from myself many  
Countless times don't you know?  
That's why you're My Hero!  
What in the world would I do?  
Without you, you are my saving  
Grace quite surely,  
God must have known I would come  
To need you and sent you to me  
Now there's no shadow of a doubt,  
No real reason to be afraid with you  
In my life everything will always  
Work its way out 'cuz  
You're My Hero, my friend and  
My hero, don't you know...  
You have saved me from myself  
Many countless times and allowed  
Me to live to see another tomorrow  
That's why you're my Hero,  
Yes You Are My Hero!

## You're Crazy

Well and You're Crazy if you  
think I'm gonna let you bring me  
down again, if you think you  
can just come back into my life  
after being gone so long and  
expect me to take you back  
just like that...You're Crazy  
if you think I'm still in love with  
you after all the hell you put  
me through , You're Crazy  
You're Crazy baby if you think  
I'm gonna let you bring me  
down again and just forgive  
and forget and start all over  
again...well You're Crazy  
you're just freaking crazy  
So want you just get out of  
my life once and for all...there  
ain't nothing left to be said so  
stop asking me if you can call  
when will you get it through  
your hard head there's just  
nothing left to be said except  
You're Crazy if you think I'm  
gonna let you bring me  
down again, if you think you  
can just come back into my life  
after being gone so long and  
expect me to take you back  
just like that, if you think I'm still  
in love with you after all the hell  
you put me through You're Crazy  
You're just as Crazy as a loon

something of a Bevis and  
Butthead cartoon...I don't need  
your childish games, I'm no  
longer the same innocent victim  
you once had on a ball and chain  
and I'd be completely insane if  
I let you put me through that hell  
again so if you think I'm gonna let  
you bring me down again, if you  
think you can just come back into  
my life after being gone so long and  
expect me to take you back  
just like that...You're Crazy  
you're one hell of a crazy ass  
froot loop!

## Your Love is Like a Merry-Go-Round

Well you're one hopeless romantic  
Almost a border line lovesick fanatic  
But I wouldn't change you not if I could  
I love your wet and sappy kisses  
And the way you hold me so tight  
I think I'm gonna pass out from lack  
Of oxygen...some people may say  
Hey, hey, ok, ok but I think it's cute  
Maybe a little childish but you always  
Pick me up when I'm feeling down  
Just like A Merry-Go-Round  
'round and 'round of your love  
Never stops and never slows down  
Sometimes I think I'm at the circus  
The way you make me laugh  
Playin' the clown the way you pick  
Me up every time I'm feeling down  
Well your love is like A Merry-go-Round  
But I wouldn't change a thing about  
Your carnival ways if I could...yeah  
Sometimes I think I'm at the circus  
The way you just have this way of  
Making me laugh playing the clown  
Well your love is just like A Merry-Go-  
Round, never stops and never slows  
Down, your love is just like a Merry-Go-  
Round, A Merry-Go-Round never stopping  
Never slowing down!

## You, Yourself

There's good and bad in everything I guess that's just  
the way of this thing we call life but without pain  
and sorrow we wouldn't learn anything, we need a  
little rain in our lives for our souls to grow still  
even in the dark there are traces of light And You,  
Yourself can be a beacon of light for another if it's  
just to give them some hope to cope when in times of  
trouble and misery has them not knowing up from down  
you yourself can create a miracle if it's just to  
give someone a helping hand...sometimes we all need a  
helping hand so be a friend and when you need a  
friend to see you through you will find someone to  
stand by you...It's just like that old saying you  
gotta take the good with the bad tired of living,  
scared of dying it's like we're caught somewhere in  
between but faith and prayer is a powerful thing and  
You, Yourself can create miracles we are only a little  
lower than the Angels and even on those cold and  
starless nights there are still traces of light...

## You Know Me

Well YOU KNOW ME and what makes me smile  
YOU KNOW ME and what makes me cry  
YOU KNOW ME and you still love me all the while  
YOU KNOW ME and how quite difficult to get  
Along with sometimes still you stand by my side  
I guess it's 'cuz YOU KNOW ME, YOU KNOW  
ME better than I know myself and still you love  
Me more than you even love yourself...  
Well it just blows my mind, you seem to know  
What I'm gonna say even before I say it  
Well darling are you some kinda psychic or  
Can you just look into my eyes and read my  
Soul well I don't know but you got me riding  
High on magical rainbows and it feels good  
Oh how did I ever get by before without you  
It can't be anything other than divine intervention  
That brought us together and it's now I know  
We'll always be together, forever together 'cuz  
How else can you explain how you knew I was  
The one for you from the word hello you just  
Knew all you'd ever need to know, it's just like  
You looked into my eyes and read my soul for...  
YOU KNOW ME and what makes me smile  
YOU KNOW ME and what makes me cry  
YOU KNOW ME and you still love me all the while  
YOU KNOW ME and how quite difficult to get  
Along with sometimes still you stand by my side  
I guess it's 'cuz YOU KNOW ME, YOU KNOW  
ME better than I know myself and still you love  
Me more than you even love yourself...

## Wishing On Stars

Well there is more to me than meets  
the eye but it seems like nobody can  
see the beauty inside...I'm so sick and  
tired of players and their games it's  
enough to make you wanna give up  
on love but I can't give up on love  
maybe I'm a dreamer from an era long  
gone when holding hands meant something  
and a kiss came straight from the heart  
maybe I'm old school and just a hopeless  
romantic... the few that are still alive  
but I still wanna believe there's someone  
out there for me but it seems so, so long  
alone...how long can I go on Wishing On  
Stars trying to keep faith of the heart and  
Wishing, just Wishing On Stars!

## Winter Rose

Here comes the snow again  
some people love it, I hate it  
I'm more of a Summer kinda guy  
it's much too depressing to me  
being coped up inside looking  
out my frost covered windows  
and seeing no sun up in the sky  
as the days go by...

But something beautiful touched me  
today, deep, deep down in my soul  
you called me and said get ready  
were gonna take a ride in my jeep  
up to lookout mountain, you need to  
get out of the house and I'll keep you  
warm if you get cold...

We went walking through the woods  
playing in the snow but right before  
we turned to go I caught something  
interesting out of the corner of my eye...

It was a red rose buried deep in the  
snow and as if by some kind of magic  
spell it was still alive, it was at that  
moment I realized, if such a fragile and  
beautiful thing can survive the dead  
of Winter...well so can I, so can I...

it's now I know it's the little things  
that make you happy and glad to  
be alive!

## Win You Over

Well and the day I met you was the day  
I heard Angels sing and I was under your  
spell in case you couldn't tell, you gave me  
a new meaning to the dream of dreams  
as my heart lost its self in your sky blue  
eyes...

Oh and I know I could be your friend and  
your lover but how do I WIN YOU OVER  
I know I could be your one and only one  
forever and I know it would be paradise  
oh spending all of our time together but  
how, how do I WIN YOU OVER...

'Cuz baby I have looked for someone  
like you my whole life and I don't need  
no fortune teller to tell me this is meant  
to be, I can just imagine how it would  
feel to kiss you now and hold you tight  
lost in your beautiful, beautiful sky blue  
eyes...

Oh and I know I could be your friend and  
your lover but how do I WIN YOU OVER  
I know I could be your one and only one  
forever and I know it would be paradise  
oh spending all of our time together but  
how, how do I WIN YOU OVER...

WIN YOU OVER, WIN YOU OVER!

## Willow

A curse and a blessing sometimes you lose, sometimes  
you win, somewhere between darkness and dawn a candle  
in the wind... I take it to the heart, I take it on the  
run crossing some crazy state line one more time still  
hearing you say, "when you get what you want you don't  
want it anymore" well then you must still want me  
life can be something of a mystery So if you don't  
know the answers to their questions fake what you  
don't know and when the big wind blows rock on like a  
Willow Well it's just like the calm before the storm  
sometimes Heaven, sometimes Hell still under your  
spell But dreams survive and what's been done has been  
done I can hear you saying, "Don't ask me questions you  
already have the answers to" but nobody has all the  
answers not even you so...I go blindly today into tomorrow  
but when the big wind blows I will rock on, rock on  
just like a Willow!

## Widow's Hill

Even when the night air is calm  
and still you can hear the wailing  
of women from the past that flung  
themselves off of WIDOW'S HILL  
to the cold, cold ocean below and  
legend has it at Collinwood they're  
waiting for another jaded woman  
to join them at the bottom of  
WIDOW'S HILL where their restless  
spirits wonder still...

Well listening to this tragic story  
gave Victoria Winters the shivers  
and she couldn't sleep a wink  
that night, she wondered what in the  
world could be so bad that these  
women would take their own lives...

The Mistress of Collinwood said "oh  
my dear I'm sorry if I upset you, pay no  
more mind to these silly stories and  
that's all they are nothing but silly old  
stories" but Vicky said I must be crazy  
but I feel like they're trying to lure me  
to my death I don't know why that's  
just the way I feel and I can't help  
myself, especially after seeing the  
shadow of a lady in white at the top  
of WIDOW'S HILL last night"...

The mistress of Collinwood said "oh  
darlin' it must of been your imagination,  
I've never heard or seen anything out  
there but if that's how you feel then please  
promise me you'll take someone with you  
if you must go out there" Vicky agreed but

she knew the Mistress of Collinwood was  
lying and just trying to relinquish her fears  
Vicky knew the stories were true just as  
she knew she had heard their wailing on  
this cold October night and it wasn't the  
wind because the night air was calm and  
still, yes she knew it had to be the restless  
spirits of those poor, poor widows that still  
haunt the high ledge and rocky ocean  
below WIDOW'S HILL!

## Who's Your Daddy?

Oooh baby ride that horsey  
harder and harder, faster and  
faster...keep it Cumming, no  
don't stop now just keep it  
Cumming...well ain't this  
what you came here for now  
Hugh now baby don't lie  
I know you got that fire  
deep down inside but tell  
my baby, now tell me  
Who's Your Daddy  
yeah say my name, say  
my name, two part pleasure  
a little like sweet as candy, a  
little like lip biting pain...  
building up like a volcano  
oh so good from head to toe  
yeah and do that again,  
ummm yeah do that again  
ride that horsey, it's your  
horsey baby ride it all the  
way to town...Let me hear  
that sweet sticky sound and  
say my name, say my name  
now baby Who's Your Daddy.  
Who's Your Daddy!

## Where Heaven and Earth Meet

A stroke of genius like a work of art  
I can feel it in my heart now a miracle  
and a dream come true  
The breaking of bondage like little  
pieces of glass scattered apart  
coming back to myself now in the  
movement of Kiev and Curio Czar  
The turn of a new century and 20 past  
2000 a new cycle of spiritualism has  
begun as if back to Shangri-La  
Angels have come and brought back  
peace among the land and so now I know  
the prophecy wasn't just a work of  
fiction Somewhere Between Where Heaven  
And Earth Meet 21 past 2000 life has never  
been so sweet now here, Here Where  
Heaven And Earth Meet  
Well and in a flash of brilliance divine  
by thus far a miracle and a dream comes  
true just like a work of art and a revelation  
of the heart coming back to myself, coming  
back to myself now in the movement of  
Kiev and Curio Czar!

## When You Kiss Me

When you kiss me you  
Set my heart on fire!  
You send me into frenzy,  
A frenzy of sweet burning  
Desire!

When You Kiss Me I am  
Like putty in your hands  
It's nothing short of ecstasy  
Sheer ecstasy and love,  
Love that makes a stand!  
Every time you kiss me,  
Baby every time you kiss  
Me, I get the feeling this  
Is forever and everyday  
It just keeps getting better  
And better!

My love, I've waited a long  
Long time for you...  
Through many lonely day and  
Nights but now here I am in your  
Arms holding you, holding  
Me tight!

And When You Kiss Me  
You set my heart on fire!  
You send me into frenzy  
A frenzy of sweet burning  
Desire!

Every time you kiss me baby  
Oh every time you kiss me!

## #1 Man

Whoa oh baby ain't I still your #1 Man  
do I still make you feel safe and warm  
when you are in my arms, do I still turn  
you on every time we touch, ain't I still  
the one and only one you will ever love  
well baby, oh baby, baby please tell me  
I am still your one and only man, your  
#1 MAN, your #1 man...

'cuz if you asked me to I'd give you  
the moon just because I can, I will  
protect you, I will defend you like no  
man can and when you are scared  
of the unknown I will hold your hand  
I will be your peace of mind when  
confusion clouds your mind and  
when you've taken about all you can  
stand I will wipe away your tears  
because don't you understand just  
how special you are to me well  
you are so very special to me you  
understand, I will give you the moon  
and stars just because you deserve  
it and because I am the man, I am  
the man, your #1 MAN, your #1 MAN.
