## **Be a father**

*It is not easy to be a father  
You must be firm and strong  
You navigate in trouble weather  
And hope to not be wrong*

*You are the pillars of the family  
An example to follow  
Keep straight the line of duty  
Even if your choice are narrow*

*During the time of storm  
You have to keep your calm  
Be sure everyone is warm  
And happy under the palm*

*It is hard to be a dad  
You need to show the way  
Even if it make you sad  
They is no other way*

*You need to let some space  
For the child to grow free  
To visit all kind of place  
Even if you disagree*

*Let it do some mistakes  
He will learn from them  
Be there and do what it takes  
To not be affected by them*

*Sure, you will have conflict  
But know how to forgive him  
Otherwise you going to be sick*

*And you may lose him*

*Remember all your feelings*

*When you think of your child*

*Your love has no ending*

*Show it to him and smile*

## Close your eyes

Close your eyes and start walking  
Follow your steps, breath and listen  
To the sound and his surroundings  
The air pass and whispering  
The story of the world you imagine

Close your eye and let the wind  
Kindly caressing your skin  
Listen to the kids that are playing  
And to the birds that are singing  
All will sound so amazing

Close your eye and feel your heart  
That beat everyday as new  
His like the mechanism of a car  
That runs perfectly for you

Close your eye and be grateful  
For the day that is in front of you  
Enjoy the moment and be playful  
With the one who loves you  
Always be aware and careful  
Because their love is so beautiful.

Close your eye and breath in silence  
Enjoy this time passing with yourself  
Take out all the dirt and the shells  
That your mine has been built as a fence  
Now is the time to let it be  
And finally be happy.

## The way

I wandering along the way  
Thinking about what you say  
That truth couldn't be better  
And it is a bit bitter

All I wanted from you  
Is to have your arm around me  
But you did not have a clue  
Or didn't want to see

I will stay in my sorrow  
Until you will finally realise  
That for us, it is a tomorrow  
Give it a chance to harmonised

Our heart are fit for each other  
Do not fight against the wave  
Let just be together  
Enjoy the way of the brave.

## Feeling the growth

Writing till you diving  
Feeling all her power  
Even when you are crying  
Or falling from the tower

Get it all out of your spirit  
transforming a sad thought  
Don't give up and beat it  
You may win a good thought

See what is coming  
It might be what you need  
Be careful of the warning  
And plants some new seeds

They will grow in your memories  
Sealing a partnership with love  
Reaping some new stories  
That will show you true love

## I forgot myself

I forgot myself  
And let me perish  
I put my health on a shelf  
And somehow I vanish

I lost the track  
And can't find me  
Can I come back  
To finally see

I hurt my body  
By not taking care of it  
I do feel sorry  
Hoping that I can fix it

I need to find the power  
To change the things up  
I can't get any lower  
It is time to wake up

Gathering all the energies  
To organise myself finally  
Finding the resource in me  
To beat all the negativity  
And once more be happy

## Friend support

I was tired but needed to write  
To tell you that I am grateful  
Of you bumping into my life  
To make all things less painful

When I have difficulties,  
I think about what you would say  
About the wonderful ideas  
That you gave to me on the way

Putting on the paper my thoughts  
Ease my mind for a while  
I can better think what I saw  
And maybe even smile

It is good to have a friend like you  
With whom I can be open  
To know that I can trust you  
Allow me to not getting broken

Thank you for what you do  
Bringing peace like the symbolic dove  
You are the impossible true  
That stands for friendship and love .

## Disclosure

Waiting for something  
That was promised  
Then discover those little thing  
That make you realised  
You need to do more compromised

Try to take the best of it  
And be happy about it  
But deep inside you know  
You have been hit by an arrow  
And you have to buried your sorrow

Try to continue to smile  
And do the extra mile  
That will bring you closer  
Of becoming a composer  
So just give it a try

Who knows what it will brings  
Let the unknown make his disclosure  
Do not forget where you begin  
And jump in to the future  
It will be phenomenal for sure.

## Embrace the change

Just a few days more  
And another cycle will end  
Put the bad memories in the store  
And throw the key at the end

Keep in mind the good things  
That happen during this year  
Enjoy the perfection of the rings  
And start to dance without fear

Bring up your best energie  
To start the new wave  
Play loud the boogie  
And get out of the cave

Celebrate what you accomplish  
And bury your mistakes  
Just keep the learning in flourish  
And give you a break

Let finish in beauty  
And close the page  
Make room for the newly  
That come at that stage

Be open to new adventures  
That will come for sure  
Be ready for the challenge  
And embrace the change

The year to come will be great  
If you put your mind into it  
Do not be afraid

And just dive into it.

## Adoptive parents

I was hurt and lost  
When I arrived there  
I had to travel at low cost  
And just sit on a chair

The place was beautiful  
You could hear the birds singing  
It was for me restful  
And could hear myself thinking

A fresh start was offer to me  
To try to heal and grow  
I was offering some tea  
And some juice and straw

Later on I received a family  
They were full of smiles and joy  
Without hesitation they welcome me  
This teenager a bit destroy

They show me the other way  
The way full of understanding  
Where you can hear what you say  
And at the end still standing

I finally could feel that I belong  
That happiness can be in my life  
I can recovery and be strong  
It was time to let down my knives

To discover the beauty of a family  
To enjoy every moment  
To leave at last happily

Without hearing any comments

I could learn and discover  
Because I had new parents  
That help me recover  
By been there and present

They offer me a home  
I was one of they own  
I felt that I have a home  
Where I can finish to grow

They give love unconditionally  
I could leave down my defends  
And enjoy to be part of a family  
This time I could stop to pretend

As my healing coming to the end  
I can look backwards and say thanks  
To this family who give me love  
And was supportive on the road I drove

Thank you that you opened the door  
Thank you for the love you give to me  
You have giving me a core  
That will always be with me.

## Be strong

I don't know how you feel  
And hopefully I'll never know.  
I can just imagine the pain you feel  
That brings you to the tears I saw

I wish I could have the magic  
That will erase that sickness  
It is unfair for you to be sick  
And I am drowning in sadness

I wish I could give you courage  
To get throw those hard days  
To split the pain and the rage  
And send them far away

I know it is easy to say  
But you need to be strong  
There is no other way  
To have a future where you belong

I need you to be by my side  
To raise the fruit of our love  
It is difficult and the task is wide  
But he need both of our love

As difficult as it is for the moment  
You need to fight as a superhero  
To get over this bad instant  
And be for your family a hero

Do not overthinking  
Just go to the battlefield  
You need to beat that thing

And start to recover and heal

You are not alone to struggle  
Even if it is an hard track  
We are all in this trouble  
And will help you to get back

Listen to your heart reactions  
And feel in you, our love  
Even with his imperfections  
You are the centre of this love  
And the core of our affection.

So fight and be strong  
To continue to build the way  
With all the right and all the wrong  
It is a beautiful ride anyway.

## Connecting

Connecting with my past  
To heal my thoughts  
Connecting at last  
To bring peace to my soul

Remembering the good moments  
And forgive the bad memories  
Thanks for every instant  
That gives me some glories

Be graceful for the love I received  
Even if it was for shorts duration  
Forgot when I was deceived  
And look at it with condescension

Leave on with happiness  
That give me satisfaction  
Keep smiling regardless  
Of the tought objection

Have faith in myself  
Because I am worthy  
Not hiding in the shelf  
Getting out and be happy.

## Finding

Finding your match  
That will be perfect for you  
Looking for a catch  
That will complete you

That you search for so long  
Do not think it can be a toy  
Because it will not stay long

Even if you can be hurt  
You may find the pearl  
That warm you has a fur

## Gathering

Gathering together around the table  
Catching up with your latest news  
Laughing as much you are able  
And forgetting that you had the blues

Make some new friends  
While you catching up  
Make some weekends plans  
And even some back up

Listening to the melody  
And even start dancing  
Showing off your flexibility  
While they all singing

Have a night of relaxation  
Open up for some new adventure  
Every moment enjoying the sensation  
And getting more secure

Let your heart leading  
Get it out all those feelings  
Trust for once your instincts  
Before they'll go extinct

Finally losing up more  
And go with the flow  
Get in the centre of the core  
At the end of the slow  
And let new friendships grow.

## Good morning bird?s

Good morning to the bird's  
That song the joy of the new day  
They don't tell with words  
But it is magic what they says

Hearing them when you walk  
Bring a warm feeling in your heart  
You smile and your memory recall  
The day when you were a star

Your face turn a bit sad  
But that stays wouldn't last long  
Just listen and feel glad  
That the story is still young

Those birds play a melody  
That fill you with hope  
No place for melancholy  
Just grip the rope

Stand up and let it be  
Do not over thinking  
Raise and be free  
To take a new beginning

31.03.2023

## Hard to sleep

My sleep went missing  
I don't know where  
I am not lying  
I search everywhere

I was nevertheless tired  
And yet it didn't show up  
It is like to have flat tire  
And no help coming up

I had a thousand thought  
That didn't want to go away  
At the beginning it was aughts  
But then, didn't move up his way

I tried everything I knew  
Reading and counting  
Tried even something new  
Meditation and breathing

I have to bring my last resources  
To be able to get rid of them  
I need to go to the sources  
And write all of them

To finally be free  
My mind in peace  
I can look at the three  
And fall asleep in peace.

## I am what I am

I have doubts

I have fears

I have sought

I have tears

I need to see

I need to feel

I need the key

To be real

I have the toughness

I have the power

I have the craziness

I have the tower

I am my happiness

I am my wiliness

I am what I am

And the love is in me

## It is time for me

It is time for me  
To take care of myself  
To let the others be  
And fill out my shelf

I was devoted to them  
But I can't fight anymore  
It is time for me to let them  
See what they can do more

If I want to resist the adversity  
I need to get myself together  
Rebuild and become healthy  
To finally getting better

Concentrate on what to do  
Make plan and stick with it  
Follow my heart, that will do  
For a start that should be it

Then slowly getting stronger  
In the body and in my mind  
It should have been happened earlier  
But I was too patient and kind

I thought that I can save them  
But they don't want to  
I have wasting my energy on them  
And I became sicker too

It has come the time for me  
To focus on getting well  
To release the healer in me

And listen to the bells

From this moment I am that I am

From the beginning till the end

I will prevail who I am

And will be healthy at the end.

19.08.2023

## It was a time

I remember the time  
Where I found adventure  
Even if it was in my mind  
It felt like having an armure

I could play outside for hours  
All kinds of beautiful games  
Never been bored of the flowers  
Even if they looks the same

Going with my bike on the road  
Enjoying the scenery that I saw  
Pretending that I arrive abroad  
And letting carrying by the flow

Looking up into the sky  
Admiring the sun under the tree  
Wondering if I could fly  
And be completely free

Remembering those memories  
Of a time without worries  
Bring me happy thoughts  
In those moment of doubt.

27.08.2023

## Looking at the sky

Looking at the sky  
Seeing beyond the stars  
Feeling like you fly  
While doing a par

Floating until the cloud  
Looking down the earth  
Feeling somehow proud  
To be part of the rebirth

Moving like a bird  
And see the wonder  
Has the nature gird  
The elements to be greater

Feeling the aura  
That go threw everything  
Smelling the flora  
And finally knowing

You are kind of wise  
Seeing through the creation  
You can go and rise  
Trying to fix the situation

Step by step to rebuild  
The trust that was lost  
Bringing all your skill  
To regain the love at any cost

16.03.2023

## More of you

I want more of you  
In my life and in my soul  
I feel to be close to you  
In all season and by the fall

To feel your hands all over me  
It is like a fireworks in my mind  
It blow until it cover me  
With your love that is so kind

You brought back my joy  
My flame and my inspiration  
It is like to be a little boy  
That is full of aspirations

The world look like a rainbow  
When I look into your eyes  
I just want to go with the flow  
And forgot how much I cry

The present looks brighter  
Since I met you that day  
I am no longer bitter  
Since you fell down in my way.

Helping you taking the heat

Forgive your family too  
As they are by your side  
Picking up the piece of you  
Even if you try to hide

Mostly forgive yourself

## Poem

The beauty of inspiration  
Is to travel your imagination  
No need for much concentration  
Just let it come without restriction

The words pushing in your head  
Only need a bit of arrangement  
Sort it out as long as you in bed  
For them to be magnificent

Let them appear on the paper  
To slowly form the sentence  
The rhymes are laying down better  
One by one with patience

At the end you write beautifully  
This poem that came out from you  
You read those verse finally  
It is amazing and it is so true.

## A break from the dark

During the storm  
A small light appears  
Where we forgot  
The heaviness of life

We was able to breath  
And to enjoy our stay  
It feels so great  
To have a normal day

We could even laugh  
And do some plans  
Like our sorrows was gone  
And the future was bright

It was a nice break  
Into our darkness  
A small light of paradise  
And a hope for the future

We made some new friends  
That show us it is possible  
To have a full recovery  
With patience and love.

## Not easy

My heart is beating  
My mind go crazy  
I have all those feelings  
That do not make it easy

I want to join him there  
But I have to give him space  
It is time to let him some air  
And let him explore the place

.  
He grows up so quickly  
I didn't see the time pass  
I have to trust him finally  
I know he have class

I will not rush to him  
Even if I want too  
I give my way a trim  
And cut off my goo

That is the right thing  
That a father can do  
He need to learn and think  
To become a man too.

08.10.2023

## Power up

I am falling  
Deeper and deeper  
I didn't expect that feeling  
And surely not that sooner

The worrying has fill my mind  
The nightmare start to appear  
My life is coming to the end  
And it meet all my fears

The stress and the courage  
Let place to the tiredness  
All my power and my rage  
Disappear in the thickness

My force is leaving me  
And yet I need to fight back  
The battlefield in front of me  
Just show up on the track

I need to pull up my last resources  
To stand up until the fight is over  
Show her that I can be the source  
And becoming her main power

Finding deep inside me  
The energy to stand up  
Becoming the colonne I should be  
For her to continue to wake up

This fight isn't fair  
For me or for her  
But we unite as a pair

That make our power

Breath once more to the sources

And switch to the positive

I will find in me the resources

That will bring hope to live

I know I can do it

She is strong. I see it

Together we will be fine

Because our love is divine.

## I deserve

I deserve to feel  
I deserve to live  
To go over the hill  
And be happy too

I am a human being  
I have the right to love  
To like another soul  
And wanting to be above

I need to get my emotions  
Getting out without restriction  
Letting the sentiment in the open  
And show my true affection

I need for once to feel  
And let it overwhelm me  
To be really who I am  
And stop lying to me

I need to run free  
Bringing down all the walls  
Escape the prison around me  
Getting my head out of the hole

I allow myself to feel  
I allow myself to live  
Passing the hill  
And be finally me.

28.10.2023

## Realized

I hoped that you open your eyes  
That you finally see that you need help  
But it seems now that he was just a lie  
And you don't want to get further help

I did want to believe in you  
Because I want to be with you  
But I have to be realistic  
You just want to play tricks

Did you even know what you want  
Or if you are living in a truth  
I do not have a magic wand  
That can do miracles, that is true

You say you got scared  
But it was not scary enough  
Otherwise you wouldn't dare  
Throwing all the chances you got

I am trying to not fall  
And you just do not see  
Will I make it to the fall  
Or I will drown into the sea

Maybe it is time for you to realise  
that you are hurting your loved ones  
That you alone are penalize  
By being unbarable to any one.

So maybe you should wake up  
And do the right thing for a change  
Go to face your fear and stand up

I'll be waiting when you'll get out of your cage.

## Recovery

The body remind you  
That we need to be united  
The health telling you  
That we can't be separated

What is in your mind  
Make you growth every day  
Do not try to be blind  
It will make you bleed and pay

You'll have to concentrate  
And go deep inside you  
Breathing and get detoxicate  
Of the disease that catches you

Bring the one close to you  
To connect their spirit with you  
Feel they love healing your body  
And their devotion bringing recovery

Wake up as a new persons  
The sickness has left you

## Reunion

What a wonderful thing  
When we can feel the pleasure  
To see the joy that he brings  
When he returns from leisure

We can feel the Happiness  
When the reunion is here  
Between us not more stress  
Just the joy to be here

Father and son bound  
Is stronger than ever  
Even if he growing up  
The love is there forever

## Rise up

The sadness visit me today  
Remembering the sad day  
That was a long time ago  
And with difficulty I let it go

I have once again to fight  
And find where is the light  
I know that the demons are back  
But I am not ready to pack

Let's find the best moment  
To lift up the sentiment  
To switch to positive idea  
And leave the sorrow under the three

Rise up to the happiness  
Forget the time of loneliness  
Smile and enjoy what will be  
The future is up to me.

## Searching

I need to tell you  
That life is not over  
I am still looking for you  
Even if It will take forever

Deep inside your sadness  
Is hiding a peace of happiness  
That just asks to be discovered  
And have enough to be tired

I need to find the right direction  
To help you unveil the light,  
To shine as a resurrection  
And become again bright

I really hope to succeed  
Bringing you back to me  
To provide what you need  
To survive for you and me.

## A long way

It was a long way  
Arriving to know me  
Still thinking about that day  
When all was lost for me

Looking up for hope  
I found a line of light  
Like a thin rope  
bringing brightness at the site

I fight all my thoughts  
And struggle to be me  
Someone help me to see  
That there are goods in me

I can be at ease finally  
Putting away all the knives  
Writing out what bothers me  
Brought serenity into my life

I am grateful to my friends  
That support all my nonsense  
Making through one day at the time  
And not losing my mind

I embrace all the changes  
That brings me another chance  
Putting the puzzle into one piece  
And at the end, getting me peace

## Support

Trying to keep floating  
Until the end of the day  
To let things happening  
And having no words to say

Feeling the emptiness  
That grows into your mind  
Fighting the sadness  
That makes you blind

Every single moment  
That you succeed to smile  
It is a win over the enrollment  
And you can do the extra mile

The road to your peaceful place  
Is a rollercoaster full of surprises  
But do not take it as a race  
Because the fall will be your prizes

Navigate as the wind blow  
Enjoy the scenery in front of you  
Let the positive spirit grow  
And cover the pits for you

Bring some friends to help you  
Fighting the dark thoughts  
You will see the one that are true  
And the one who was bought

And when the sky will be clearer  
Thanks them from all your heart  
Because you are now happier

They have won a place apart  
In your mind and in your heart.

## I want to feel

I want to feel alive  
I want to feel the pain  
I need to see my limit  
I need to feel sane

Bring me those feelings  
Help me to break my shell  
To realize all that meaning  
And finally liberate the spell

Release my mind from the darkness  
Set free the spirit of adventure  
Blow away all the sadness  
And light up the future

I want to feel your love  
I need to feel your friendship  
I need to see your support  
As I getting to the port

Let discover together  
What lays on the way  
Trying might be clever  
Nothing to lose anyway

Let step into the unknown  
And live our life for real  
Putting behind what we know  
And going forward to finally feel.

## Teachers

The spirit full of kindness  
You wake up in the morning  
You take a breakfast of happiness  
For a day that will be challenging

You put in your backpack  
All your knowledge  
Do not forget your snack  
To rest at the edge

They faces are lighting up  
When you appear in the classroom  
When you tell them to listen up  
You won't hear a sound in the room

They listen very carefully  
What you have to teach  
And ask you carefully  
To understand your speech

You succeed to bring happiness  
During the time of your classes  
Indifferent of the subject hardness  
They willing to be ace's

You listen to them with patience  
And explain as many time is needed  
You cherish they perseverance  
As they learn what is needed

The education that they got from you  
Will accompany them all they live

With love they will remember you  
Because you help them to arrive  
And have confidence in what they do.

## Set up your mind

It is interesting the way it's go  
Surrendering to the beauty around  
Catching the atmosphere also  
And deciding to stay another round

The dreams are the source of idea  
Running through the doors  
Getting all your thoughts at sea  
Enjoying the softness of the floor

It's amazing what we can do  
When the mind is ready for it  
We can be surprised to  
As we discover how we did it

Fight for your free spirit  
Do not let him be confined by walls  
Be sure you are able to take the heat  
And all the critics are going to fall.

## Hoping for the end

I hope it will end  
The suffering of the soul  
I hope it will end  
The beating of the words

It makes me sad  
All the situation  
It makes me mad  
To not have a solution

The sickness is the darkness  
That brings desperation to you  
I am here in your loneliness  
Trying to be strong for me and you

It is hard for me too  
To see you in this condition  
My mind is trouble too  
But I can't make any effusion

I don't know if I can resist  
Much longer the pressure  
I am trying to persist  
And still be a together

I remember the good memories  
That brings us joy and happiness  
Finding the strength in those stories  
To fight all those feelings of sadness

Love will find the way  
To bring the souls at peace  
Together is the only way

That will be the mind at ease.

## I need you

I need to see you  
To ease my heart  
I need to talk to you  
To free my mind

I am still vulnerable  
Without your support  
It feels like I scramble  
And won't get to the port

Those moments with you  
Are the real sensations  
I am completely trusting you  
It is an incredible connection

As I making progress  
You concrete my thoughts  
You may not be my mistress  
But you never leave my thoughts

You remind me to be true  
And trusting my soul  
To not concede to the blue  
And think about my goal

A friendship has ripe  
A trust was created  
It is a new ride  
That is fully tested

I need to see you  
I need to talk to you  
Because I need a friend

That I can trust till the end

## Journey

Looking into my memories  
Feeling a rich history  
There are good and bad to see  
But all of them are harmony

Be grateful for what as past  
If it was great or even wrong  
No matter what was the last  
All of that make me strong

I am pleased of what I become  
The journey wasn't easy  
I was sure this day will come  
And proved I am not crazy

Life turn out to be kind  
Happiness fill up my mind  
It brings me new wings  
Love is a powerful thing.

## Pushing limits

Pushing the walls  
Further and further  
Trying it all  
Broke them with the hammer

Discover finally what you can do  
Open your spirit to the new  
Nobody will tell you what to do  
Just go and change your view

Let the world know  
That you are ready  
To step to the unknown  
Even if it sounds crazy

Leap into the void  
And let it happen  
You do not need to avoid  
What can bring you to heaven

Be brave and let jump  
Doing what you want to do  
Nothing can be dumb  
If you enjoy your life too

## Lose of faith

Why am I weak?  
I can't stop it  
Am I desperately sick?  
That I can't control it

Do I lose faith  
On my paths  
Did I look away  
When I pass

It is time to take a turn  
To jump out of the misery  
Give away the doubt to burn  
And start a new journey

Dig and find the strength  
Look out to the beauty  
Burning deep the stains  
And finally be happy.
