## Stranger become lover

You were a stranger to me  
Still i feel connection  
In just ur first glance,

Still remember those eyes  
Who stole my sights,  
That hooded doe eyes  
Give sparkles to my life

That Bright smile  
in ur puzzle picture  
Increase my heartbeat  
By sending me to another world

We are like two end of railway junction  
Help to move forward  
Can't meet eachother  
Still love forever

Still i will say again and again....

LOVE U,TILL THE END  
FEEL EVERY MOMENT  
LEAVE U NEVER ,CHOOSE DIE OVER.

## Missing you

*Missing u very bad....*

*regret for not tell u  
Howmuch i fell for u  
Now i can't ignore  
my mysterious chapter  
With whom i fell harder*

*Each passing day  
I am falling deep and deep in love  
Wanna be with ur warmth  
Till the end of earth*

*Far away from u, still feel nearer  
Became a lovesick warrior  
Want to talk, but can't break promise  
Feeling overwhelmed  
By ur stone full of thought & wish*

*Vanish all sorrows  
After watching ur smiley face  
Have that much impact on me  
How should i ever forget ...?*

*It's unimaginable  
Ur love changed my thought  
Brought me to a lifeless desert  
Caged in a castle  
With memory shell*

*If we ever met again  
Never gonna leave u alone  
U r my first ever love*

*With whom I feel perfect glove.*

## First love

**First love....**

**Feeling is just awesome**

**Can't describe in word some**

**Late night conversation**

**Thought full emotion**

**Curious to know more**

**From bottom of the heart's core**

**Taking one step further**

**Learning details of each other**

**Deepening the stranger bond**

**By putting trust & effort**

**Sharing every situation,**

**Finding each other's words the only solution**

**Waiting for each other's text,**

**To make a long, tiring day the best.**

**Heartbeat became faster**

**After listen one voice-over**

**Deep ocean like eyes**

**Never tried of staring all times**

**Best feeling ever,**

**If it becomes forever,**

**You are the luckiest one to treasure.**

## Unspoken mystery

*Unspoken mystery...*

*You are my misery,  
You are my agony,  
Wanna heal but only by you,  
Will you be my cure, granting me for sure?*

*You are my peace,  
You are my safe place,  
Wanna go but only with you,  
Will you provide warmth, by holding me in your embrace?*

*You are my lost fragment,  
You are my enigma,  
Wanna solve but only with you,  
Will you help me find, and bring me together in one thread?*

*You are my yesterday,  
You are my today,  
Wanna make a future but only with you,  
Will you give me permission, by embracing my flaws?*

*You are mine,  
I am yours,  
Wanna adore you,  
Will you be my reverer, by staying near?*

## Sandy Conversation

*A walk on a beach,  
Both, on your bare feet,  
So close and within reach,  
A conversation brief but sweet,*

*standing beside you  
by holding hand of each other  
fading everything away like dust  
obtaining sparkles in body all over*

*watching the sunset together  
bestest feeling with exquisite ever  
this moment will stay forever  
we are long lost lover*

*staring in your prettiest eyes  
by losing all sense in glory  
took my breathe in ease  
by providing feeling of euphoric  
beach conversation of us  
gonna remain unchanged  
resolving anger by keeping my serenity  
until we meet again in eternity.*

## Me & You

Moonlight Shadows, Hand in hand,  
Leaning through the night in the meadow,  
Against the compassionate trees of faraway land...

Under unified darkness, You are only source of light  
Beside you everything twirl into Mesmerizing sight  
Togetherness of us, bend night to delight

peaceful silence , lessen the awkwardness  
bring ourselves into pure tenderness  
develop passion , fall in love with your devotion

One glance of mine, captivated as shine  
time stood still , but my love grew up hill  
heartstring became stronger, by falling harder

With thumping heart leaning for a blissful kiss  
keeping hand into your chest & listening  
heartbeat turning into a heartwarming music.

## Journey & Fun

I went out to a journey  
You & me with morning sunny  
Don't know what will happen  
But sure things gonna fun insane

Last night beaker ,Seems funnier  
Discussion about destination  
With so much concentration & confusion  
Where we gonna spend sometime more

Selecting dress for eachother  
Turns into a model Walking show here  
Complement its small thing for us  
Jealousy absolutely never stay sure

Sanity,respect, trust  
Makes our bond strong  
That day didn't went well as we planned  
Still i will say again and again  
No matter wherever we went it's unpredictable settled

Searching for a best route  
For resting a while due to tired  
When we get out for the coffee house  
But returned being frustrated due to closed-door

After find for minutes with God's sake  
We went to the old caffee  
Resting under the Air conditioner  
We experience happier ever after

Handing over the menu  
We ordered a tasteless food

That's called pestao pasta  
Which we never wanna taste again

It's not last journey  
If not went as well  
But taught us up and down overall  
Not gonna forget, will remain in memory set as perfect.

## Absence

Love...

*Lingering absence of your  
Shattering me into million pieces  
Longing for your warmth  
By burning into silent ashes*

*I can't move on from you  
Still knowing u would have forgotten me  
I am here all alone among crowds  
Still looking for your one glance*

*Wondering how to travel back to you  
Turning into emotionless day by day  
By thinking i can't get back to you  
Something is dying inside me  
Because i am longing to meet you*

*It's paining just thought of  
If already you have someone else  
It's breaking me apart  
If you already moved on from me*

*Hating this distance of us  
Living as body with dead soul  
Craving for your voice  
Still can't talk with u for once*

*Can't tell you , how i feel for you  
So far away from you  
You are staying in mind like its yours*

*So i turn you to poem as mine*

*Its absolutely not right that*

*You are mine*

*But whether you accept or not*

*I am forever yours*

*Love..*

*This absence of yours*

*Breaking me apart into million pieces*

*Come back to me & provide me a gentle embrace.*

## Him

I saw him as my world  
Put him in everything first  
He is my safety mask  
For whom i can do any task

I saw him as my world  
Keep in every thought of mine  
Want you to unfurled me  
With you everything seems twirled

I saw him as my world  
Nothing seem to go in mind of naive  
Come to my simple imaginary cave  
Only know stay near is my best cure

I saw him as my world  
Breathtaking my you  
Your name is only word  
my tongue whispered  
Be my safe guard forever

I saw him as my world  
But he'll never know  
Its only him whom i hold for years  
And can't let go for mere.

## Rain

Get a whiff of drench soil through out the rain  
storm after reached my nostrils get me chills  
Dropping water from leafs to my face  
it happened when I stand under tree branches  
RAINFALL RAINFALL RAINFALL  
I want to see u just like u FALL

## My paradise

*In every situation of mine  
I'll make you as my sunshine  
Without you this shine gone far away  
It will come back soon only if you come in my way*

*Have audacity over me  
Put my heart into fire  
Sparkle of my eyes fade away  
It will come back soon only if you come in my way*

*Become my paradise  
By taking me into your life  
Brightness turn into darkness  
It will come back soon only if you come in my way*

*Every morning your thought come first  
Like you never far from me  
By longing you hours passes away  
It will come back soon only if you come in my way*

*Never imagine my thought will be pure  
your thought always come as pristine as cure  
Glory of mine gone from long away  
It will come back soon only if you come in my way*

*All stress gone away only by your one thought  
I wonder how it will gonna feel  
If we ever meet again  
Accept eachother by embracing serendipty  
By making our love for eternity .*
