Being over 50

## Being over 50

Depressed now over 50?  
Lets just give it all we've got  
From skincare to spray tanning well we'll try the whole damn lot  
but there are no second glances or the turning of a head  
No more male admires who'd like to get you into bed  
No more of the wolf whistles when walking down the street  
No more knowing that it's you who's turning up the heat  
But then no more need to worry have you met the man for you  
And no more need to think about should I say I do  
Just strutt your stuff like always and show them how it's done  
Being over 50 doesn't mean there's no more fun

Hope you like it this is my first one with lots more to come
