About the author

My name is Stephon and I am new poetry community.

summary

Awaken

Awaken

Drawn to the light we push for clarity
following false doctrines and vain thoughts
knowing that all we had to do was ask for understanding
we blindly follow the man behind the microphone
but who really is he ?
he is an agent sent from the house of the crafty
that are only out to burn holes in our hearts and pockets
only He can wake you from the deep sleep
so seek and never quit one day you will awaken...
